Dining Services Master Planning Study
Market Research Study - May 21, 2009

## TABLE OF CONTENTS

Section 1 Summary Report of Findings<br>Section 2 Quantitative Research Findings<br>Section 3 Survey Instrument<br>Section 4 Data Tables<br>Section 5 Verbatim Comments

## SECTION 1: SUMMARY REPORT OF FINDINGS

## Introduction

University of California, Riverside engaged Envision Strategies to conduct a market research study to investigate the food service needs, preferences, perceptions and buying behavior of the campus community for use in developing a master plan for its Dining Services. A web-based, quantitative survey was issued to the UCR campus community, yielding 1,737 responses.

The research summary presented in this section of the report highlights key findings from the survey. In addition, the reader is encouraged to review Section 2 - Quantitative Survey Results, where responses to each survey question are presented in chart form, including the responses of relevant demographic sub-samples.

Additional information from the quantitative survey is included in the appendix to this report. Appendix A provides a copy of the survey instrument used, while Appendix B contains the complete set of tabulated survey data. Several of the survey questions allowed respondents to write in responses. These "verbatim" comments can be found in Appendix C.

## Demographics

1,737 respondents completed the survey, resulting in a Confidence Interval of $2.4 \%$ at the $95 \%$ Confidence Level, a high degree of statistical accuracy. Following is a breakdown of the number of respondents by academic category.

| Undergraduate Students Living On Campus | 454 |
| :--- | ---: |
| Undergraduate Students Living Off Campus | 452 |
| Graduate Student | 178 |
| Other Student | 10 |
| Faculty | 137 |
| Staff | $\underline{506}$ |
| Total | 1,737 |

Chart 1 portrays the academic classifications of the respondent group.
Chart 1: Respondent Classification

This breakdown generally mirrors that of the campus population based on statistical data found in the $U C R$ Faculty \& Staff Unduplicated Headcounts 11-2008 \& UCR Enrollment Facts Fall 2008. Faculty and Staff respondents are somewhat over-represented, as highlighted in Chart 2 that follows.

Chart 2: Survey Demographic Comparison

## Population Density

Survey respondents were asked to indicate where they typically are located just prior to breakfast, lunch, dinner and late evening (7:30pm or later). Based on the zone map below, the tables that follow provide a summary of the predominant responses for each meal.

## Breakfast and Lunch

Table 1: Population Density at Meal Times

| Population Density at Meal Periods - Top Zones | Total Respondents | Undergrad On B | Undergrad Off C | Graduate Students D | $\begin{gathered} \text { Faculty } \\ F \end{gathered}$ | Staff <br> G |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| (Sample Size) | $(1,737)$ | (454) | (452) | (178) | (82) | (506) |
| Breakfast |  |  |  |  |  |  |
| Off Campus | 23.4\% | 10.1\% | 39.2\%BG | 33.7\%BG | 40.2\%BEG | 14.2\% |
| Zone 1 | 7.2\% | 10.1\%CF | 5.5\% | 6.7\% | 0.0\% | 7.5\%F |
| Zone 2 | 19.3\% | 55.7\%CDFG | 1.8\% | 4.5\% | 2.4\% | 10.3\%CDF |
| Zone 3 | 2.5\% | 2.6\% | 1.1\% | 4.5\%C | 0.0\% | 3.4\%CF |
| Zone 4 | 22.5\% | 13.2\% | 20.8\%B | 22.5\%B | 25.6\%B | 31.8\%BCD |
| Zone 5 | 11.7\% | 5.7\% | 10.8\%B | 7.3\% | 17.1\%BD | 18.2\%BCD |
| Zone 6 | 1.1\% | 0.0\% | 3.3\%BDFG | 0.0\% | 0.0\% | 0.6\% |

| Zone 8 | 1.2\% | 0.0\% | 1.8\%B | 2.8\%B | 2.4\% | 1.0\%B |
| Zone 9 | 1.5\% | 0.2\% | 2.2\%B | 4.5\%BEG | 2.4\% | 0.8\% |
| Zone 10 | 1.5\% | 0.0\% | 1.3\%B | 2.2\%B | 1.2\% | 2.8\%B |
| Zone 11 | 2.1\% | 0.4\% | 2.2\%B | 5.1\%B | 6.1\%B | 2.0\%B |
| Zone 12 | 0.7\% | 0.4\% | 0.7\% | 1.1\% | 0.0\% | 1.0\%F |
| Zone 13 | 0.7\% | 0.0\% | 1.1\%B | 0.6\% | 2.4\% | 0.6\% |
| Zone 14 | 0.3\% | 0.0\% | 0.4\% | 0.6\% | 0.0\% | 0.4\% |
| Zone 15 | 0.5\% | 0.0\% | 0.9\%BF | 0.6\% | 0.0\% | 0.6\% |
| Lunch |  |  |  |  |  |  |
| Off Campus | 5.6\% | 1.8\% | 10.2\%BG | 7.3\%B | 7.3\% | 4.0\%B |
| Zone 1 | 6.2\% | 4.4\% | 5.8\% | 3.4\% | 3.7\% | 9.7\%BCDF |
| Zone 2 | 12.7\% | 30.0\%CDFG | 3.1\%F | 2.8\%F | 0.0\% | 11.5\%CDF |
| Zone 3 | 2.7\% | 2.0\%F | 1.8\%F | 5.6\%BCF | 0.0\% | 3.6\%F |
| Zone 4 | 47.3\% | 50.7\%EG | 46.9\%G | 59.0\%CEG | 58.5\%EG | 38.3\% |
| Zone 5 | 17.6\% | 8.1\% | 21.2\%B | 19.1\%B | 30.5\%B | 20.4\%B |
| Zone 6 | 0.5\% | 0.4\% | 1.1\%DF | 0.0\% | 0.0\% | 0.4\% |
| Zone 7 | 3.4\% | 0.7\% | 5.1\%BDF | 0.6\% | 0.0\% | 6.1\%BDF |
| Zone 8 | 0.7\% | 0.4\% | 1.5\%F | 0.6\% | 0.0\% | 0.4\% |
| Zone 9 | 0.5\% | 0.2\% | 0.7\% | 0.6\% | 0.0\% | 0.6\% |
| Zone 10 | 0.5\% | 0.4\% | 0.2\% | 0.6\% | 0.0\% | 1.0\%F |
| Zone 11 | 1.0\% | 0.2\% | 1.1\%F | 0.6\% | 0.0\% | 1.8\%BF |
| Zone 12 | 0.4\% | 0.2\% | 0.2\% | 0.0\% | 0.0\% | 1.0\%DF |
| Zone 13 | 0.5\% | 0.2\% | 0.7\% | 0.0\% | 0.0\% | 0.8\%DF |
| Zone 14 | 0.3\% | 0.2\% | 0.2\% | 0.0\% | 0.0\% | 0.6\% |
| Zone 15 | 0.1\% | 0.0\% | 0.2\% | 0.0\% | 0.0\% | 0.0\% |

Unsurprisingly, at Breakfast, the greatest concentration of Undergraduates On Campus is in Zone 2, the residence zone. The other demographic sub-samples are either off-campus or primarily concentrated in Zones 4 and 5, the academic core. At Lunch, all of the demographic sub-samples are primarily in Zone 4, and secondarily in Zone 5. The exception is Undergraduates On Campus, who are concentrated primarily in Zone 4, but with $30 \%$ indicating that they are in the Zone 2 residence zone.

| Zone 6 | 0.6\% | 0.4\% | 1.3\%DG | 0.0\% | 0.0\% | 0.4\% |
| Zone 7 | 3.7\% | 2.6\%FG | 9.1\%BDFG | 33.4\%FG | 0.0\% | 0.6\% |
| Zone 8 | 2.9\% | 0.9\% | 3.8\%B | 3.4\% | 2.4\% | 3.8\%B |
| Zone 9 | 2.1\% | 0.4\% | 1.5\% | 5.6\%BC | 2.4\% | 2.8\%B |
| Zone 10 | 2.4\% | 0.4\% | 1.5\% | 3.4\%B | 2.4\% | 4.5\%BC |
| Zone 11 | 3.4\% | 0.4\% | 2.2\%B | 5.1\%B | 7.3\%B | 6.1\%BC |
| Zone 12 | 1.4\% | 0.9\% | 1.3\% | 0.6\% | 1.2\% | 2.2\% |
| Zone 13 | 1.5\% | 0.7\% | 0.9\% | 0.6\% | 7.3\%BCD | 2.4\%BD |
| Zone 14 | 0.5\% | 0.2\% | 1.1\% | 0.6\% | 0.0\% | 0.4\% |
| Zone 15 | 1.6\% | 0.0\% | 1.8\%BF | 0.6\% | 0.0\% | 3.6\%BDF |

At Dinner and Late Evening, the population of Undergraduates On Campus shifts markedly to Zone 2, the residence zone, although $22.0 \%$ indicate that they are still in the academic core at Dinner. 31.2\% of Undergraduates Off Campus have left campus by the Dinner meal, increasing to $55.8 \%$ by Late Evening. The pattern for Faculty/Staff is similar. $44.9 \%$ of Graduate students indicate that they are still in the academic core at Dinner, and this population begins to shift off campus by Late Evening as well.

## Dining Patterns

Survey respondents were asked to indicate what they did for meal service for each meal period (breakfast, lunch, dinner and late evening) on a particular test day. The days of the week were rotated, Monday through Sunday for resident students and Monday through Friday for all other demographic sub-samples. Findings for the Total Respondent group are highlighted in the charts that follow. Findings for each demographic subsample can be found in Section 2 of this report.

Chart 3: Dining Patterns - Breakfast

$78.6 \%$ of the Total Respondent group indicated that they either skipped breakfast or ate the meal at home. The highest percentage of the population skipping Breakfast was the Undergraduates On Campus sub-sample (52.0\%). Only $13.2 \%$ indicated eating breakfast on campus, split primarily between residential restaurants, retail restaurants and the convenience stores.

Chart 4: Dining Patterns - Lunch

In total, $48.5 \%$ of the Total Respondent group obtained Lunch on-campus, versus $11.3 \%$ who purchased Lunch off-campus, and $17.7 \%$ who brown bagged this meal. Only $4.5 \%$ skipped this meal. The demographic
breakdown of those participants that made an on-campus retail or on-campus convenience store purchase is as follows:

|  | On-Campus <br> Retail Restaurant | Off-Campus <br> Convenience Store |
| :--- | :---: | :---: |
| Undergraduates On Campus | $29.3 \%$ | $6.2 \%$ |
| Undergraduates Off Campus | $33.2 \%$ | $10.8 \%$ |
| Graduate Students | $27.5 \%$ | $9.0 \%$ |
| Faculty/Staff | $27.8 \%$ | $3.3 \%$ |

Chart 5: Dining Patterns - Dinner

For Dinner, the largest percentage of respondents indicated that they prepared and ate their meal at home (51.4\%). Of the $23.2 \%$ of the Total Respondent group that ate Dinner on-campus, the largest sub-sample is Undergraduates On Campus (58.3\%) who mostly ate at the residential restaurants, followed by Undergraduates Off Campus (19.1\%). Only a small portion of Graduate Students and Faculty/Staff ate Dinner on-campus.

Chart 6: Dining Habits - Late Evening

$67.3 \%$ of the Total Respondent group indicated that they either skipped the late evening meal or ate it at home. For Undergraduates Living On Campus, $41.4 \%$ purchased a late night meal on campus, with $20.3 \%$ (almost half the total) making this purchase at Scotty's at Glen Mor. In comparison, $18.7 \%$ of this sub-sample purchased a Late Evening meal off-campus.

## Market Capture

A summary of on-campus market capture by demographic sub-sample is depicted in Table 2. Table 3 captures off-campus market capture.

Table 2: Total On-Campus Market Capture

| Meal | Total <br> Respondents | Undergrad <br> On Campus <br> $B$ | Undergrad <br> Off Campus <br> $C$ | Graduate <br> Students <br> $D$ | Faculty <br> $F$ | Staff <br> $G$ |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
| (Sample Size) | $(1,737)$ | $(454)$ | $(452)$ | $(178)$ | $(137)$ | $(506)$ |
| Breakfast | $9.5 \%$ | $17.6 \%$ CDFG | $6.0 \% \mathrm{~F}$ | $5.6 \%$ | $2.2 \%$ | $8.9 \% \mathrm{~F}$ |
| Lunch | $40.8 \%$ | $64.1 \%$ CDFG | $34.3 \%$ | $28.7 \%$ | $38.0 \%$ | $30.8 \%$ |
| Dinner | $18.0 \%$ | $50.0 \%$ CDFG | $10.6 \% \mathrm{DFG}$ | $5.6 \%$ | $4.4 \%$ | $4.2 \%$ |
| Late Evening | $2.3 \%$ | $3.1 \% \mathrm{G}$ | $3.1 \% \mathrm{G}$ | $2.2 \%$ | $1.5 \%$ | $1.2 \%$ |

Table 3: Total Off-Campus Market Capture

| Meal | Total <br> Respondents | Undergrad <br> On Campus <br> $B$ | Undergrad <br> Off Campus <br> $C$ | Graduate <br> Students <br> $D$ | Faculty <br> $F$ | Staff <br> $G$ |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
| (Sample Size) | $(1,737)$ | $(454)$ | $(452)$ | $(178)$ | $(137)$ | $(506)$ |
| Breakfast | $3.3 \%$ | $0.9 \%$ | $4.0 \% \mathrm{BD}$ | $0.6 \%$ | $1.5 \%$ | $6.3 \% \mathrm{BDF}$ |
| Lunch | $11.3 \%$ | $4.0 \%$ | $13.7 \% \mathrm{BD}$ | $7.3 \%$ | $10.2 \% \mathrm{~B}$ | $17.2 \% \mathrm{BDF}$ |
| Dinner | $18.0 \%$ | $14.1 \%$ | $24.8 \% \mathrm{BFG}$ | $24.7 \% \mathrm{BFG}$ | $12.4 \%$ | $14.6 \%$ |
| Late Evening | $16.1 \%$ | $18.7 \% \mathrm{FG}$ | $22.8 \% \mathrm{FG}$ | $16.3 \% \mathrm{FG}$ | $6.6 \%$ | $10.1 \%$ |

The results indicate that across all demographic sub-samples, on-campus dining is capturing significantly more Breakfast and Lunch meal transaction volume than off-campus dining. At Dinner and Late Night, this pattern is reversed except for Undergraduates On Campus, who eat Dinner on-campus to a much greater degree than they do off-campus.

Table 4 below compares total on-campus market capture by day-part to the percentage of respondents who purchased a meal off-campus or brown bagged.

Table 4: On Campus vs. Off Campus vs. Brown Bag Comparison

| Meal | Purchased On-Campus | Purchased Off-Campus | Brown Bagged |
| :--- | :---: | :---: | :---: |
| Breakfast | $9.5 \%$ | $3.3 \%$ | $4.6 \%$ |
| Lunch | $40.8 \%$ | $11.3 \%$ | $17.7 \%$ |
| Dinner | $18.0 \%$ | $18.0 \%$ | $2.0 \%$ |
| Late Evening | $2.3 \%$ | $16.1 \%$ | $0.8 \%$ |

The results indicate that at Breakfast and Lunch, brown bagging is stronger competition for on-campus dining than is off-campus dining. At Dinner and Late Evening, the off-campus marketplace is the primary competitor to campus dining.

Those respondents who indicated that they purchased their Lunch meal on-campus were asked to select up to two reasons why they made this decision. Findings for on-campus restaurants with 50 responses or more are reported in Table 5.

Table 5: Reasons For Making An On-Campus Lunch Purchase

| Primary Reasons | Aberdeen- <br> Inverness | Lothian | Honor <br> Roll | La <br> Fiamma | Panda <br> Express | Taco <br> Fresco | The <br> Barn |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| (Sample Size) | $(70)$ | $(124)$ | $(67)$ | $(89)$ | $(105)$ | $(62)$ | $(81)$ |
| Convenient Location | $75.7 \%$ | $58.1 \%$ |  | $30.3 \%$ | $34.3 \%$ | $51.6 \%$ | $45.7 \%$ |
| Ability to Use Meal Plan | $50.0 \%$ | $61.3 \%$ |  |  |  |  |  |
| Food Quality/Preparation |  |  | $44.8 \%$ | $50.6 \%$ | $35.2 \%$ | $56.5 \%$ | $51.9 \%$ |
| Price/Value |  |  | $29.9 \%$ |  |  |  |  |
| Quick Service/Short Wait |  |  |  |  | $35.2 \%$ |  |  |

Clearly, Convenience and Food Quality are the predominant drivers of on-campus utilization, a finding that is true across all demographic sub-samples (for further information, see the relevant charts in Section 2 of this report). Price/Value is a less significant driver than may be supposed, although this factor is more important to Undergraduates Off Campus and Faculty/Staff than it is to the other demographic sub-samples.

Respondents who indicated that they brown bagged their Lunch meal received a follow-up question that asked them to select up to two reasons why they made this choice. The following table depicts the top responses by demographic sub-sample.

Table 6: Reasons For Brown Bagging Lunch

| Primary Reasons | Total <br> Respon <br> dents | Undergrad <br> On <br> $B$ | Undergrad <br> Off <br> $C$ | Graduate <br> Students <br> $D$ | Faculty/ <br> Staff <br> $E$ |
| :--- | :---: | :---: | :---: | :---: | :---: |
| (Sample Size) | $(306)$ | $(9)$ | $(47)$ | $(51)$ | $(197)$ |
| Control Diet/Healthier | $42.2 \%$ |  |  | $45.1 \%$ | $46.7 \%$ |
| On Campus Prices Too High | $39.9 \%$ | $55.6 \%$ | $48.9 \%$ | $51.0 \%$ | $33.5 \%$ |
| More Convenient than On Campus | $26.5 \%$ |  | $29.8 \%$ |  | $27.9 \%$ |
| Wait Too Long for On Campus |  | $33.3 \%$ | $25.5 \%$ | $25.5 \%$ |  |
| Work/Study at Lunch |  | $44.4 \%$ |  |  |  |

For Faculty/Staff (the predominant brown-bagging sub-sample) the most important drivers appear to be diet control, the cost of purchasing on-campus and convenience. For students, the cost of purchasing food oncampus is the most dominant driver of brown-bagging.

Respondents who indicated that they purchased their Lunch off-campus were asked to select up to two reasons why they made this choice. The table that follows depicts the top responses by sub-sample.

Table 7: Reasons Purchased Lunch Off Campus

| Primary Reasons | Total <br> Respon <br> dents | Undergrad <br> On <br> $B$ | Undergrad <br> Off <br> $C$ | Graduate <br> Students <br> $D$ | Faculty/ <br> Staff <br> $E$ |
| :--- | :---: | :---: | :---: | :---: | :---: |
| (Sample Size) | $(192)$ | $(17)$ | $(60)$ | $(13)$ | $(99)$ |
| Like Food Off-Campus Better | $32.8 \%$ | $47.1 \%$ | $38.3 \%$ | $30.8 \%$ | $27.3 \%$ |
| Other | $32.8 \%$ | $23.5 \%$ | $31.7 \%$ | $23.1 \%$ | $35.4 \%$ |
| Less Expensive | $22.4 \%$ | $23.5 \%$ | $33.3 \% \mathrm{E}$ | $46.2 \% \mathrm{E}$ | $13.1 \%$ |
| Take a Break from Campus | $19.3 \%$ | $29.4 \%$ | $11.7 \%$ | $7.7 \%$ | $23.2 \%$ |
| Dietary Preferences Easier | $17.2 \%$ | $29.4 \%$ | $16.7 \%$ | $23.1 \%$ | $14.1 \%$ |

The major drivers of off-campus purchase behavior appear to be a preference for the foods available off-campus in comparison to on-campus, along with perceived lower cost off-campus. The majority of the 'Other' responses indicated that the respondent was not on-campus at Lunch.

## Share of Spend

Survey respondents were asked to indicate how much they spent the previous week for on-campus meal purchases versus off-campus meal purchases, not including groceries. The chart below summarizes the responses.

Chart 7: On-Campus versus Off-CAmpus Spending

Undergraduates On Campus is the only sub-sample that spends more on-campus than off-campus, with a median spend of $\$ 17.94$ per week. Graduate Students spend the most off-campus, at $\$ 27.92$ for the test week.

For the Total Respondent group and each of the demographic sub-samples, Dining Services' share of overall spend calculates as follows:

Table 8: Share of Spend

|  | Total <br> Respon <br> dents | Undergrad <br> On <br> $B$ | Undergrad <br> Off <br> $C$ | Graduate <br> Students <br> $D$ | Faculty/ <br> Staff <br> $E$ |
| :--- | :---: | :---: | :---: | :---: | :---: |
| (Sample Size) | $(1,737)$ | $(454)$ | $(452)$ | $(178)$ | $(643)$ |
| Total Spend | $\$ 34.14$ | $\$ 32.52$ | $\$ 34.97$ | $\$ 40.23$ | $\$ 32.97$ |
| Spent On-Campus | $38.8 \%$ | $55.2 \%$ | $39.8 \%$ | $30.6 \%$ | $30.7 \%$ |
| Spent Off-Campus | $61.2 \%$ | $44.8 \%$ | $60.2 \%$ | $69.4 \%$ | $69.3 \%$ |

## Food Preferences

Survey respondents were asked to indicate how frequently they would purchase a variety of different foods in a typical academic week, if conveniently available on-campus. Table 9 highlights the Total Respondent group’s mean purchase response for each food tested.

Table 9: Food Preferences

| Food | Mean Rating Total Respondents | Number of Respondents |
| :---: | :---: | :---: |
| Fresh Fruit | 2.78 | 742 |
| Health Oriented Entrees | 2.14 | 692 |
| Natural Foods | 2.04 | 675 |
| Specialty Coffees\& Espresso | 1.89 | 679 |
| Organic Foods | 1.83 | 687 |
| Mexican Food | 1.83 | 741 |
| Asian Food | 1.81 | 737 |
| Pasta \& Italian Food | 1.64 | 746 |
| Fruit/Vegetable Juice Health Drink | 1.58 | 662 |
| Grilled Chicken | 1.58 | 650 |
| Smoothies | 1.55 | 701 |
| Traditional American Entrees | 1.52 | 626 |
| Hamburgers \& Other Grilled Sandwiches | 1.51 | 729 |
| Ice Cream/Frozen Yogurt | 1.48 | 721 |
| Salad Bar | 1.48 | 673 |
| Vegetarian Entrees | 1.45 | 680 |
| Hot \& Cold Sub Sandwiches | 1.43 | 727 |
| Made to Order Salads | 1.40 | 673 |
| Baked Desserts | 1.35 | 664 |
| Made to Order Deli Style Sandwiches | 1.28 | 690 |
| Freshly Prepared Pre-Packaged Salads \& Sandwiches | 1.26 | 624 |
| Grilled Chicken Sandwiches | 1.22 | 672 |
| Specialty Sandwiches | 1.22 | 666 |
| Pizza | 1.19 | 725 |
| Bagels \& Pastries | 1.17 | 667 |
| Latin/Caribbean Food | 1.14 | 645 |
| Sushi | 1.14 | 748 |
| Grilled Seafood | 1.09 | 674 |

Table 9: Food Preferences (cont.)

| Food | Mean Rating <br> Total <br> Respondents | Number of <br> Respondents |
| :--- | :---: | :---: |
| Soup | 1.09 | 663 |
| Mediterranean Foods | 1.08 | 712 |
| Chicken Strips/Fingers | 1.00 | 625 |
| Indian Food | 0.95 | 716 |
| Wraps | 0.93 | 688 |
| Fried Chicken | 0.69 | 637 |
| Fried Seafood | 0.62 | 666 |

Table 10 reports the top seven foods, based on purchase frequency, for each of the demographic sub-samples.

Table 10: Top Seven Foods By Sub-Sample

| Top Seven Foods | Undergrad <br> On | Undergrad <br> Off | Graduate <br> Students | Faculty/ <br> Staff | Lunch <br> Brown <br> Baggers |
| :--- | :---: | :---: | :---: | :---: | :---: |
| (Sample Size) | $(454)$ | $(452)$ | $(178)$ | $(643)$ | $(307)$ |
| Fresh Fruit | 3.29 | 2.87 | 2.79 | 2.35 | 2.65 |
| Health Oriented Entrees | 2.41 | 2.28 | 2.16 | 1.84 | 1.79 |
| Natural Foods | 2.36 | 2.17 | 1.90 | 1.77 | 1.95 |
| Asian Foods | 2.33 | 2.01 | 1.62 |  |  |
| Pasta \& Italian Food | 2.30 | 2.02 |  |  |  |
| Mexican Food | 2.22 |  |  | 1.60 | 1.31 |
| Traditional American Entrees | 2.11 |  |  |  |  |
| Smoothies |  | 2.26 |  |  |  |
| Organic Foods |  | 2.05 | 1.92 | 1.63 | 1.66 |
| Specialty Coffees \& Espresso |  |  | 2.43 | 2.23 | 1.82 |
| Indian Food |  |  | 1.61 |  |  |
| Grilled Chicken |  |  |  | 1.45 |  |
| Vegetarian Entrees |  |  |  |  | 1.53 |

It is interesting to note that respondents indicate a strong orientation toward healthful offerings, and exhibit a moderately stronger preference for Natural Foods than for Organic Foods. This may be a reaction to the typically higher pricing structure of Organic products.

## Lunch Spend

Survey respondents were asked to indicate how much they typically spend for Lunch when they purchase oncampus as well as when they purchase off-campus. The chart that follows depicts the findings.

Chart 8: Lunch Spend

The results indicate that on-campus and off-campus spends by demographic sub-sample are quite similar, with the exception that Faculty/Staff spend approximately $10 \%$ more when purchasing Lunch off campus.

## Branded Food Concepts

Survey respondents were asked if Dining Services were to add off-campus restaurants or 'fast food' brands to campus which brands they would prefer. The respondents first were asked to select up to three brand categories they would prefer. The following chart highlights the responses to this question.

Chart 9: Brand Categories

> If Dining Services were to add off campus restaurants or 'fast food' brands to campus, which brands would you prefer (write-in up to three):

| $\square$ Total Respondents (1,737) | $\square$ Undergrad On (454) | $\square$ Undergrad Off (452) |
| :--- | :--- | :--- |
| $\square$ Grad Student (178) | $\square$ Faculty/Staff (643) |  |

After selecting a brand category, respondents were asked to write-in a specific brand for each of the categories selected. For the most popular brand categories, Table 11 that follows identifies the most mentioned brands in each category. Respondents were then asked to indicate how many times per week they would visit the brands they selected if conveniently located on-campus, and how much they would expect to pay for a meal. Table 12 multiplies the number of respondents selecting each brand by the reported mean weekly purchase frequency and reported average spend to compare relative transaction and revenue potential of the most mentioned brands.

Table 11: Most Requested New Brands for Campus

| Branded Food Concepts | Total <br> Respon <br> dents | Undergrad <br> On <br> $B$ | Undergrad <br> Off <br> $C$ | Graduate <br> Students <br> $D$ | Faculty/ <br> Staff <br> $E$ |
| :--- | :---: | :---: | :---: | :---: | :---: |
| Hamburger Brand | $(681)$ | $(223)$ | $(213)$ | $(53)$ | $(189)$ |
| In \& Out | $57.3 \%$ | $67.3 \% \mathrm{CDE}$ | $57.7 \%$ | $45.3 \%$ | $48.1 \%$ |
| Carl’s Jr. | $10.9 \%$ | $6.7 \%$ | $10.8 \%$ | $11.3 \%$ | $15.3 \% \mathrm{~B}$ |
| McDonald's | $8.4 \%$ | $6.7 \%$ | $9.9 \%$ | $7.5 \%$ | $9.0 \%$ |
| Sandwich/Salad/Soup Brand | $(557)$ | $(122)$ | $(149)$ | $(62)$ | $(220)$ |
| Subway | $47.6 \%$ | $55.7 \% \mathrm{DE}$ | $53.0 \% \mathrm{DE}$ | $37.1 \%$ | $41.8 \%$ |

| Quizno's | $9.7 \%$ | $9.8 \%$ | $10.7 \%$ | $14.5 \%$ | $7.7 \%$ |
| Mexican Brand | $(484)$ | $(108)$ | $(138)$ | $(49)$ | $(187)$ |
| Chipotle | $22.9 \%$ | $38.0 \% \mathrm{CDE}$ | $25.4 \% \mathrm{E}$ | $20.4 \%$ | $12.8 \%$ |
| Taco Bell | $19.0 \%$ | $19.4 \%$ | $23.3 \%$ | $20.4 \%$ | $15.0 \%$ |
| Del Taco | $9.7 \%$ | $3.7 \%$ | $8.0 \%$ | $2.0 \%$ | $16.6 \% \mathrm{BCD}$ |
| Chicken Brand | $(313)$ | $(80)$ | $(70)$ | $(32)$ | $(129)$ |
| Chick-fil-A | $28.4 \%$ | $15.0 \%$ | $25.7 \%$ | $43.8 \% \mathrm{~B}$ | $33.3 \% \mathrm{~B}$ |
| KFC | $24.0 \%$ | $35.0 \% \mathrm{DE}$ | $22.9 \%$ | $15.6 \%$ | $20.2 \%$ |
| El Pollo Loco | $20.1 \%$ | $10.0 \%$ | $18.6 \%$ | $21.9 \%$ | $27.1 \% \mathrm{~B}$ |
| Pizza Brand | $(302)$ | $(97)$ | $(101)$ | $(24)$ | $(78)$ |
| Pizza Hut | $38.4 \%$ | $39.2 \%$ | $44.6 \%$ | $25.0 \%$ | $32.1 \%$ |
| Papa John's | $11.6 \%$ | $15.5 \%$ | $6.9 \%$ | $25.0 \%$ | $9.0 \%$ |
| Round Table | $9.3 \%$ | $3.1 \%$ | $6.9 \%$ | $25.0 \% \mathrm{~B}$ | $15.4 \% \mathrm{~B}$ |

Table 12: Brand Revenue Potential

| Brand | Total Respondents | Frequency of Choice |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | Total Respondents | Respondents Choice | Mean <br> Weekly Patronage | Transactions per Week | Mean <br> Check | Weekly <br> Revenue |
| Hamburger Brand |  |  |  |  |  |  |  |
| In \& Out (390) | 1,278 | 30.4\% | 389 | 2.39 | 929 | \$6.24 | \$5,794 |
| Carl's Jr. (74) | 1,278 | 5.7\% | 73 | 2.03 | 148 | \$5.64 | \$834 |
| McDonald's (57) | 1,278 | 4.4\% | 56 | 2.25 | 127 | \$7.09 | \$897 |
| Sandwich/Salad/Soup |  |  |  |  |  |  |  |
| Subway (265) | 1,278 | 20.6\% | 263 | 2.41 | 634 | \$6.87 | \$4,359 |
| Panera Bread (72) | 1,278 | 5.6\% | 72 | 2.39 | 171 | \$7.56 | \$1,293 |
| Quizno's (54) | 1,278 | 4.2\% | 54 | 2.28 | 122 | \$8.83 | \$1,081 |
| Mexican Food |  |  |  |  |  |  |  |
| Chipotle (111) | 1,278 | 8.6\% | 110 | 2.50 | 275 | \$7.81 | \$2,146 |
| Taco Bell (92) | 1,278 | 7.2\% | 92 | 2.41 | 222 | \$5.66 | \$1,255 |
| Del Taco (47) | 1,278 | 3.7\% | 47 | 1.91 | 90 | \$6.01 | \$543 |
| Chicken |  |  |  |  |  |  |  |
| Chick-fil-A (89) | 1,278 | 6.9\% | 88 | 2.13 | 188 | \$6.68 | \$1,255 |
| KFC (75) | 1,278 | 5.8\% | 74 | 1.99 | 148 | \$6.14 | \$906 |
| El Pollo Loco (63) | 1,278 | 4.9\% | 63 | 1.90 | 119 | \$7.34 | \$873 |
| Pizza |  |  |  |  |  |  |  |
| Pizza Hut (116) | 1,278 | 9.0\% | 115 | 2.01 | 231 | \$7.59 | \$1,755 |
| Papa John's (35) | 1,278 | 2.7\% | 35 | 1.94 | 67 | \$8.06 | \$540 |
| Round Table (28) | 1,278 | 2.2\% | 28 | 1.79 | 50 | \$7.47 | \$376 |

As can be seen, In \& Out Burger has the potential to generate the most revenue followed closely by Subway.
Chipotle and Pizza Hut round out the top four.

## Preferred New Dining Locations

Survey respondents were asked to indicate a specific location on-campus that would be the most convenient to add new dining. Zone 4 - Academic Core east of the HUB, Watkins, Humanities \& Olmstead received the majority of votes ( $49.1 \%$ of the Total Respondent group). Within Zone 4, the following buildings received the most mentions:

Commons 10.0\%
Commons Expansion 7.5\%
Science Library 2.5\%

## Residential Dining and the Meal Plan

Survey participants were asked if they had a meal plan. $25.5 \%$ of the Total Respondent group indicated that they were meal plan holders, of which $80.6 \%$ were Undergraduates On Campus. Chart 10 below depicts the breakdown of meal plans owned by these respondents.

Chart 10: Meal Plan Type

Chart 11 summarizes which residential restaurant that these meal plan holders eat at most often.

Chart 11: Most Utilized Residential Restaurant

Lothian Residential Restaurant was utilized most often by the Total Respondent group and Undergraduates On Campus. After running a cross tab, the data indicates that $67.2 \%$ of Aberdeen-Inverness diners live at AberdeenInverness. The next largest percentage of Aberdeen-Inverness diners (28.1\%) live at Pentland Hills. 52.6\% of Lothian diners live at Lothian, while $44.0 \%$ of Lothian diners live at Pentland Hills. The results indicate that most A-I and Lothian residents are eating at the residential restaurant associated with their residence complex. Pentland Hills residents are using both residential restaurants.

Meal Plan Holders were asked to use a 1-10 scale (with 10 equaling total agreement) to rate their level of agreement with a series of statements regarding the residential restaurant they eat at most often. Their responses are highlighted in the table that follows.

Table 13: Meal Plan Holder Ratings

| Meal Plan Holders <br> Scale 1-10 | All | Use <br> AberdeenInverness Most | $\begin{aligned} & \text { Use } \\ & \text { Lothian } \\ & \text { Most } \end{aligned}$ |
| :---: | :---: | :---: | :---: |
| (Sample Size) | (378) | (150) | (228) |
| The dining environment at $\qquad$ is enjoyable and comfortable to hand out in for extended periods | 6.74 | 6.51 | 6.89 |
| My meal plan generally allows me to obtain food at the locations that I want to | 6.67 | 5.73 | 6.85 |
| The current dining hours at $\qquad$ generally allow me to obtain meals at the times I want | 6.26 | 5.75 | 6.60 |
| My meal plan generally meets my lifestyle needs | 5.82 | 6.47 | 5.79 |
| Overall, my meal plan provides good value | 5.74 | 5.74 | 5.68 |
| The variety of food available at $\qquad$ is generally adequate to meet my needs | 4.91 | 5.00 | 4.86 |
| The quality of food available at ____ is generally good | 4.88 | 4.99 | 4.81 |

Meal Plan Holders indicate a moderate level of satisfaction with the dining environments, convenience and service hours offered at the residential restaurants. . They indicate a low level of satisfaction with food variety and food quality at these locations

## Voluntary Meal Plans

Non-Meal Plan Holders were asked what plan features might influence their decision to purchase a voluntary meal plan using a rating scale of 1-7, with 7 being most influential. The following table highlights the responses.

Table 14: Voluntary Meal Plan Purchase Influencers

| Potential Meal Plan Features <br> Scale 1-7 | Total <br> Respon <br> dents | Undergrad <br> On <br> $B$ | Undergrad <br> Off <br> $C$ | Graduate <br> Students <br> $D$ | Faculty/ <br> Staff <br> $E$ |
| :--- | :---: | :---: | :---: | :---: | :---: |
| (Sample Size) | $(1,253)$ | $(88)$ | $(429)$ | $(176)$ | $(552)$ |
| Offer pricing discounts at register | 5.25 | 5.64 DE | 5.64 DE | 5.13 | 4.93 |
| Unused portion is fully refundable | 5.08 | 5.92 DE | 5.60 DE | 4.86 | 4.61 |
| Bonus at time of purchase | 4.90 | 5.63 CDE | 5.25 DE | 4.49 | 4.65 |
| Coupons or bonus meals | 4.68 | 5.47 DE | 5.15 DE | 4.31 | 4.30 |
| Parents willing to purchase | 2.66 | 4.06 DE | 3.97 DE | 1.96 | 1.65 |
| Other | 3.47 | 4.67 E | 4.12 E | 3.70 | 2.89 |

With 3.5 being the midpoint of the response scale, pricing discounts at the register, refundability, and bonuses at the time of purchase would be most influential in enticing Non-Meal Plan Holders to purchase a voluntary meal plan.

## Purchase Influencers

Survey respondents were asked to rate 23 factors with regard to how much they influence the decision of where to purchase a meal, utilizing a rating scale of $1-10$, with $1=$ This never influences my decision of where to purchase a meal and $10=$ This always influences my decision of where to purchase a meal. Results are recapped in the table that follows. Highly influential factors (those with ratings of 8.0 or higher) are highlighted in bold. Least influential factors (those with ratings 5.0 or below) are highlighted in red.

TABLE 15: PURCHASE INFLUENCERS

|  | Total |
| :--- | :---: |
| Importance Factors | $(1,737)$ |
| IS serves Size) | $\mathbf{8 . 7 2}$ |
| The pricing is fair and provides good value for the money | $\mathbf{8 . 6 9}$ |
| I am able to order, receive and pay for food quickly | $\mathbf{8 . 3 4}$ |
| The hours of operation are convenient | $\mathbf{8 . 3 2}$ |
| It is within walking distance at meal time | 7.88 |
| I can purchase food "to go" if I desire | 7.80 |
| It serves a wide variety of food offerings | 7.52 |
| It is located on campus | 7.50 |
| It meets my dietary preferences and/or requirements | 6.85 |
| It is a place that offers a comfortable dining environment <br> where I can meet and socialize with my friends/colleagues | 6.74 |
| It offers adequate seating so that I can dine in if I choose | 6.70 |
| It serves authentically prepared ethnic foods | 6.49 |
| It offers "combo meals" or "value meals" | 5.93 |
| It is a place that serves natural foods | 5.74 |
| It is a national or regional chain restaurant | 5.52 |
| It offers a loyalty card program | 5.35 |
| It serves locally grown products | 5.35 |
| I can call/fax my order in for delivery/pick-up | 4.56 |
| I can use my Meal Plan/Dining Dollars | 4.41 |
| I can use my UCR Card/Bear Bucks there | 4.32 |
| It is a place that brings my meal to my table | 4.30 |
| It is located off campus so that I can take a break from being <br> on campus | 4.14 |
| It serves a good selection of vegetarian foods | 4.14 |

The primary factors that are important to the UCR campus community when making decisions where to eat appear to be freshly prepared quality food and fair pricing. Other important influencers include speed of service and hours of operation. In general, factors associated with various aspects of convenience appear to be influential. The strongest purchase influencers vary somewhat by sub-sample, as shown below:

| Undergraduates On Campus |  |
| :--- | :--- |
| Fair pricing, good value | 8.49 |
| Freshly prepared quality food | 8.47 |
| Convenient Hours of Operation | 8.45 |
| Within walking distance at meal time | 8.31 |
| Order, Receive, Pay Quickly | 8.26 |
| Purchase Food 'To Go' | 8.15 |
| Use Meal Plan/Dining Dollars | 8.12 |
| Wide Variety of Food Offerings | 8.11 |
| Located On Campus | 8.10 |

| Undergraduates Off Campus |  |
| :--- | :--- | :--- |
| Fair pricing, good value | 8.83 |
| Freshly prepared quality food | 8.70 |
| Convenient Hours of Operation | 8.29 |
| Order, Receive, Pay Quickly | 8.23 |

Undergraduates Off Campus
Fair pricing, good value 8.83
Ereshly prepared quality food 8.70
Order, Receive, Pay Quickly 8.23

| Graduate Students |  |
| :--- | :--- |
| Fair pricing, good value | 8.95 |
| Freshly prepared quality food | 8.95 |
| Convenient Hours of Operation | 8.51 |
| Order, Receive, Pay Quickly | 8.26 |
|  |  |
| Brown Baggers |  |
| Fair pricing, good value | 8.81 |
| Freshly prepared quality food | 8.72 |
| Order, Receive, Pay Quickly | 8.30 |
| Convenient Hours of Operation | 8.11 |

Faculty/StaffFreshly prepared quality food $\quad 8.86$8.86
Fair pricing, good value ..... 8.65
Order, Receive, Pay Quickly ..... 8.49
Convenient Hours of Operation ..... 8.16

## Theoretical Potential to Increase Market Share

Survey participants were asked to indicate the number of times in a typical week they currently use on-campus dining operations for meals, as well as the number of times they would utilize them if Dining Services implemented the changes they desired. The first part of the question asked survey participants to identify the number of times per week they obtained meals (Breakfast, Lunch, Dinner and Late Evening) on-campus. The second part of the question asked respondents to identify how many times per week they would purchase these meal types on-campus if the campus dining program was completely reconfigured to perfectly meet their dining needs. The variance between the current and future number of times per week is the resulting increase in average transactions that could be realized in an "ideal" world. The results illustrated in Table 16 below suggest that the Lunch meal offers the greatest opportunity for additional transaction capture.

Table 16: Potential Market Share Increase

| Day Part | Weekly Use Now | Weekly Use After <br> Improvement | Weekly <br> Increase | Percentage <br> Increase |
| :--- | :---: | :---: | :---: | :---: |
| Sample Size (1,737) |  |  |  |  |
|  | 0.58 |  |  |  |
| Breakfast | 2.23 | 1.74 | 1.16 | $200.0 \%$ |
| Lunch | 0.99 | 3.73 | 1.50 | $67.3 \%$ |
| Dinner | 0.62 | 2.10 | 1.11 | $112.1 \%$ |
| Late Evening <br> Meal/Snack |  | .77 | $124.2 \%$ |  |

Table 17 focuses on the lunch meal to calculate the potential per capita revenue increase by respondent sub-sample. This is accomplished by multiplying the increase in average weekly transactions by the median amount that respondents currently spend for lunch, multiplied by 32 academic weeks for students and 45 weeks for faculty and staff.

Table 17: Lunch Weekly Average

| Lunch | Current <br> Times/ <br> Week | Future <br> Times/ <br> Week | Times/ <br> Week <br> Increase | Current <br> Cash <br> Median <br> Spend | Actual <br> Change | Academic <br> Weeks | Per <br> Capita <br> Increase |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Undergrad On | 3.26 | 4.60 | 1.34 | $\$ 6.23$ | $\$ 8.35$ | 32 | $\$ 267.20$ |
| Undergrad Off | 2.25 | 3.77 | 1.52 | $\$ 6.02$ | $\$ 9.15$ | 32 | $\$ 292.80$ |
| Graduate Students | 1.78 | 3.44 | 1.66 | $\$ 6.34$ | $\$ 10.52$ | 32 | $\$ 336.64$ |
| Faculty/Staff | 1.61 | 3.17 | 1.56 | $\$ 6.50$ | $\$ 10.14$ | 45 | $\$ 456.30$ |
|  |  |  |  | Totals: | $\$ 38.16$ |  | $\$ 1,352.94$ |

The above analysis should be considered theoretical, as the results are representative of each respondent's
individual ideals for on-campus dining. The analysis indicates that Graduate Students and Faculty/Staff are the sub-samples that offer the most upside potential for increased per capita spend at lunch. Having said this, the undergraduate student population represents the largest segment of the market and thus, although per cap potential is lower, revenue potential is highest with this group.

## Catering

$20.6 \%$ of the Total Respondent group $(1,682)$ indicated they had planned a catering event in the past year. These catering arrangers were asked to indicate which types of events they planned and if they used On-Campus Catering or Off-Campus Catering. The chart that follows depicts the responses.

Chart 12: Catering Event Types

Based on the survey results, On-Campus Catering has the most market share for all catering event types tested. Catering arrangers were then asked to rate On-Campus Catering in comparison to Off-Campus Caterers based on a series of statements, using a scale of $1-10$, with $1=I$ completely disagree with the statement and $10=$ I completely agree with the statement. Ratings are recapped in the table that follows. Areas of greatest negative variance in the responses for On-Campus Catering in comparison to Off-Campus Catering are highlighted in red.

Table 18: Catering Statements

| Agree or Disagree Statements <br> Scale 1-10 | On Campus <br> Catering <br> $(226)$ | Off Campus <br> Provider <br> $(140)$ | Variance |
| :--- | :---: | :---: | :---: |
| The on-site staff is professional in appearance and conduct | 8.06 | 8.17 | -0.11 |
| Service occurs efficiently without disruption to our meeting/event | 7.90 | 7.95 | -0.05 |
| The caterer cleans up promptly after events and leaves the facility in <br> good condition | 7.82 | 7.39 | 0.43 |
| The full cost of the event is clearly understandable at the time of <br> booking | 7.77 | 8.27 | -0.50 |
| I will continue to use this caterer for future events | 7.70 | 8.56 | -0.86 |
| The caterer provides exactly what I ordered | 7.61 | 8.39 | -0.78 |
| The events are always delivered/set up on time | 7.54 | 8.03 | -0.49 |
| The quantity of the food/beverage provided meets my expectations | 7.41 | 8.50 | -1.09 |
| Billing is timely and accurate | 7.36 | 8.50 | -1.14 |
| The quality of the food/beverage meets my expectations | 7.35 | 8.53 | -1.18 |
| The campus facilities I use for catered events are adequate to meet <br> my needs | 7.03 | 6.91 | 0.12 |
| The menu options available for me to select from are appropriate and <br> offer enough variety for my catered event | 6.81 | 7.81 | -1.00 |
| The catering service is flexible in working with my changing needs | 6.78 | 7.91 | -1.13 |
| It is easy to get in touch with the right person when placing orders | 6.67 | 8.36 | -1.69 |
| A good value is received for the price paid | 5.95 | 7.98 | -2.03 |
| I can make all of my arrangements with a single phone call | 5.93 | 7.70 | -1.77 |

The results indicate that in order to compete more effectively with off-campus caterers and improve the value perception of its services, on-campus catering should focus on providing a good value, ease of making arrangements with one phone call and getting in touch with the right person when placing orders.

## Improvements

Survey respondents were asked what Dining Services could do or improve to compare more favorably with offcampus options. Respondents were allowed to select up to two response categories out of fourteen. The response categories with the highest response rates are as follows:

Table 19: Improvements

| Desired Improvements - <br> (Two Selections) | Total <br> Respond <br> ents | Undergrad <br> On <br> $B$ | Undergrad <br> Off <br> $C$ | Graduate <br> Student <br> $D$ | Faculty/ <br> Staff <br> $E$ |
| :--- | :---: | :---: | :---: | :---: | :---: |
| (Sample Size) | $(1,737)$ | $(454)$ | $(452)$ | $(178)$ | $(643)$ |
| Price/Value Relationship | $\mathbf{3 7 . 1 \%}$ | $29.3 \%$ | $\mathbf{5 6 . 4 \% B D E}$ | $\mathbf{4 1 . 0 \% B E}$ | $28.0 \%$ |
| Food Variety \& Selection | $29.8 \%$ | $33.9 \% \mathrm{D}$ | $28.5 \%$ | $25.3 \%$ | $29.1 \%$ |
| Food Quality \& Preparation | $29.4 \%$ | $\mathbf{4 3 . 4 \% \mathrm { CDE }}$ | $25.3 \%$ | $29.8 \% \mathrm{E}$ | $21.9 \%$ |
| Hours of Operation | $25.4 \%$ | $35.0 \% \mathrm{E}$ | $29.2 \% \mathrm{E}$ | $36.0 \% \mathrm{E}$ | $12.9 \%$ |
| More/More Convenient Locations | $20.4 \%$ | $9.0 \%$ | $14.2 \% \mathrm{~B}$ | $25.8 \% \mathrm{BC}$ | $\mathbf{3 1 . 4 \% B C}$ |
| Service Speed | $14.9 \%$ | $9.0 \%$ | $12.2 \%$ | $16.9 \% \mathrm{~B}$ | $20.4 \% \mathrm{BC}$ |
| Brand Choices | $10.6 \%$ | $11.2 \% \mathrm{D}$ | $13.9 \% \mathrm{DE}$ | $6.2 \%$ | $8.9 \%$ |
| Meal Plans | $4.8 \%$ | $14.1 \% \mathrm{CDE}$ | $1.3 \%$ | $1.1 \%$ | $1.9 \%$ |

For the Total Respondent group, Undergraduates Off Campus and Graduate Students, the most desired improvement is to the Price/Value Relationship. Undergraduates On Campus would most like to see improvements in Food Quality \& Preparation, followed by Hours of Operation and Food Variety \& Selection.. For Faculty/Staff, the most desired improvement is More/More Convenient Locations, followed by Food Variety \& Selection and the Price/Value Relationship.

The reader is encouraged to review the actual Verbatim responses to this question, which can be found in Appendix C.

## Next Steps

A presentation of the Market Research results will be given at the June 4, 2009 Steering Committee meeting.

## SECTION 2: QUANTITATIVE RESEARCH FINDINGS

## Quantitative Survey Methodology

| Survey Type: | Web-based |
| :---: | :---: |
| Time to Complete: | Approximately 15 minutes - Overall, the amount and quality of information supplied by the respondents was very good and allowed for a thorough analysis of the collected data. Faculty was given the option to complete an "express" survey comprised of selected questions from the full survey. $40.1 \%$ of faculty respondents elected to take the express survey. |
| Invitation: | Broadcast email sent by University of California, Riverside containing a hot link to survey site |
| Survey Available: | April 24 - May 1, 2009 |
| Total Respondents: | 1,737 |
| Sub-Samples Reported: | Total Students - 1,094 |
|  | Undergraduates Living On Campus - 454 |
|  | Undergraduates Living Off Campus - 452 |
|  | Graduate Students - 178 |
|  | Other Students - 10 |
|  | Total Faculty/Staff - 643 |
|  | Faculty - 137 |
|  | Staff/Administrators - 506 |
|  | Student Living On Campus Residence Hall - 352 |
|  | Student Living On Campus Apartment/Family Housing - 146 |
|  | Student Living Off Campus with Parents - 168 |
|  | Student Living Off Campus On Own - 446 |
|  | Freshman - 381 |
|  | Sophomore-153 |
|  | Junior - 185 |
|  | Senior - 187 |
|  | Meal Plan Holder - 429 |
|  | Non Meal Plan Holder - 1,253 |
|  | Catering Arranger - 347 |
|  | Non Catering Arranger - 1,335 |
|  | Male - 594 |
|  | Female - 1,100 |
|  | Lunch Brown Baggers - 307 |
| Confidence Interval: | $2.4 \%$ at the $95 \%$ Confidence Level - That is, if the same question is asked 100 times, 95 times out of 100 , the new answer will fall within a range of $+/-2.4 \%$ of the answer presented in this report. The independent data research firm IDE Associates of Whitman, Massachusetts tabulated survey results and provided statistical testing. |
| Support Documentation: | A copy of the survey instrument used for the research can be found in Appendix A of this report. Data tables of tabulated results are provided in Appendix B. In reviewing these data tables (as well as the tabulated results presented in this section), the reader will note that each demographic sub-sample is identified by a different capital letter. When a capital letter is noted beneath a particular sub-sample response, it signifies that the response for that sub-sample is significantly different than the response of the subsample denoted by the capital letter, at the $95 \%$ confidence level. Several survey questions encouraged the respondent to write in a comment; these "Verbatim" responses are presented in Appendix C. |
| Statistical Significance: | Generally speaking, Faculty and Staff sub-samples are reported as one respondent group. Faculty findings are reported separately only when there is a statistically significant variance between Faculty and Staff responses. |

## Tabulated Results

Data is presented in the approximate order the respondents received the questions. Beneath each chart is a reference to the location of the corresponding data tables in Appendix B of this report.

(Data Tables; pages 164-175)

## 9. Meal Plan Holders

(Data Tables; page 180)

(Data Tables; page 181)

## 9. Residential Restaurant Use

(Data Tables; page 182)
After running a cross tab, the data indicates that $67.2 \%$ of Aberdeen-Inverness diners live at Aberdeen-Inverness. The next largest percentage of Aberdeen-Inverness diners (28.1\%) live at Pentland Hills. 52.6\% of Lothian diners live at Lothian, while $44.0 \%$ of Lothian diners live at Pentland Hills. The vast majority of residential diners eat at the residential restaurant closest to their residence hall.

## 9. Meal Plan / Residential Dining Satisfaction

| Meal Plan Holder Satisfaction <br> Scale 1-10 | All | Use <br> Aberdeen- <br> Inverness <br> the Most | Use <br> Lothian <br> the Most |

(Data Tables; pages 241-242)
'Other' responses can be found in the Market Research Study Appendix Section C.

# UC Riverside Market Research Survey 

Programming Notes are in Bold
Faculty will have the option of taking the full survey or an Express version, comprised only of those questions highlighted in Red

# All Other Respondents will take the full survey <br> A Completion Status Bar will be Provided 

Programming Notes in Blue
Note questions are numbered to facilitate review - question numbers will be eliminated from the final survey.

1. I am a:

Student
Faculty Member
Staff Member
Those who answer "Faculty" will be asked the following question.
I prefer to take the:
[__] Full Survey (10-15 minutes)
[__] Express Survey (5 minutes)

Those who answer "Student" receive the following question. All others skip to Q3.
2.

] Freshman
Sophomore
] Junior
[__] Senior
[___] Graduate Student
[___] Other
3. I am currently living:

On campus in a University Residence Hall

Aberdeen-Inverness
] Lothian
Pentland Hills
On campus in an apartment or in family housing
[__] Bannockburn Village \& Plaza Apartments
[__] Falkirk Student Apartments
[___] Glen Mor Student Apartments
[__] International Village Apartments
[___] Stonehaven Student Apartments
] Canyon Crest Family Housing
Off campus with my parents
[___] Less than 1 mile [___] 1-2 miles $\qquad$ 3-5 miles $\qquad$ 6-10 miles
[__] More than 10 miles from campus

## Off campus on my own,

[___] Less than 1 mile [___] 1-2 miles
[__] 3-5 miles $\qquad$ 6-10 miles
[__] More than 10 miles from campus
4. On a typical $\qquad$ (Rotate Monday-Friday) when you are on campus, where are you just prior to the following meal periods?

Breakfast (9:30am or Earlier)
Lunch (11:30am - 2:00pm)
Dinner (4:30pm-7:30pm)
Late Evening (after 7:30pm)
Pull down: Zone 1, Zone 2, Zone 3, Zone 4, Zone 5, Zone 6, Zone 7, Zone 8, Zone 9, Zone 10, Zone 11, 12 - On the Road from 91 Freeway, Zone 13, Zone 14, Zone 15, Off Campus

Use the map below to determine the zones of campus

5. On a typical $\qquad$ (Rotate Monday through Sunday for resident students, so that the first respondent gets Monday, the second Tuesday, the third Wednesday, etc.) What have you done for each of the following meals? (Rotate Monday-Friday for faculty, staff, \& off campus students)

|  | Breakfast | Lunch | Dinner | Late Evening (after 7:30pm) |
| :---: | :---: | :---: | :---: | :---: |
| Skipped eating this meal |  |  |  |  |
| Prepared and ate this meal at home/in my room |  |  |  |  |
| Brown bagged for this meal |  |  |  |  |
| Bought this meal at an off campus restaurant or fast food outlet |  |  |  |  |
| Bought this meal at an off campus convenience store or grocery |  |  |  |  |
| Obtained this meal at a Residential Restaurant: Aberdeen-Inverness Restaurants Lothian Restaurants |  |  |  |  |
| Obtained this meal at a Campus Retail Restaurant: |  |  |  |  |
| The Hub |  |  |  |  |
| Honor Roll |  |  |  |  |
| El Sol |  |  |  |  |
| Stacked Deli |  |  |  |  |
| La Fiamma |  |  |  |  |
| Panda Express |  |  |  |  |
| Taco Fresco |  |  |  |  |
| Arroyo Vista Café |  |  |  |  |
| The Barn |  |  |  |  |
| Ivan's at Hinderaker |  |  |  |  |
| Grecian Gyros Cart @ CHASS Courtyard |  |  |  |  |
| Hot Diggity Dawgs Cart |  |  |  |  |
| Bear Tracks Mobile Truck |  |  |  |  |
| Obtained this meal at a campus Convenience Store: |  |  |  |  |
| Bear Necessities at Commons |  |  |  |  |
| Bears Den at Aberdeen-Inverness |  |  |  |  |
| Scotty's at Glen Mor |  |  |  |  |
| Bear Essentials at Lothian |  |  |  |  |
| Obtained this meal by delivery |  |  |  |  |
| Obtained this meal from a vending machine |  |  |  |  |
| Ate this meal at a catered event |  |  |  |  |
| Other _ (please specify) |  |  |  |  |

For those respondents who indicated that they purchased their lunch at an on-campus dining venue (Residential Restaurant or Campus Retail Restaurant), the following question will be asked.

6a. You indicated that you have eaten lunch at $\qquad$ on a typical $\qquad$ (Pop in answer for the on-campus dining venue and day of the week from Q5). What were the primary reasons you selected this eatery? Pick up to two reasons from the list below.
$\qquad$ Food Quality and Preparation
[
Convenient Location
[__] Quick Service Speed/Short Wait Time
[__] Food Selection Available and/or Variety
[___] Enjoyable Dining Environment
[__] Seating Availability
[___] Healthfulness of Menu Choices
[___] Quality of Customer Service
[___] Ability to Quickly Purchase Food "To Go"
[___] Price/Value
[___] Ability to Purchase with My Meal Plan
[___] Other (please specify) $\qquad$

For those respondents who indicated that they brown bagged their lunch, the following question will be asked.
6b. You indicated that you have brought your lunch from home on a typical $\qquad$ (Pop-in day from Q5). Why do you make the choice to bring your lunch? Pick up to two reasons from the list below.
[__]
] It is more convenient than making an on-campus purchase
[__]
] I need to work or study over my lunch break
[___] On-campus pricing is generally too high for my budget
[___] To better control my diet/It is healthier than the foods available on campus
[___] The queues and wait times are too long at the eateries on campus
[___] On-campus eateries are not geographically convenient for me
[___] On-campus dining environments are too noisy/crowded
[___] I don't like the quality/taste of the on-campus food choices
[___] Other (please specify) $\qquad$

For those respondents who indicated that they ate their lunch at an off campus dining venue, the following question will be asked.
6c. You indicated that you have purchased your lunch off campus on a typical $\qquad$ (Pop in day from Q5). What were the primary reasons you chose to eat off campus? (choose a maximum of two categories)
[__]
I like the food at this restaurant better than the food conveniently available to me on campus
[ To take a break from being on campus
It's where my friends/colleagues go
[
It's less expensive than conveniently available eateries on campus
[___] It's easier to purchase food on my way to campus or after I leave campus
[___] I can smoke or drink alcohol
[___] It's easier to find my dietary preferences/healthy choices
[___] For an occasional treat
[___] It is more convenient for me to walk to the off-campus options than the on-campus options
[__] Other (please specify)
7. Think about the meals and snacks you purchased last week. For purchases made using cash, debit/credit card and/or the UCR Card/Bear Bucks, approximately how much did you spend for the week on-campus and how much did you spend for the week off-campus?

Total Weekly Spend for On-Campus Meal and Snack Purchases Total Weekly Spend for Off-Campus Meal and Snack Purchases $\qquad$

Pull down response options: Does not apply, Less than \$5.00, \$5.00-\$9.99, \$10.00-\$14.99, \$15.00-\$19.99, \$20.00-\$24.99, \$25.00\$29.99, \$30.00-\$34.99, \$35.00-\$39.99, \$40.00-\$44.99, \$45.00-\$49.99, \$50.00-\$54.99, \$55.000-\$59.99, \$60.00-\$64.99, \$65.00\$69.99, $\$ 70.00-\$ 74.99, \$ 75.00-\$ 79.99, \$ 80.00-\$ 84.99, \$ 85.00-\$ 89.99, \$ 90.00-\$ 94.99, \$ 95.00-\$ 99.99, \$ 100.00$ or More
8. Think about the foods you like to eat. For each item listed below, please indicate the frequency that you would select the item during a typical seven day school week, if these foods were available on campus in a location convenient to you. Please answer each item.

This question is designed with a "modified block" approach so that not every respondent has to respond to every food type. There are 28 blocks with 9 items per block plus "Other". Thus, for every 28 people (a complete block), there will be 9 ratings. Thus, 560 completed surveys will yield 180 ratings per item, enough for statistical accuracy. We take this approach to cut down the length of the survey.

9. Now, thinking about meals you purchase on campus, how much do you typically spend for lunch when you pay with cash, debit/credit card, Dining Dollars or the UCR Card/Bear Bucks?

Pull down response options: Does not apply, Less than \$1.00, \$1.00-\$1.49, \$1.50-\$1.99, \$2.00-\$2.49, \$2.50-\$2.99, \$3.00-\$3.59, \$3.50-\$3.99, \$4.00-\$4.49, \$4.50-\$4.99, \$5.00-\$5.49, \$5.50-\$5.99, \$6.00-\$6.49, \$6.50-\$6.99, \$7.00-\$7.49, \$7.50-\$7.99, \$8.00-\$8.49, $\$ 8.50-\$ 8.99, \$ 9.00-\$ 9.49, \$ 9.50-\$ 9.99, \$ 10.00-\$ 10.49, \$ 10.50-\$ 10.99, \$ 11.00-\$ 11.49, \$ 11.50-\$ 11.99, \$ 12.00$ or More
10. Think carefully about the restaurants and "fast food" brands you like best. If Dining Services were to add off-campus restaurants or "fast food" brands to campus, which brands would you most prefer? Pick a brand category and then write in your brand selection. You may do this for up to three brands.

|  | Sandwich/Salad/Soup Brand | Brand Selection: | (write in) |
| :---: | :---: | :---: | :---: |
|  | Casual American Food Brand | Brand Selection: | (write in) |
|  | Hamburger Brand | Brand Selection: | (write in) |
| [__] | Mexican Food Brand | Brand Selection: | (write in) |
| [ | Asian Food Brand | Brand Selection: | (write in) |
| [ | Pizza Brand | Brand Selection: | (write in) |
| [__] | Italian Brand | Brand Selection: | (write in) |
|  | Chicken Brand | Brand Selection: | (write in) |
|  | Seafood Brand | Brand Selection: | (write in) |
| [__] | Other Ethnic Type of Brand | Brand Selection: | (write in) |
|  | Other Brand | Brand Selection: | (write in) |
|  | I do not think brand should be added to campus |  |  |
|  | Don't know/Not applicable |  |  |

Now, using the following scale, tell us how often you would visit each of the brands you selected if located conveniently on campus:

|  | Less Than <br> Once Per <br> Week | Once <br> Per <br> Week | $2-3$ Times <br> Per <br> Week | 4-5 Times <br> Per <br> Week |
| :--- | :--- | :--- | :--- | :--- | | 6 or More |
| :---: |
| Times per |
| Week |

## 10. Continued

Now, for each of the brands you selected, tell us how much you would expect to pay for a meal.

|  | How Much I Would |
| :---: | :---: |
|  | Typically Pay for a Meal |
| (Pop in write-in answers from above) | \$__. 00 |
| (Pop in write-in answers from above) | \$__. 00 |
| (Pop in write-in answers from above) | \$__. 00 |

11. If Dining Services were to add new dining locations on campus, which zone of campus would be most convenient for you? Please select the zone and then the campus building within that zone.

12. Apartments on Canyon Crest Drive on the north side of Campus.
13. Family Housing, Residence Halls and Glen Mor 1.
14. Parking Lot 13, Chemical Science, USDA and Botanical Gardens Area.
15. Academic core east of the HUB, Watkins, Humanities and Olmstead.
16. Academic core west of Costo and Sproul.

## 6. Parking Lot 30 .

7. University Village, Grand Marc, Sterling and University Towers.
8. North West of Campus.
9. North East of Campus.
10. East of Campus.
11. Canyon Crest Area South of Campus.
12. West from the 91 Freeway.

## 13. West of Campus.

14. North West of Campus from the 60 Freeway.
15. South West of Campus from the 60/215 Freeway

16. Thinking about meals you purchase off campus, how much do you typically spend for lunch?

Pull down response options: Does not apply, Less than $\$ 1.00, \$ 1.00-\$ 1.49, \$ 1.50-\$ 1.99, \$ 2.00-\$ 2.49, \$ 2.50-\$ 2.99, \$ 3.00-\$ 3.59$, \$3.50-\$3.99, \$4.00-\$4.49, \$4.50-\$4.99, \$5.00-\$5.49, \$5.50-\$5.99, \$6.00-\$6.49, \$6.50-\$6.99, \$7.00-\$7.49, \$7.50-\$7.99, \$8.00-\$8.49, $\$ 8.50-\$ 8.99, \$ 9.00-\$ 9.49, \$ 9.50-\$ 9.99, \$ 10.00-\$ 10.49, \$ 10.50-\$ 10.99, \$ 11.00-\$ 11.49, \$ 11.50-\$ 11.99, \$ 12.00$ or More
13. Do you have a meal plan? [___ ] Yes [__] No
"Yes" respondents receive Questions 14-15 and then skip to Question 17. All "No" responses skip to Question 16.
14. Which meal plan do you have?
[___] Flex 5
[___] Flex 7
[__] Flex 10
[__] Flex Max
[___] Dining Dollars
15. Which of the following residential restaurants do you use most often?
$\qquad$ ] Aberdeen-Inverness
[___] Lothian
[___] Neither
For each statement identified below, please indicate how strongly you agree or disagree with the statement. Use a scale of 1 to 10 , as follows:

1 = I completely disagree with the statement
$10=$ I agree completely with the statement

You may use any number on the scale.
[___] My meal plan generally allows me to obtain food at the locations that I want to.
[___] The current dining hours at (Pop in facility name from above) generally allow me to obtain meals at the times I want.
[___] The quality of food available at (Pop in facility name from above) is generally good.
[___] The variety of food available at (Pop in facility name from above) is generally adequate to meet my needs.
[___] The dining environment at (Pop in facility name from above) is enjoyable and comfortable to hang out in for extended periods.
[___] My meal plan generally meets my lifestyle needs.
[___] Overall, my meal plan provides good value.
16. Using a scale of 1 to 7, please rate all of the the following potential features with regard to how much they might influence you to purchase a small, prepaid meal plan or meal card.

1 = Would not influence my decision to purchase a voluntary meal plan or meal card
7 = Definitely would influence my decision to purchase a voluntary meal plan or meal caard
[__] If it offered pricing discounts at the cash register
[___] If the unused portion was fully refundable
[__] If it offered a bonus at the time of purchase (such as buy 10 meals and get the $11^{\text {th }}$ meal free)
[___] If I were rewarded with coupons or bonus meals the more I used the plan
[___] If my parents were willing to purchase the plan for me
[___] Other (please specify)
17. Please think about the factors which may or may not be important to you when deciding where you will get a particular meal or snack on days when you are on campus -- regardless of whether you actually eat on campus or go off campus for that meal or snack. For each attribute listed below please indicate how important that attribute is to you. Use a scale from 1 to 10 (1 equaling "Never Influences" and 10 equaling "Always Influences") to rate each attribute with regard to its importance to you when deciding where to go for a meal or snack. You may use any number on the scale.
$1=$ This never influences my decision of where I eat
$10=$ This always influences my decision of where I eat
It serves freshly prepared, quality food that I like to eat
The hours of operation are convenient
I am able to order, receive, and pay for food quickly
I can purchase food "to go" if I desire
The pricing is fair and provides good value for the money
It is located on campus

It is a place that offers a comfortable dining environment where I can meet and socialize with my friends/colleagues
I can call/fax my order for delivery or pick-up
I can use my Meal Plan/Dining Dollars there
It is located off campus so that I can take a break from campus
It serves a good selection of vegetarian foods
It offers "combo meals" or "value meals"
It meets my dietary preferences and/or requirements
It offers a loyalty card program (i.e. purchase ten get the eleventh one free)
It is a national or regional chain restaurant (like In-N-Out or Applebee’s)
It offers adequate seating so that I can dine in if I choose
I can use my UCR Card/Bear Bucks there
It is within walking distance at meal time
It serves a wide variety of food offerings
It serves locally grown products
It serves authentically prepared ethnic foods
It is a place that that brings my meal to my table
It is a place that serves natural foods

18. Consider all the issues that influence you when choosing where to purchase a meal, including such things as quality, location, price and scheduling considerations. If Dining Services were to implement changes to its dining services to more closely align with your preferences, would you purchase food on campus more often?

|  | Number of Meals I <br> Purchase On Campus <br> in a Typical Week <br> Now | Number of Meals I <br> Would Purchase if <br> Dining Services Better <br> Met My Needs |
| :--- | :---: | :---: |
| Breakfast |  |  |
| Lunch |  |  |
| Dinner |  |  |
| Late Evening Meal/Snack |  |  |

Pull down: 0, 1, 2, 3, 4, 5, 6, 7, Prefer not to answer
19. Have you been involved in planning a catered event in the past year?
$\square$
"Yes" respondents receive Q20 and Q21. All "No" respondents skip to Question 22.
20. Please indicate who you use most often for:

| Coffee Services / Beverage Breaks | ] On-Campus Catering | ampus Caterer (specify) | N/A |
| :---: | :---: | :---: | :---: |
| Box Luncheons / Sandwiches | ] On-Campus Catering | ] Off-Campus Caterer (specify) | N/A |
| Served or Buffet Luncheons | ] On-Campus Catering | ] Off-Campus Caterer (specify) | N/A |
| Dinners / Receptions | ] On-Campus Catering | ] Off-Campus Caterer (specify) | N/A |
| Large Banquets and Special Events | ] On-Campus Catering | ] Off-Campus Caterer (specify) | N/A |

21. We'd like to know how you feel about the quality of On-Campus Catering Services in comparison to the off campus caterer you use most often $\qquad$ (pop in from previous question). For each statement below, please indicate how strongly you agree or disagree with the statement. Use the following scale:
$1=$ I completely disagree with the statement
$10=$ I agree completely with the statement

## Statement

It is easy to get in touch with the right person when placing orders
I can make all of my arrangements with a single phone call
The catering service is flexible in working with my changing needs
The events are always delivered / set up on time
The caterer provides exactly what I ordered
The on-site staff is professional in appearance and conduct
The quality of the food / beverage meets my expectations
The quantity of the food / beverage provided meets my expectations
Service occurs efficiently without disruption to our meeting / event
The caterer cleans up promptly after events and leaves the facility in good condition
A good value is received for the price paid
Billing is timely and accurate
The full cost of the event is clearly understandable at the time of booking The campus facilities I use for catered events are adequate to meet my needs I will continue to use this caterer for future events The menu options available for me to select from are appropriate and offer enough variety for my catered event

## YOU'RE ALMOST DONE - Only three more questions before you are entered into the drawing for a prize!

22. Please think for a moment about the dining options available on-campus compared to the options you have off-campus which are close enough to consider for meals and snacks. In your opinion, what can Dining Services do or improve to compare more favorably with other food options available to you? Please select up to two categories, and you will then be asked for your comments.

] Hours of Operation
[__] Food Quality and Preparation
[__] More/More Convenient Dining Locations
[___] Service Speed
[__] Food Variety and Selection
[___] Dining Environment
[

## SECTION 5: VERBATIM COMMENTS

Question 5: On a typical day, what do you typically do for breakfast?
Faculty Member
Eat at home
brought this meal to work
Other Student type
home
Staff Member
no food available
UNEX
Staff
Starbuck's
Extension Cafe
Home
occasionally will eat at taco fresco
Undergrad Off Campus
Home
Home
Jack in the box
off campus
home
Undergrad On Campus
usually not on campus on sundays
went home.
n/a
$\qquad$

Question 5: On a typical day, what do you typically do for lunch?
Faculty Member
Eat at home
GOODWIN'S
varies a bit sometimes at the Barn
brought this meal to work
Graduate Student
sometimes I buy on campus for lunch
stacked

Staff Member
UNEX
depends on who I'm meeting for lunch
Del Taco
UNEX
coffee at Bear Tracks
home
At at home or office at work
off campus restaurant
occasionally at various places at commons
Staff

Undergrad Off Campus
Lattitude 55
Home
Home
off campus
the C-store
various on campus restaurant
grandmother/home
Undergrad On Campus
usually not on campus on sundays
Spinellis
went home.
LO'Gos

Question 5: On a typical day, what do you typically do for dinner?
Faculty Member
home
home
Eat at home
cooked
off campus
Graduate Student
GetAway Cafe
sometimes i get things for dinner
Staff Member
home
At at home
home off campus
Home
home
NA
go home
home
home
Don't eat on campus
Ate at home.
Cooked at home
home
Staff
at home

Question 5: On a typical day, what do you typically do for dinner?
Undergrad Off Campus
home
ate at home
Home
Home
Home
off campus
home
Flame Broiler
at home
fastfood
Undergrad On Campus
del taco
mcdonalds
Accounting Society Meeting Food
Eat at Home
usually not on campus on sundays
went home.
del taco

Question 5: On a typical day, what do you typically do for late evening?
Faculty Member
home
off campus
Eat at home
none
home
Graduate Student
lattidue 55
Staff Member
I don't eat later
At at home
home
none
home
Latitude 55
Don't eat on campus
NA
Don't eat after 7:30pm
don't eat after 7:30pm
Staff
Off campus Restaurant
home
home off campus
na
dont eat late night
Home
Off Campus
go home
home

Question 5: On a typical day, what do you typically do for late evening?
Undergrad Off Campus
Nothing, because you offer nothing after 8.
don't eat after 7pm
Home
off campus
at home
I don't eat after 7pm
at home
Off-campus
home
At home
at home
Home
Undergrad On Campus
UV
home
in room made meal
Eat at Home
usually not on campus on sundays
Santanas
went home.
I don't eat any meals after this time.

Question 6a: Lunch On Campus - What were the primary reasons you selected this eatery?
Faculty Member
The head lady there is wonderful, she makes me feel like I am a local place, not something that is institutional. She is a large reason I go.

Not a better choice
vegetarian dishes
the other on-campus choices are pathetic
Graduate Student
I want food quickly...
vegetarian roll
Staff Member
free chips salsa
Less Students
meet friends there
Free Meal Plan
shortest line
No good vegetarian options available at resident restruants.
Price and value of the food/non meat options
I work for Dining at the Crest
didn't bring lunch/change of pace
the only place I can tolerate
ONLY close food
My chance to have Chinese food
I Love Rita and wonderful woman who preps food!
Undergrad Off Campus
open a little earlier than 10;30 am, so i can study sooner
It is the only food there that tastes good
pizza a dolla a slice (or almost)
The only good place to eat besides Panda Express, and that is not saying much.
break (work)
use more sustainable food resources
Taste
There is nothing else better to eat
good vegetarian choices
pizza
the smell

Question 6a: Lunch On Campus - What were the primary reasons you selected this eatery?
Undergrad On Campus
All I Can Eat
JK not on saturday but other weekdays and it won't let me go back
Doesnt make me sick like residental food
Employee for dining services
I live in A-I and always eat lunch in the residential restaurant
dinning dollars
the love for sushi
To eat with friends.
Only Good thing for a typical Friday
Only Residential Restaurnt open on Sundays
this is for typical tuesday and thursday
to lazy to walk
The Dining restaurants are tateless, and this is just a bit better
its the only place on campus open
Quantity of food available to eat
I work in Dining
Only on campus place open on weekends
the food is good
Good food
This is my only option to get food

Question 6b: Lunch Brown Bag - What were the primary reasons you brought your lunch from home?
Faculty Member
Check all exce;pt the first 3
I don't normally come in on M W F !! hence eat at home
all of the above (except taste is OK)
Insufficient vegan alternatives
Graduate Student
also 4,5,8
Save money
I m a vegetarian, and I dont have as many choices on campus!
food not healthy on campus
Staff Member
Making my own lunch saves money.
bring lunch to get rid of leftovers from home
I am vegetarian and there are limited choices
it's cheaper
It saves money. I generally don't eat out very much at all.
I don't like Res-Hall food and Commons are too far to walk and eat in one hour.
Cheaper
They prices are too high for ANY budget!
There are NO healthy choices on campus, nor foods that you can customize based on your nutrition needs. It's also cheaper, faster, and healthier to bring my own lunch. Please consider selling fruit salads, veggies salads, whole grain bagel, frozen yogurt machines and other healthy items for a less expensive price.
need more choices - asian (Indian, Thai, Vietnamese) food, bakery items etc
when I do eat on-campus, I tend to pick less than healthy choices. Therefore, I try to bring my meals to control my diet.

I usually brown bag to save money but I do eat out a few times a month
I have seen too much behind the prep counters
eeating out is too expensive on a daily basis regardless of the location

Question 6b: Lunch Brown Bag - What were the primary reasons you brought your lunch from home?
Undergrad Off Campus
I enjoy my own cooking
I am a vegan (no animal productsùmeat, dairy, etc.)
Campus Food Prices are TOO high
No breaks between classes
I think prices are reasonable, I just prefer to save the money
it is a short day so I dont need to spend money at the HUB
Vegan
I am a vegetarian

## Question 6c: Lunch Off Campus - What were the primary reasons you chose to eat off campus?

Faculty Member
Less crowded and less noisy. Ideal to talk to colleagues during lunch
campus food is awful, overpriced, and it takes forever to stand in line to get food
I'm not on campus Wednesday
I live in the Palm Springs area
No reasonably priced, healthy alternative on campus
I'm not on campus
There is nothing available on campus
Graduate Student
More variety of restaurants off campus
i refuse to pay for service that is bad and prices that keep gong up while portions smaller
I live 50 miles from campus, so there's no reason I'd take the train into Riverside just to eat on campus.

Other Student type
The eateries on campus are always closed when i go to them :-(
not usually on campus at these times on Sunday
Staff Member
It is more convenient for me to drive to the off-campus options than the on-campus options
I'm located off campus.
Our department is located far off campus
On-campus dining options usually have a long wait.
Lines are to long at the HUB: faster to go off campus
day off not on campus
It's faster to obtain food off campus than on campus
I'm not on campus.
better prices
Poor value of on campus food, long lines on campus
Th lines are too long at the HUB
I live off campus, and travel weekends.
Less crowded
As a staff member, I am not typically on campus on Saturdays
campus food option = overcrowing, students, bad access
I'm in UNEX. It's easier to not go onto campus
My office is located in University Village
@ noon, it is quicker to drive to fast food than walk and stand in a long line at the HUB

Question 6c: Lunch Off Campus - What were the primary reasons you chose to eat off campus?
Staff Member
work in University Village
easier to drive from my location to off campus location
I do not work on Saturdays
Less crowded-shorter wait time
takes too long to walk to campus options
too far to walk - no parking
The dorms and center of campus are too far from my office and there is no parking.
I don't have good choices of food at Bannockburn Village
I live off campus
I live 30 mi from campus
Undergrad Off Campus
Lines are too long at the Hub
not on campus on sundays
I live off campus 40 miles from UCR and do not attend classes on Sunday.
It's faster since campus dinning is usually too busy
im done with school by 12 so i eat off campus
only 1 class in the late afternoon on Fridays
I rarely come on campus on a Saturday
I'm not on campus on Sunday. I live in Fontana... so I have no reason to eat on campus and bilke 20+ miles to school just to eat in the Commons... and yes... I

I am rarely on campus on saturday.
I kive nowhere near campus, and am not on campus on Saturdays
The portions on campus are poor or the places on campus are closed.
i live with my parents
I have no classes on Sunday, hence I'm not on or near campus for meals.
I am not on campus during a typical saturday
I'm not on campus on Sunday.
i do not live on campus
not a lot of food choices available on campus (tired of ordering pizza, chinese, mexican, \& sandwich)
i live off campus
im not on campus on sundays
I'm at home an hour away on Sundays.

Question 6c: Lunch Off Campus - What were the primary reasons you chose to eat off campus?
Undergrad On Campus
i thought the commons was closed on saturdays
I've ran out of dining dollars so it doesn't matter where I eat, I'm still spending money.
I go home for the weekend.
It is on my way home from a morning activity.

## Question 22: What can Dining Services do or improve to compare more favorably with other food

 options available to you? Brand Choices
## Staff Member

Would like to have healthier options. There have been times when I wanted a beverage and the only choices (other than going to the convenience store, which isn't conveient!) was a soda or sugary drink. Would lke fresh-brewed ice tea (the Barn serves a nice tropcial tea, yea!), smoothies or water. Also, would like a Smoothie Bar or Smoothie Station, I would use this QUITE A BIT.

The school brand food isn't bad. The quality is just slighty sub-par when compared to more popular franchises. I don't particularly eat a lot of fast food but better food choices on campus would increase the chances of me purchasing meals on campus.

## Undergrad Off Campus

I think possibly bringing in brand name foods or other 'restaurants' may help bring in more customers and quality names people like to eat at. People are comfortable with the names they like so bringing them here would be nice and would be a change from what we have.

There are so many brands out there that provide good nutrition and taste great. Having another fast food chain like Panda Express would create more choices on campus. The thing I like most about Panda Express is that is IS express. It's fast and efficient. The people work fast. Even having something like Dominos or and In-N-Out on campus would get alot of business.

Undergrad On Campus
I feel UCR should get more brand name franchises such as In-N-out or Applebee's as that would increase the number of people eating at the HUB.

Get more brand name choices spread throughout campus.

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Dining Environment

Faculty Member
We need a dining area for the grownups - not the well-heeled alumni - the grad students, staff, and non-Seante faculty who cannot afford to eat at the Alumni Center.

Need a nice evening meeting place for graduate students and faculty to bring community together. A place to meet after graduate seminars, junior faculty association (which currently meets at Ciao Bella's happy hour), faculty get-togethers, etc. I spend a lot of money at happy hours at Ciao Bella and Mario's visiting with colleagues who I know will be there. They have become meeting places with regular faculty clientele. I'd love to see a place like that on campus with good happy hour food and fine wines and a nice atmosphere. Should not feel like just another campus eatery.
Graduate Student
more light
More seating options to allow customers to spread out, reducing the overall noise and stress of the eating environment.

## Staff Member

quite place
Not enough sitting areas. Too much noise. Lines are too long. What's happening about the University Club?

Most of the time I am sitting outside for lunch as this is the only meal I have on campus. I think we should have more places with shade, as these tables get full on a nice day. Plants are still the best shade.

The dining environment needs to be quieter - the bussle over at The Commons area is offputting. The Taco stand by the science library is a better environment, but not enough selection (ie. only Mexican food which is unhealthy to eat regularly). It would also help to have more locations around campus.

When I go to lunch I usually like to remove myself from campus, give myself a break from students.

The HUB is cramped/noisy and the Alumni Center is expensive.
My ideal environment would be a garden-like setting - lots of plants, outdoors, maybe even some misters for the hot days or heat lamps for winter evenings - with healthy, organic meals. People, I think, want a place of relaxation and nurture to eat and meet colleagues/other students. I think a place like this would become a campus favorite!

## Undergrad Off Campus

It would be nice if the school has a restaurant on campus that is more convenient. The Barns is a god restaurant but it is not convenient to walk to. It would be hard to recieve a meal on time before my next class starts.

The commons has a nice dining environment, but more area to just hang out while eating would be nice.

Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Dining Environment

## Undergrad Off Campus

Most dining locations are tacky and gives an 'industrial' feel. I believe that I should NEVER feel like I'm eating at a cafeteria in the new commons, but that is exactly what it is like. The cluster issue has improved since the second phase of the commons opened, but the inside is still inadequate and worn. Many people have problems with the pricing, but I don't think that is the main problem. It is the fact that the environment feels like a cafeteria and so it seems expensive to buy anything there.

I feel that Ucr should lift the 'Dry Campus' deal and open up a bar along with a restaurant. It should limit the amount of drinks one person should have and offer dinners with a happy hour. The enviroment would have soft lighting and comfortable chair.

Dining environment is important to me, especially in a stressfull college environmnet; since I commute the stress is further emphasized by everyone running around. A dining environment should be clean, uncluttered, and free of noise. It is understandable that the commons is noisy but it would be nice not to see everyone running around during a meal, a time of relaxation and quiet. More intimate environments, with reduced harsh lighting, more quiet zones, and less rushing about should be created. The commons feels too rushed and because of this I never want to eat there but end up doing it anyway because there are only so mancy locations. Meals, even in a rushed environment like college, should be made to feel calm.
cleaner tables
Undergrad On Campus
make the ambiance as nice as lothians.
Possibly add more tables near the commons outside with umbrellas since the weather should be warming up soon.

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Food Quality \& Preparation

Faculty Member
Arroyo Vista is as good as any restaurant between here and LA and I try to go as often as possible.

The preparation is fine, the food quality overall is poor. Very little of it seems fresh.
Too crowded, not enough space Quality of food is poor Price
More natural and healthy foods
I would prefer a lot more fresh foods - like decent salad bars and vegetarian options. I find the food here for the most part to be over-processed, contains too much fat and is not very healthy. It would be great if there was more fresh fruit available on campus and healthy choices.

Poor choice. A lot of unhealthy food, no choice for those who likes fresh and healthy food.
The food on campus is not bad, but it could be better, especially for the non-chains (e.g., the Barn). I have eaten at the Alumni Center a few times. Once the fish was over salted, but the food was very good the other times. I would like to see more varity at the Barn. If there was an up-scale dining option, I would consider it for diner with my family.

The two major shortcomings of campus dining are: 1) the lack of a permanent location for coffee and breakfast items and 2) the very, very low quality of the Mexican food offerings. I love Mexican food, but I can barely make myself order it on campus. the location in the HUB is especially poor. Food is cooked well ahead of time and is served luke warm. the portions are stingy and the workers are for the most part unfriendy. On any given day, you can see long lines during lunch at all of the other HU'B dining locations, but the Mexican restaurant is empty. The satellite Mexican restaurant by the Science Library is slightly better, but again the service is disorganized, unfriendly and I question the overall hygene of the restaurant.

Offer organic + local-sustainable food.
more fresh salads, fruits. the salad bar inside the campus store is tiny, and the lines are always extremely long. it discourages me from buying lunch there.

More fresh and organic salads and entrees. And better coffee
Most of the on campus Dining Services Restaurants seem to be prepared by chefs without good taste. Many chain restaurants prepare food that tastes a lot better. I think this has to do with the quality of ingredients, the choice of spices, some variety of preparation, and so on. The Barn is generally good, and so is the restaurant in the Alumni center. But the Mexican restaurant, for example, is especially subpar. We live in Southern California, and the Mexican restaurant on campus is worse than those in New York.

Start by serving FOOD not barely edible stuff. I stopped eating that food after too many food poisoning incidents in a few months!

The food on campus is horrible. It tastes as though it were produced by a huge corporation off campus, frozen, shipped and re-heated. Just try a local outfit, using fresh food, preparing it simply. The current outfit can't even make a decent burrito. Brands are not the solution, quality is. And if it were good, you could charge more for it. I currently will not even go to the 'hub' because the food is so bad. UCLA can do it, call them up and ask how their North Campus food is ok and ours is not.

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Food Quality \& Preparation

Faculty Member
The new food stores in the food court are pretty good in quality, but is very unwelcoming to faculty and staff. We need a place that also has good food that is welcoming to staff and faculty for atmosphere. I go to Ivans for the atmosphere, but the food is mediocre at best. The customer service is great though!!

Please expand the number of spaces for preparing sushi. The lines are always long and are selflimiting (people do not join them when they are so long). If there were twice as many sushi preparation spaces, twice as many people would be able to eat sushi every day and perhaps the lines would be a little shorter.

The restaurants are generally pretty bland and use fairly low-quality ingredients. For example, the mexican food options are not at all spicy. Panda Express deep fries everything to death. Etc.

Organic and natural will definitely attract me
Healthy, natural organic choices. Simple fresh foods. Salads, fruits.
I love the Alumni Center restaurant - exceptional variety and a huge addition to the campus - I dine there frequently and the price is very reasonable. Great job!

I would like quality food without MSG and preservative-free. Hygeine in preparing and serving food is important. The food handlers (including cashiers) should wear gloves, caps, uniforms, etc. Cashiers should not stick their fingers in the paper caps when handing them to customers. Water in plastic bottles should be available for purchase in all places. Plastic forks and knives should be individually dispensed (in plastic wrap if possible). They should not be placed in dirty containers with ther ends up, where everyone who takes a plasticware touches all the rest. This is of great importance during the swine flu season. The food handlers who wear gloves they should not sneeze in them or handle trash bags or any other item and use the same gloves to dispense food. Good training of employees and training of the trainers is important.

More freshly made, and authentic, ethnic food.
The food is generally poor quality, its expensive for what you get and it tastes awful. There isnt a single decent place to eat on campus except the mexican place across from the science library.

Focus on what is working and what the customers actually like to eat. It is pretty clear that the El Sol, Arroyo Vista Cafe, Honor Roll, La Faimma, Taco Fresco, and the Barn are popular eating destinations. The rest of the non-dorm locations are poor quality and/or replaceable with brand name options.

At the Barn, less salt on chips; less grease generally.
we don't have many choices.
The new commons dining has a bad odor of used grease. Getting a cup of coffee is a bit difficult much of the time.

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Food Quality \& Preparation

Graduate Student
Fresh Organic Cheap Food
By making food tasty and not boring
The lack of quality of the dining services food and preparation is the BIGGEST issue by far. Dining services has provided a variety of food options. However, service tends to be slow, customer service is mediocre on average (staff hardly looks happy, and can be very rude), and price/value declines due to poor quality/preparation. If the quality was excellent, and the food taste reflected the freshness/quality, then students would feel like they were getting a good price/value. Branded choices would not be needed if dining services quality was much improved. From undercooked pizza to dried out/overcooked meat, served with bad customer service, there is a lack of value amongst dining services options. Panda Express is frequented because their food taste better and service is consistent, not because its a brand name.

A lot of the food that you get here has that processed taste to it. The Barn is pretty good, but over priced.

If more foods were offered that are not of 'fast-food' type, such as Panda Express or pizza, and healthier, perhaps locally grown, I think I might consider eating on-campus more. I tend to cook more at home because I don't want to introduce too many preservatives or unecessary things in my diet, and greatly enjoy eating fresh produce.

Provide more diversity in food options
Food tends to lack flavor. It smells good but when you eat it, it is disappointing. Herbs and spices and salt do not cost that much so I am not sure why some of the food is so bland

Food should be served fresh every day, and some food should be kept in appropriate temperature for its best taste.

The food quality is so low that I regularly go without lunch if I can't get off campus. (I've even passed up the use of free-food vouchers that accompany some school events.) Better ingredients would be a big start toward improvement. Using white-meat chicken in the pasta bowls, better bread at the sandwich shop and better seasoned meats and rice at the Mexican place would all make a big difference. There is, however, no saving the pizza...it's probably the worst I've ever tasted.

The only Italian place on campus makes horrible pizza, and the pasta is not that appealing. Then again, I am Italian, so I am quite picky when it comes to our food. I typically eat at El Sol for breakfast because the Italian place does not offer a capuccino / croisant breakfast. El Sol it alright, but sometimes the burritos are a bit dry, and the lunch burritos are quite nasty. Otherwise the people at El Sol are very nice, and prep. the food in the morning well.
more new and delicious things, hot,not charred, more vegetables with meats, less dry rice
I would prefer less greasy and unhealthy foods. I nice salad bar with lots of options would be nice. There is not a lot of healthy food on this campus which often forces me to bring my own lunch. The food often does not taste all that good and is often not as warm as it should be.

My general opinion is that the food offered on campus is so boring and bland.
The current food is terrible and expensive.
Buy better, fresher ingredients

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Food Quality \& Preparation

Graduate Student
A lot of the restaurants have bad ingredients that aren't healthy. It really makes me feel like the school does not care about the quality of student's lives. Also it makes the decision of where to eat one that I always dread.

Quality of food is poor. Use fresh ingredients.
Food ingredients are often sub-par. Examples: pasta overcooked, pre-cooked chicken flavorless, sushi rice is mushy and doesn't have proper density, sushi fish quality varies greatly.

Offer healthy fresh local solutions. Salads, fresh deli sandwiches, fruit. post all nutritional value. No more chain restaurants that serve efficient grease!

Need better quality control.
Most of the food available on campus is really unhealthy. I think that the quality is low overall compared to what I am used to at other universities. Also, the highest quality foods are difficult to find or sell out quickly. For example, the orange juice produced by the campus. It always sells out so quickly at Taco Fresco that I can hardly ever get it. If more were available I would buy one every day.

I don't like any of the food current food options. The food tends to be too greasy (Panda, Costa Sol, and the Pizza) or not taste very good (sandwich place). If there was a grill-type place where I could get a variety of good tasting food, I would eat on campus a lot more.

I do not eat foods with more than five ingredients, so most of the dining options at UCR don't fit into my diet. I sometimes use the salad bar at the convenience store in the student union, and would LOVE an expanded salad bar that offered grilled chicken or fish. I have used the sushi restaurant on a couple of occasions, but the line is always very long, and I would also like to see nutrition information and ingredients available.

The food quality for me is related to the number of dining facilities available to me as a consumer. The options availabe to me do not good food quality. If more options were avaiilable with a variety of quality foods than I am more likely to eat on campus.

With the new commons the Mexican food got worse for some reason and the prices went up. Why did that happen?

Options aren't healthy or well-balanced. Local ingredients not used, local businesses not supported.

Have more healthy foods available such as salads. The only late night options in my area are pizza and greasy Chinese food. I would like to have better options

Campus food can not even compare with non-campus food. Examples: Taco stand bean burrito is very runny, does not taste very good, and there is no option to include veggies in one of the very few vegetarian options. The Sandwich stand at the HUB rolls are almost always hard and gross, substitutions are not allowed, and there is a limit to the number of vegetables. Compare these examples to off campus equivalents (Santana's and Subway), and you'll see that campus food quality, options and preparation are definitely below par. You need to figure out a way to give us better quality food, with more care in preparation without increasing your already ridiculously high prices!

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Food Quality \& Preparation

Graduate Student
There is not too many choices, and most of the food we get there for lunch taste bland. We only purchase food from the commons because it's the nearest place to get food. If we have the time and energy to get off-campus food, we will not suffer nor pay the over-priced hospital cafeteria tasting food at the commons. And Panda express is not a better nor an adequate alternative.

Please bring Subway or Some other good brands who are cheap in price also. Then we will have good food and cheap price

Bring in better quality restaurants. Panda Express is not remotely close to actual Chinese/Asian food. Nor does the 'mexican' place next to it resemble any mexican food.

Probably not possible while decreasing the price:value ratio, but good luck
Other Student type
I would prefer a wider variety of healthy options such as a place that would make chopped salads when ordered instead of so much greasy food. Even though some healthy options are currently available on campus, most are pre-made and I would prefer something that is fresh when you order it.

## Staff Member

Have heard negative things about quality of food preparers and how food preparation is handled. Witnessed a student service person at a coffee stand use a cloth that he had used to wipe a spill on the ground then used it to wipe the counter. Yuck! Never went back to get coffee there again.

Freshly made with options
Improving the taste, using fresh ingredients, best quality of the ingredients, trying about which the foods taste more similar to original recipe.

More fresh ingredients and cooking food for appropriate amounts of time.
I would love to see fresh, whole foods provided that are designed for more grown-up pallets and less of the hot-dog-on-a-stick fare that is probably cheaper for you to churn out. The quick and fried foods aren't particularly elegant nor are they appetizing.

Prepared salads are often wilted or otherwise 'off'. The pasta is usually overcooked. The grab and go sandwiches used to be a good value and there was a good variety but I don't like them now. The Mexican food at the commons is terrible - they should learn from Taco Fresca which is always excellent. I've recently had many good lunches that were catered for Human Resources - why can't that quality be duplicated elsewhere?

Often the food is very good, but I find the consistency lacking. If I went to the same on campus restaurant 5 times in one week. I would find that the quality of the same meal would very greatly. Mostly due to the time I eat at that restaurant. If I go to an off campus restaurant the food is usually the same quality no matter what time I arrive.

Better variety of healthier options at the Residential Restaurants.
The Barn has the highest quality food due to it's flavors and preparation methods. Most other venues do not pay attention to flavor. The residential restaurants have no flavor.

Hot food should be hot, not lukewarm. Cold food should be cold not room temp. Consistent qualitytraining of food preparers.

National chains tend to offer high calorie, high fat, high salt foods. I am trying to eat healthy foods. ie

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Food Quality \& Preparation

Staff Member
salads, grilled chicken and low calorie foods. Calorie counts are helpful. Salad bars are great but lines are long.

Sometimes the hot foods prepared in advance to serving are received somewhat dry. Is there a way to maintain moisture in items such as meats?
better quality and preparation as compared to off-campus restaurants
Sometimes the food does not taste or authentic as I would like.
More healthy based foods.
fresh made to order food
Offer more healthy food that are low in sodium and saturated fats. University village has a lot of restuarants but none of their meals are healthy. I find myself going to Subways most of the time

More Healthy choices and quick preparation
Better tasting food and selection
It is sometime overcrowded and I really think a better sandwich shop would be utilized by students and staff.

The food quality at the Mexican Restaurant is terrible. It is ussually dry with no flavor. All the other dining services are pretty good.

Food is usually too greasy. Too few condiments.
I had pizza at the HUB a week or two ago, and it was almost inedible. I would probably get pizza once every week or two if the crust and sauce were better. The Italian food is usually good. I think Taco Fresco's carne asada tacos are the best food on campus, but I don't want to eat them every day. The Barn is usually good, but a little far from where I work.

The mexican food offered on campus in both the commons and Taco Fresca are very lacking in quality. The commons food is dried out and unappetizing, also the people who prepare it lack any kind of food expertise. At Taco Fresca there are flies and while the food tastes better there it is overly salted. The pizza place at time burns their pizzas and the sushi place, while good, is too slow for a quick lunch. At Panda the food should not be served in non-biodegradable containers, nor with plastic utensils. The other food service places on campus has gone somewhat 'green' why not Panda?

Better quality eggs for breakfast. Also, there is NO fresh brewed Iced Tea available unless you go to the small store, should be available in main dining area!!

Freshly prepared is always great.
More organic, natural foods, vegetarian option. Get rid of something like Panda Express which seems like it has vegetarian options, but when you ask, you find out that none of their selections are actually vegetarian.
more veggie options, perhaps some good vegan ones too. I would also like more sustainable options - locally grown and prepared.

Healthy and hygenic ingredients, freshly cut vegetables

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Food Quality \& Preparation

## Staff Member

The food is not bad all around, but there is a distinct difference in food quality amongst the barn, commons, and the res-raunts. The Barn has top-quality food during normal hours (happy hours are subpar) I would spend regular money there often commons is generally good, but would not normally spend non-dining dollars on it. res-raunt is very convenient, decent, but not something I would spend real money on normally. UCLA's dining services was the first I tried and it is known to be one of the best. their res-raunts are very high quality and restuarant quality. Maybe our res-raunts can be of that standard, but it is fine if the purpose is to feed the mass. Normally when people go to restaurants, they expect good food, but the res-raunts have a sub-par standard to the majority of all residents

I know all the places make the food when you order but I see the stuff sitting out there and i would liket it to be fresh not just 'fresh from a hot lamp'

I have recently been to the new Latitude 55 restaurant 3 times and the most recent time I had lunch there I ended up with a very upset stomach after eating a pub burger w/cheese.

Fresh food is prefered
Not sure.
none
The food tends to be the same all too often and although hard to cook for thousands of people the flavor is bland sometimes
1)Always have the UCR orange juice available for purchase by $7: 45 \mathrm{am}$ and 2 )have more vegetarian options and 3) have more exotic fruit options (mango, papaya, etc.)

I like customer service and do not like to wait in lines for more than 5 minutes. If a place on campus is popular there are long lines.

I would like to be able to buy lunches on campuses that are as good as the catered food I have eaten at events provided for by Dining Services.

It will be convenient to have the nutritionist information of the food we are eating. Natural products, no/or low fat, no trans fat food.

Higher quality meats and breads in your Commons deli sandwiches.
put the same portions in the to go boxes as if you were dinning in
Consistancy of taste. The cilantro dressing varies in taste - sometimes intense flavor and sometimes bland. Chicken on salad sometimes juicy, sometimes dry and overcooked.
i rarely eat at a campus location
The food on campus feels very much like bad fast food. The quality of some items isn't good, and most of the time the food is cold or only slightly warm when served.

I'd like to see a lot more organic or sustainably raised food choices at the Barn, in particular. I'd also want to see them showcased in order to know for certain which items meet these criteria.

Haven't eaten on campus since new service area was added.

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Food Quality \& Preparation

Staff Member
Staff show they care about the preparation and being clean. Food maintian a consistent appearance, taste, etc. One sandwich I really like has gone from great to terrible in just a few weeks.
the flavor if the food preprared on campus just doesn't appeal to me. i wasn excited when lat 55 opened. tried the burgers-was same old stuff. just nothing exciting about them. same old bon, meat wasn't that great. just tasted cafeteria!! why can't you put together more of a fresh taste? actual grilled burger? actual hand breaded chicken patty? mexican food in both places_not authentic at all!!! sorry_but don't like the flavor if the food we are getting. best place to eat is the c-store where i can get a fresh tossed salad and soup at least.

1. The breakfast sandwiches at El Sol are very greasy and the breakfast burrito is unhealthy. The easiest fix might be to offer the 'Sunrise sandwich', which is available at the UCR Extension Center and is quite nice. 2. Offer higher quality pastries at Ivan's Hinderaker, perhaps charging a bit more for them. 3. On items involving cheese (pizza, quesadilla, etc), let the head chefs decide on the 'ideal' amount and instruct the staff to always use that amount or *less*, i.e. always err on the lower side.

I would buy the yogurt and cottage cheese packages if they did not have the lettuce. The yogurt and cottage cheese sticks to the lettuce and is a pain to try to eat. Not pleasant so I stopped buying these two products.

I would like the staff actually serving the food in the dining hall to be more prudent of health concerns. I have noticed some unsanitary practices on behalf of the young workers serving the food.

Healthier options should be available on-campus.
I have seen student workers walk from behind the service line change a trash liner, clean the counter and return to the service line without changing their gloves.

Less 'fast food', more healthy options.
Fresh, and freshly prepared ingredients are super important. Fresh and freshly prepared almost always equals better quality and healthier...while maintaining diversity of food choice options.

Must have great tasting food, and cut down on the size of the portions. Alot of food gets thrown away because the serving sizes are too big! Or make available a smaller size option, with a equitable smaller price (i.e., $50 \%$ smaller size, $50 \%$ less cost)

I have been to a couple restaurants here on campus, two they I really don't like don't have much flavor. I would improve the italian/mexican restaurants by adding more spice, less bland. Not to say that others aren't very good. I love the salad bar at the C-store. Good stuff.

Less fast food
Some of the cultural food dining services offers is not truly authentic. I think there could be improvement in the quality of the sushi choices and mexican food offered.

The fresh sushi is not great. the new miditeranean food cart in the Chass courtyard could be good, if the quality of the food was better. (hot meat, not cold plastic-y)

Use suggestion boxes
Fresh ingredients, not rewarmed potatoes in the breakfast burritos, for example.
The quality of Dining Services food could better prepared for more flavor and appeal.

## Question 22: What can Dining Services do or improve to compare more favorably with other food

 options available to you? Food Quality \& Preparation
## Staff Member

fresh food
most campus dining options still remind me of high school cafeteria food. it's not bad but it doesn't taste like off campus restaurants. the quality is acceptable and preparation is good. taco fresco is probably your best representation of quality and preparation.

I often eat at the Indian food restaurant on Blaine, because it is delicious fresh food for very cheap. The food on campus is not as good and more expensive... Better flavor, gourmet spices, fresh produce and products could make for better end results.

I haven't tried all the new choices, so this may not be entirely fair, but the food strikes me as having that institutional cafeteria quality to it. This may be related to buying so many of the ingredients from Sysco, so the food will taste much like that of any other place that buys from Sysco. The only solution I can think of is bring in restaurants/vendors that buy their own ingredients/use their own recipes.

The Alumni \& Visitor Center offers a great lunch concept for Faculty \& Staff who are interested in a more refined dining experience on occasion. However, the consistency of the food is poor and some of the menu items are badly executed.

It would be nice to have more affordable vegetarian options, more variety of vegetarian foods would be great too.

Food Quality has gotten alot better over the years, make sure all things are stocked at the Res hall Rest. Mexican food is the best there, but the rest is not so great.

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Food Quality \& Preparation

## Undergrad Off Campus

Sometimes because students make some of the food, they try to assemble it too fast and can come out looking kinda sloppy.

There is no freshness to our food, or acutually ethnic food. Panda Express is not chinese food. Plus you have to pay for a water cup at Panda Express, thats pretty stupid. We're poor college students surviving on ramen, the quality needs to improve.

The lines are too long. It needs to be faster.
More authentic and better tasting food.
I assume that better training needs to be implemented at the restaurant in Latitude 55. I've eaten there twice and had bad experiences with the food preparation both times, and I won't be spending my money there because of it.

I was excited to try the newest burger place in the new commons, but when I did, I was disappointed. The fries tasted very 'cheap' and did not have a very good flavor or texture, and the burger wasn't very much more pleasant. Compared to fast-food restaurants with better-tasting food for lower prices, many of the menu items seemed priced unfairly.

I would love to be able to buy fruits other than bananas and apples or a fruit cup. Fresh juices would be nice. Also a variety of salads that do not include chicken in them would be great. Also more authenticity in the ethnic foods. Fast food isn't ethnic it all taste like garbage.
lothian etc need better food/more weekly variety
Better food, not like the nasty MSG Panda Express use.
I want to eat food that has not been sitting out for hours.
offer better quality food and improve the preparation of food
Keep hot and give good portion sizes so people keep going back knowing that they will get full for what they pay.

It would be nice if there was one place (other than the C-store) that provided organic or natural foods for sale.

Freshly prepared food that is prepared properly.
I feel like Panda Express is too fake. The Honor Roll food tastes cheap. The only place i really eat is at La Fiamma and El Sol. However, I feel like its really stingy. For example, at El Sol, when i order carne asada nachos, they give you a bunch of chips but only like a scoop of meat and little dinky scoop of guacamole. At La fiamma, the scoops for the food portions are so little too. And they dilute the sauce with milk.

Use quality ingredients.
I would like to see more healthy food options on campus. College students already have a hard time balancing school and all other obligations and unhealthy food can be very hurtful to a person's body

By adding variety and the use of natural ingredients.
Fresher ingredients and healthier alternatives.

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Food Quality \& Preparation

## Undergrad Off Campus

less greesy food full of fat, more healthy foods
All of the food offered by Dining tastes pretty bland, despite having to pay so much for it. I can go somewhere else, pay less, and get a better meal.

Get fresh food, we can tell if we're being served something that's old. Hire more works so that it's not so difficult to prepare food in a timely manner and get the lines moving.

I would not want to eat something that has been in a freezer for over two weeks. I believe it would be best if the food was fresher, so it can be prepared in such a way that all the taste is still there.

The ingredients used tend to be chemical-laden and unhealthy. I'd like more organic and vegetarian options. In addition, the food preparers will often allow cooking utensils to touch certain products (e.g. chicken) and then another item (e.g. pasta) which is gross.

The food is often cold and taste very boring and routine. I feel as if the Dining locations know i have no other choice so they will have a low quality for a high price.

Food is warm and has not been sitting around. The preparation areas are clean. It would be nice to see some of the stuff being prepared and cooked not just taken out of warmers.

Serving authentic foods would improve the dining experience. For example, the 'Mexican' food restaurant in the Commons does not taste like Mexican food.

More freshly prepared food....
The food on campus starts to taste the same after you eat them all the time day after day, week after week. The flavor of the foods tend to be bland on campus. Maybe this is due to trying to prepare food fast for students when it becomes busy. More flavor and thought and time should be put into the preparation of foods so it will taste more homemade rather than commercially made. More variety will also be good too.

Sometimes the food's like fruit cups or salads don't look too healthy enough to eat, fresher food would be highly appreciated.
sometimes, the packaged sandwiches are soggy and undesirable. I have also bought salads which were literally frozen. However, I have never had any trouble in bringing in the undesirable food to exchange it.

There is really only junkfood on campus, i want meals that will give me energy and keep me healthy.

Make sure all the food is prepared the same way everyday, quality not alway consistent use more fresh locally grown vegetables and produce.
fresher
You need to add healthy food. Food that comes from famous food chains like JAMBA JUICE!
Use sustainable foods, don't give out everyone 10 napkins, allow them to pick them up if they want them

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Food Quality \& Preparation

## Undergrad Off Campus

Some of the places on campus food quality is really not that great. That is one of the main reasons why I don't dine on campus. I'd rather wait and be a little hungry till I get home for better tasting food than waste money here.

If the food tasted better, I would go to the food service more often.
most of the food in the c store and in the cafeteria is below the standards of all other UC's. By far we have the worst variety of vegetarian and organic foods. We should have a satellite Goodwin's store that serves organic food and juices.

Most of the food prepared at school really doesn't taste that good.
food does not taste good at all, not even the pizza. how hard is that? i'd rather eat little cesar's. mexican food is not mexican. over panda express and don't eat sushi

Create more authentic style food preparation, like the pizza kitchen in the commons which uses a real pizza oven. For example, the Honor Roll sushi place could use some better ingredients, as it tastes mediocre despite good preparation. Same goes for the sandwich shop Stacked.
quality and variety.
I would like a place where they serve good healthy sandwiches and salads that are fresh and not kept in refrigeration for a long time. Example-Panera Bread

In the Commons I'm not to hot on the type of food. I go to the mexican food but the variety is not to hot.

The Mexican food isn't all that great
Most food is sloppily prepared
Sometimes the quality of the foods offered isn't so good. Coffee is stale, lettuce is wilted, too much grease at the Panda Express, etc.

Well prepared, fresh and healthy. Get money's worth
Get better cooks, or at least people that know the basics about the food being made.
Several meals I purchased seemed like poor quality ingredients for the price I had paid.
more vegan options
Based on the prices given for food items, it seems logical that the dining cooks could use better, more high quality ingredients in their recipe's, especially when it comes to meat quality.

Stacks does not even come close to a subway or quizno's which not only exceeds Stacks in quality, but also in the amount of content on the subs. I think a buffet would be cool but probably not feasible.

Make the food taste better.

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Food Quality \& Preparation

## Undergrad Off Campus

The quality of the food is rather low for on-campus dining. The current availability of healthy foods is practically non-existant. The food tends to be greasy and sloppily put together by a staff of young people who don't seem to care; watching them work and listening to their job makes it seem like they take no pride in what they do and when you have a staff like that it hurts the end product. I would like to see healthier choices other than sushi; lean meat, brown rice, fresh fruit and vegetables, perhaps a custom salad bar with low-calorie dressing options. I simply don't want to eat greasy food and my only other choice is over-priced sandwiches or sushi.

The sandwiches in the store are not very good. The bread is tough and there wasn't enough lettuce and tomato.
the food that is served is okay not really that good i get sick of it really fast and some of it has actually made me sick. i would prefer food that is cooked to order.

I would like the best food quality standards, so I can eat without worry.
I just haven't liked the burgers at Latitude 55. If fast food places can make a respectable grilled burger, dining should be able to also.

Not being a chef I could not point with certainty. However, I know what tastes better as a customer. The Barn is the best example of Food Quality and Preparation. Every other location on campus has horrible food. In short, my recomendation for imporvement is to replicate with you have at The Barn throughout campus. However, If I had to indicate one thing in particular. I would say stop using pre prepared foods. For example, pre cooked chicken/steak at the el sol and La Fammia or eggs out of a carton. I suggest you try the food and honestly ask your self if quality would improve if meals were prepared with fresh ingrediants.

I'd really like qualitied and decent meals that can be offered in school. Even if it means that it costs more.

Quality of food is often low, I prefer to do my own cooking more often than to eat on-campus. I feel my choice of goods is far superior (and often cheaper) than what the school has to offer. Trader Joe's offers superior quality food for a fair price compared to what is sold at the school. The suppliers currently in use are far below par.

Everything on campus has the same ingredients just with different carbs. BORING
I think lunch at loathian is awesome.however i feel like they should know when the rush of people come by know and not wait just keep cooking the food. Because then there are long lines of people and then the food is cold and it is boring that they only change the menus ever quarter or every few weeks people can recite the menu...thats a little sad also we have pizza twice a week and thats a little tooo much

That mexican place on campus, De la Sol or whatever is a joke. The food is horrible and makes my stomach fell like crap. Get rid of it! Enough asian places already too, there's plenty of that on University ave. as it is. Why can't all the food places around 'the hub' be as good as the restaurant at The Barn across campus? That place has real quality food, and the ONLY place I really ever eat at now if I ever had to eat on campus. The food and service is fresh and outstanding.

[^2]
## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Food Quality \& Preparation

## Undergrad Off Campus

I would like a better selection of vegetarian options, and more healthy drinks and snacks as well. There could be much profit in these brands, plus the concept of having healthy options looks great to outsiders who are considering the campus, whether they eat the healthy foods or not, it is a good notion to look forward to a healthy meal being available whenever you need it.

Change it a little, offer real meals, not corndogs or chili-fries or a mexican salad or beef birra tacos every week, students need to eat better.
my main complaint is a bout the sushi place at the commons. i love sushi. no, seriously. I LOVE SUSHI, but i can't stomach that shit you guys serve. it's gross, and chewy and cheap in a bad way, and everyone knows it. everytime i try to give it another try, i always wish i'd bought something else. decent sushi, please!!

Good ingredients, professional preparation i.e. In-N-Out
Offering more organic/locally grown options would be nice.
The food quality is over priced.
Tasty and authentic but above all HEALTHY options are extremely important to me.
Undergrad On Campus
more swiftness and better quality of foods presented regarding healthiness
It is extremely important that the food is not highly processed and as fresh as possible
I found a spider in my salad at the A-I dining hall.
I wish there were more options for healthy eating. Sometimes, the only way to be eat healthy on campus is to go with sandwiches or salads, and that gets to be boring.

Dining Services can completely improve their food quality and preparation by making sure that the meals that they serve to students are fully cooked. There have been times that the chicken may be a little raw and would need a little more of time to actually get cooked well.

The food is undercooked alot, especially the chicken. People keep getting sick from the food, especially at lothian I have noticed. Something should be done about that, that is the reason I stopped using my meal plan because I dont want to get food poisoning anymore.

I feel like everything's so buttered up and so salty. I heard that in UC Davis there are way more healthier options. my friends who work at dining hall tell me about how everything requires loads of butter. That's disgusting.

Sometimes the food is really salty, especially the mashed potatoes. Also, there are not quality vegetarian and vegan food served.

The best places to eat on campus are the Barn, Taco Fresco and Panda Express. This is because the food tastes the best. Latitude 55 has good fries, the burgers are okay, and the Pasta place is okay. El Sol is nothing compared to Taco Fresco. I am not saying to get name brand restaurants, but just make food that tastes really good. Why would I go to El Sol in the commons when Taco Fresco is about the same price, and tastes 10 times better?

The food that are served in dining halls are not bad and its not that great. There is too much grease whenever I finish my food, so I would suggest not using as much oil to cook the food.

Read below

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Food Quality \& Preparation

Undergrad On Campus
The food tastes horrible and seems as if it wasn't even prepared on campus, in order to feel as if I'm getting the best of my money's worth I would want better quality food.

The food for the dining services are horrible. We pay so much money to live at UC Riverside, but in the end we are left with meat that don't look like or feel like meat, constant meals of pasta, and just the poor quality of the food. If the food looked better and actually tasted better, i believe UCR would have more people going to the dining halls. People only go to the dining halls because their hungry and have paid for meal plans. The quality of the food does not match the price I pay for a meal.

Sometimes the food does not taste good
Cook it efficiently. Back in the dorms, I always got sick, and my friend who worked in dining said the head chef doesn't give the food time to cook properly.

Just have a better selection for the meals that we want to eat and make them taste better so we want to come back
often, the food is overcooked or is dry or watery. the food doesnt usually taste as good as it looks.

I think that dining as of now, has a lot of options for students and thats great. I love the new opening of Lat. 55 i think it is good, but i would like to see the other places just go above and beyond. expecially in teh Residential Restaurants. I am student staff there, and i live on campus, so just to up the quality of hte food even if that means less options

Right now the food is not fresh. I think the food can be served a lot better than being scooped up and sitting on the plate until someone picks it up.

Tastier food. Think UCLA food :)
make certain foods authentic and make it taste like what it should taste like and mix things up a little bit instead of having the same meals twice a week every week. Don't reuse leftovers in random recipes.
n/a
There's a lot of the same food each week.
Some of the food prepared does not look very appetizing, sometimes it looks as though they are left overs. Just make the food fresh and people eat with their eyes first, make it look nice.
need to have better food and use better seasoning
The food at the dinning halls sucks!!! You make improvements on that.
It just needs to taste better.
Get a list of the top university cafeteria's, and start doing what they do.
It seems sometimes that the food at the dining halls are inadequately prepared.
Dining Services should focus on making regular,normal(conventional) items, such as pepperoni pizza, fried chicken, spagetti and meatballs, etc. instead of random dishes that are not very tasty. There are several instances where $i$ would rather make a peanut butter and jelly sandwich instead of eating something Dining invented.

# Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Food Quality \& Preparation 

Undergrad On Campus
The food is bland sometimes and not much variety to it. For example they reuse a lot of the food during the week. It gets too repetetive and it isnt that tasteful.

Make food that is fresh and not spoiled.
I do not like the food offered in the dining hall. Some of the options are very questionable. The preparation is also questionable because sometimes it is a bit undercooked or extremely overcooked.

The food I see at Logo's is always rotten. The fruits have either already gone bad, or they are in the process of going bad. The carrots are dry, and the foods are usually set out even PAST their expiration dates. Last time I got a pack of grapes that had been expired for over an entire WEEK. It is very disturbing and highly unsanitary..

The food sucks. There is very few choices and most of the time its tasteless. sometimes it is undercooke and basically has no taste.

Use acutal quality meats. Dining services food provides me with stomach aches immediately after I eat the food. Also the food has no type of flavor due to the low grade quality of the meat.

Hire real chefs and the dining halls and not incompetent students to cook the meals. Offer better food choices and not weird, absurd menus with selections unheard of like menudo manchego mullita.

Doesn't always taste great
Try not recycling food such as the fried chicken in served in East Lothian and A.I. Perhaps not serving UC students microwavable 'chicken' strips and calling it dinner. My suggestion is that UCR should use the full potential of their skilled chefs and not have them waste their time and effort on food an average 7 year old can make. The gentlemen (head chef I presume) who works at the pasta restaurant at the commons is a skilled chef that is used to literally flip pasta with a frying pan and add a scoop of sauce (with three, sometimes two, options). Put more blatently, the UCR residential meals are disgusting and repulsive.

The food at commons is good. At the residence halls, it is bad.
Generally the food quality is fair and satisfying, but the preparation is poor. The food seems to be rushed when being made, and as a result doesn't always seem that appetizing.

Dining service can have fruits that are sweet instead of just fruits. Sometimes the food tastes very nasty.

Don't use false advertisement, because sometimes the food that is on the menu is not being served. Also use fresh ingredients.

The preparation is speedy here, however, the quality does not meet the standards. There are some days where the food is good, but then it disappears and we never see it again!

Offer organic goods at good values.
The dining hall food is generally pretty low-quality. Sometimes it seems like they aren't trying. I've found pieces of plastic in soup I was eating there. You should hear how much pretty much everybody hates their food.

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Food Quality \& Preparation

Undergrad On Campus
ensuring food is always served as it should (hot items hot and cold items cold).
If many food items cared more about healthiness and take out the greasiness. Healthier foods seemed to be set to the side as secondary items instead of the main items that students can pick from. Also, into the year, food at the cafeteria seemed to get worse. The noodles should be better prepared, and some food items seemed like they were never tasted before putting them out for the students or public to eat. Breakfast is the meal I can consistently eat at the dining hall; lunch and dinner sometimes seem to have items newly created and do not taste good (but some do come out really nice). Also, it would be nice if most food were thought of healthiness (like adding less oil, etc.)

Less oil and fried food, sometimes the bread is hard and if food was not re heated. Also if there was more healthier/vegetarian food

Have better food that are fresher and have a professional cook make up the menu.
I like my food fresh, so provide us with better 'to go' boxes or method to keep food fresh.
for the dining halls I would prefer a non-buffet system in exchange for better quality food. Also, there have been times where the dining hall has run out of the normal food and it starts serving meals that weren't originally on the menu.
it would be nice to have healthier foods prepared inthe cafetiras. less greasy food.
Maybe try and flavor it a little better. It is good just a tad bland.
Overall, better quality in which I know that what I am eating is healthy and not old. I like my food to be fresh not make me wonder how old it is and if it will upset my stomach. I am vegetarian and the veggie options tasted REALLY BAD.

Maybe more time into making the food. Always having fresh ingredients.
They can have more varieties for each part of the kitchen. Also to have the food more freshly prepared.

Sometimes the food, particularly in the Residential Dining Halls, is quite inedible.

- Quality should match it's name on menus (ex: 'wings' should be wings and not chicken nuggets; 'steak' shouldn't be a hamburger patty) - Food is too high in sodium

Provide healthy, natural, organic, fresh, tasty food with a variety of spices/herbs/seasoning...simply food that has a distinct, complete, and enjoyable taste.

The food has to be decent to eat. And taste good. It can't just be plain fast food. Some people only have 10 min between classes and faster service and more cahsiers would be helpful.

Decrease the disproportion calorie count in cafeteria food. A breadstick at dinner has 230 calories, almost the same as an McDonald hamburger, which has 250 calories. The school board needs to take action against such poor food serviced at cafeterias at UCR!

The food used in the dining restaurants looks like cafeteria food. It is extremely greasy and unattractive. Besides the salad bar, there are no nutritious food options available.

The quality of the food is not very appetizing. Food should be more fresh, a lot of the meat that is served in the Dining Halls (Lothian or A\&I) is often dry or not cooked all the way. Many of the

# Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Food Quality \& Preparation 

## Undergrad On Campus

sauces that are used to cook the meat are either too sweet or too salty.
The food sometime looks very fating and the flavor is not good.
Offer more variety towards what you can purchase at the resident halls. Limi the amount of pastas because they are usually not good.

Sometimes food is not properly cooked, especially meat. I'm pretty sensitive to undercooked meat, so this can be a big turnoff. There's nothing worse then cutting up a piece of meat to see it pink or purple on the inside.

Make the food better.
I believe that serving food that is of better quality will definitely help improve the dining services. For example, the beef in the beef and broccoli meal can be softer and of better quality choice, in addition to the garlic bread that comes with the pasta. I feel that using a bit more money in buying the ingredients that make the meals richer in taste will satisfy the people much more.
the food quality is not good and i feel sick after some meals. some food needs to be served hotter. sometimes the food gets soggy.

The food quality is not pleasing. Everything is bland especially the soups. We also get sick of the same food.

The food quality is not equivalent to the amount of money we are paying for it. The food, specially fruit is sometimes used for weeks or until it is used. That is completely unacceptable,we should always get fresh foods.

Use more natural foods and not preservatives. Need more taste.
i think there should be more variety of food to choose from not the same meals every week and a faster service if students can order online or call before hand

I think that dining services especially in the residential restaurants need to cook the food longer and use better seasoning, maybe take more cooking classes. and also we need a better variety of food, not just chicken and rice everyday. they serve the same thing every week.

Healthier food and drinks such as fruit smoothies or healthier prepared foods.
Sometimes the food isn't pleasant at all and I feel that my meal plan was wasted because I didn't even enjoy the meal it was used on. The salad is always good.

Please make the food taste better at the Dining Halls for the residents
More fresher foods. Foods closer to authentic ethnic taste. Meat choices could be better quality like for Honor Roll. Less refined and pre-made products.

Some of my friends have told me that they have gotten food poisoning from some of the foods served. If the quality of the food could be fresher and healthier (less grease and fat), then I would eat some of the food that are served. Because as of right now, the only things I eat at the dinning halls are salad and fruit.

Dining Halls food taste unauthentic and dipleasing to the tastebuds.
Always use fresh ingredients. Stop using leftovers.

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Food Quality \& Preparation

Undergrad On Campus
The chinese food is inedible at times; rice used should not be mexican rice
the food isn't good... try to make it better.
Stop deep frying foods.
the food in the residential restaurants aren't the best tasting foods, perhaps if less grease and better quality foods were used it would be better

The rice has this weird taste to it that does not seem to be natural to me.
Although the food provided is not always palatable it is sometimes understandable due to the necessity of preparing the food before the diner opens and before rush hours. However, some nights there are multiple notoriously unsatisfactory entrees such as bland pasta or soggy bread. Some recipes that many complain about should be eliminated and replaced.

No 3 Ginger Beef!!!! Make sure your employee's know what they are serving.
The chicken that is served always seems to be dry like it cooked for too long and all the juices have evaporated. It would be cool to have real mashed potatoes too.

There have been weird mixing os food. Don't do it. Clean the utensils better
The food quality and the money does not go together most of the time, especially the dinner. The dinner at the dining halls are very unhealthy in terms of fat and grizzy. Less fat would be great, and cook the rice all the way please.

The fooD quality should, be better. especially in El sol
Being a freshman, i have to eat dinner at one of the dining halls. The meals are poorly cooked and sometimes a dish would be served 3 times in a row. I do not enjoy the food there, so my friends and I would dine out.

Food quality sucks
Prepare the food better and buy better food
Just like taste it before handing out. Sometimes you wonder if someone did taste it before serving it because it just taste bad. There are good days and bad days. Just be mindful of what you're serving. Why should we eat something if you wouldn't want to eat it.

I think the food is good but we should be able to have better food quality. My dad works for dining services at UCLA and it blows my mind how the food is not as good as theirs. I think we need to change our ways of cooking or something because it seems like everyone complains about the quality of food.

Improve the taste of places like Fiamma's italian grill
When i walk into the C-store or Ivans, I dont bother to look at the fruit cups, because they're always in bad condition. They look like they're rotting already. I think Dining Service needs to be more careful about what they're serving to the people.
fresher
A lot of the food is prepared with the same ingredients and would probably taste better is there was more variation.

There needs to be more vegetarian options.

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Food Quality \& Preparation

Undergrad On Campus
More variety and food that looks more appealing not just the same food every week.
I chosed the food quality and preparation because not always the food grabs my attention to eat, especially in A-I or Lothian. I think that to improve the food service to the student is to change the food preparation differently that all the students and staff can enjoy what they're eating.
better food and more variety
Most dining halls have their food shipped in daily. They should try to make some of the meals in the kitchens. Also, the dining halls should implement a make-it- to order grill in the dining halls. More people would go to the dining halls more often.
the food is bland and tastes like shit
Just have fresh food and food that does not look like it came fresh out of the microwave. Also the chefs should taste what they are preparing not just feed it to us before tasting it. Or atleast make the food look good not like its dog or animal food.

I hope the dining services can use more organic food rather than frozen food or fried greasy food all the time.

I would like more selection since a variety of foods would cater to my taste and health.
The food is okay. It is what it is. Please stop serving the yucky fish. No one eats it, and it is such a waste. Serve cheeseburgers more often, everyone loves cheeseburger day. Also the fish taco day is good. It is actually my favorite.

Food doesnt taste that good. They serve same stuff. Got sick of the food, but still eat it because I'm hungry.

Can't be helped I guess. It is a good job for serving so many people.
I recommend making the food taste better please. For example when one makes spaghetti, use real sauce that is not watery. Also cook the cheese in the pasta, and macaroni, don't simply sprinkle a few pieces on top after its been cooked. I just want to eat food that taste good and prepared correctly.

The food seems bland sometimes or super buttery. The pizza is undercooked sometimes. I recommend adding flavor or at least a spice rack for us to use.

The majority of the time, food at the dinning hall tastes extremely oily, and I do not feel good after eating most of the meals. Often times, it feels like the food came from the frozen section of a supermarket, the food doesn't taste fresh and it feels extremely unhealthy to eat them.

The food can sometimes not be frozen before it is not cooked, and more time can be taken to prepare the food, to ensure quality.

The food quality is not only bad but the taste is always bland, salty or just plain disgusting.
Stop serving low-quality food that does not taste like it is supposed to. Along with the greasy looking food...even if it is 'healthy'.

The food from Dining Services is sometimes not cooked thoroughly, so this definitely must be improved.

Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Food Quality \& Preparation

Undergrad On Campus
Make healthier fresher stuff in the dining halls. Since I can't use my meals anywhere else and nothing carries over can there at least be a healthy option.

Most food served is too greasy and makes me lose my appetite.
Have better quality foods in the cafeterias. For example UCLA has excellent cafeterias
Sometimes I find hair in my food.
Restaurant food is normally low quality. Higher-ups should actually have to taste it. Also, quality of ingredients can help with the end result taste.

Make sure that employees are properly trained in the way they prepare the food. Example, some people do not know how to fold burritos and this makes the experience frustrating and not as good as it could be. Sometimes food isn't very hot when served. Some students are not attentive to reading the receipts and making sure customers get exactly what they asked for.

The food preparation is excellent, but the food quality is very very low. Most of the time I would just skip the main entree and just eat fruit and soup.

Some of the food lacks of good taste and presentation. Food should be prepare using fresh ingredients to reduce the amount of fat and provide healthier food for customers.

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Food Variety \& Selection

## Faculty Member

I eat at The Barn three days a week. While the menu offers a good selection of vegetarian fare, some items that I liked in the past are not now on the menu. A survey to see what items from the past that should be brought back and which items on the current menu that should be dropped would be nice. As it is now, the menu is fairly limited.

I suggest more ethnic alternatives using fresh ingredients. Falafal sandwiches, Thai, Indian, Mediterranean, all would be popular.
more spaces like arroyo cafe
I was sad when The Barn discontinued the original menu. There used to be a great pasta-andvegetables, and also a citrus salad. These went away and were 'replaced' (at least in some sense) with meat-centric meals. Really a turn-off. (Yes, I'll admit that these changes occurred years ago, but they still leave a bad taste in my mouth.) My wife and I used to drive to campus to eat there, when those options were on the menu; now, I rarely consider eating here even when I'm already on campus.

As a faculty member who is particularly health-conscious, I eat most of my meals at home or eat brown-bag lunches because it suits my lifestyle and budget best. I would, though, be pleased to patronize a coffee shop or snack bar more frequently if there were more places on campus offering espresso drinks, teas, fresh fruit snacks, etc.

I would very much like to see an increase in the availability of these options: - Vegetarian - Ethnic Whole wheat

I am getting bored with the vegetarian options. I am not a vegetarian but I would like to eat more vegetables than are ususally included.

The food available is largely fast food oriented or else high in fat and sugar; the salad bar has relatively few choices and is not changed frequently.

Need more different, convenient, inexpensive lunch choices. I get tired of the same range of choices every day.

More/fresher salads. More vegetarian entrees. More fresh deli vegetarian sandwiches.

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Food Variety \& Selection

Graduate Student
More ethnic and vegetarian options
Add more ethnically diverse food locations, or more national chains. The UCR prepared food places in the commons are not that good for the price, with the exception of the sushi place.

You can carry more authentic ethnic cuisine. Also more healthy choices such as an expansion of the Barn menu. Giving the option of fruit as the side and items that are not fried or laden with grease.
add more options for food like healthier option ie. soup and sandwich place. if there was variety and healthier options, i may eat on campus more often.

There are not very many vegan options, particularly in the restuarants located in the Hub. I do buy the hummus sandwiches when they are available, but often when I go into Bear Necessities they are not ready. There also not very many vegan chip options; they used to carry the Sweet and Spicy Chili Doritos which were vegan, but they are no longer there.

Overall more variety. Different types of foods.
more authenticity and ethnicity in terms of food choices
Having more ethnic foods
I have a very limited diet. Affordable, vegetarian (and vegan) options would be nice.
The menus are too limited.
Have more variety in ethnic foods.
Other Student type
More of a variety of choices.
I really like a lot of choices and even the quality of food is very important to me. I don't like undercooked or overcooked food at times. It just makes me not want to eat there.

## Staff Member

Add more choices for fast food or pre packaged meals for on the go.
More salad bars, more deli sandwich options
Same food everyday gets boring, if there was more of selection and new food items ever so often, then it eating on-campus may be more appealing
i think we need a bigger variety of food ucr has alot people from different backgrounds so should the food.

Dining have good services but they food is the same. mostly mexican and asian meals. They need more to get more.

Salad bar in the HUB with fruit AND veggies. Real salad dressing instead of the 'generic' kinds offered.

More vegeterian options. A salad bar with more options at the HUB.
More healthy food selection. I feel like a lot of the foods are deep fried, pre-prepared, and greasy. More pastas, sandwiches, and fresh food selection

Include more healthy choices and snacks.

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Food Variety \& Selection

Staff Member
Regarding Taco Fresco, would like to have a wider selection of foods such as sandwiches, wraps, salads.

I like vegetables, hot roast beef and chicken, great rolls,Home like cooking but with healthy choices like salads. I do not like everything being spicy.

A larger selection of comfort foods and American cuisine @ HUB and Barn. Salsbury steak, Philly sandwich, beef stew, or steak of any kind. Southern style, Creole or cajun, soul food, anything with dirty rice and seafood. Try tomatoe sauce on the Pizza.

Sometimes the choices are so bad their is no choice. But most of the time there is something that I can eat and enjoy. The staff is great and always works hard.

More vegetarian or vegan options would be wonderful (and I mean more than salads and soups):-)

I have worked on two other UC campuses -- UCLA and UCI, and I have visited many other universities. I have to say, UCR has the absolutely worst dining of any! I seriously think a person could STARVE TO DEATH here! We need better selection, better prices, more convenient locations -- and, if this is a year-round campus, how about the summer?! The ONLY worthwhile place to eat is Arroyo Vista Cafe, and it's the ONLY campus place that's fit to bring visitors.

Use name brands- name recognition is what sells
more ethnic choices, or more menu items at bigger places like the Barn
Food choices available to Corp Yard are limited. Fresh sandwiches and salads would be nice.
Please bring some BRAND NAME restaurants to campus, like the Carl's Jr truck. Also, a brand name ice cream place like Baskin Robbins, or even a Jamba Juice. The Freshens smoothies/ice cream that was here before was awful.

There are very few selections and no major chains.
I realize we are limited on space for food options, but there might be more of a variety in the daily specials so that we could get something 'different' at least one or two days per week. Sandwiches are a good thing...but daily specials are too odd and you can't make substitutions.

Need some Thai food, MUCH better Mexican food, and grilled fish/seafood. I try to eat whole grains, grilled meats, and vegetables and this is hard to find on campus.

Offer more than 'fast food' style...it can be fast, but does it have to be deep fried or on a bun? I go to the BARN and the variety seems minimal. I end up getting the same thing over and over and that's just boring.
wheat-free selections; locally grown produce; fresh food; ethnically diverse (middle eastern, central/south american, vietnamese, thai)

Asian (Thai, especially)
Sometimes at the cafeteria, they are serving boring stuff on the lines, like Cheese Quesadilas or Hamburgers. If I want a hamburger, I'm gonna go to Carls Jr or In and Out. But most of the time I like what they serve like pitas and shrimp burritos. I guess I like it when they serve something that I usually don't have at home when my wife cooks. I have alot of chicken at home so I usually don't eat at the Cafeteria when they serve chicken. Thank you

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Food Variety \& Selection

## Staff Member

more varied menus
salad bar @ mexican food service
Right now Panda provides the best choice for my diet. I can get low carb, low cholesterol choices, and the service is pretty quick albeit crowded. My second choice would be sushi bar but the wait is always very long no matter how short the line is. Maybe table or bar service would improve that. If I go to an off campus sushi place I can get my food a lot faster and the flavor is comparable. Sometimes I want a break from those two options. Not sure what you can do to improve that area except provide more low cal, low cholesterol choices in other vendors.

It would be great to see more ethnic diverse foods ie, indian, mediterranean, etc
choices that are healthy and flavorful. Less fried, sugared sauces. A really great salad bar.
Fresh ingredients, made-to-order or packaged, that has a lot of flavor, and feels like it's homemade.

More healthy options.
Need a burger restaurant
Variety of raw vegetables or cooked without butter or oil; small bowls of fresh fruit; small, healthy cookies at reasonable price (oatmeal, etc.); grilled meat, chicken and fish; wheat bread.

I'd like to see more vegan and vegetarian options, especially healthful foods that have decent amounts of protein in them. The vegan hummus sandwhich in the C Store is great. I'd like to see more of that type of thing in the 'grab and go' section.

There are less choices for vegetarian on-campus compared to off campus.

More vegetarian options and have all vegetarian foods prepared in a separate area/pans from meat items. Some places on campus do this well (Stacked/Barn) and others do not (pasta is cooked in same pans as meat orders, same spatula used to mix meat order as vegetarian order).

I prefer healthier choices most of the time and would like a close location for these

## Offer more store choices

As a staff member, I am looking for healthier options. I want something that is more than a salad. Fruit/yogurt dishes. Salmon?

More healthier food
Barn menu could be changed more often. Bring back some healthy items like cottage cheese and sliced tomatoes.

Have more healthy selections for breakfast.
More vegetarian options.
I like taco fresco but it's a little pricey. The tacos don't give much for the price.
Prefer all variety and selection in one location
if their was more variety with good prices and healthy options that would be nice.

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Food Variety \& Selection

## Staff Member

Fast food is fast food and is never good for you. Panda Express is not as good as the old in-house option we had. There is something wrong at the Barn because every time I eat there, although the food tastes good going down, my stomach always rejects it several hours later. I think it has to do with storage of salad and fruit and with changing of oil and use of too much oil because that is what my stomach gives back.

I try to eat healthy and have a hard time finding healthy food options.
More ethnic or specialty foods
UCR used to have more food chains on-campus when my mother was a student in the 90's and that was so nice. I like the mom and pop type of dining, however if we had more food chains on-campus that would make me want to less likely go off campus to eat my meals and spend my money toward the campus rather than fulfilling my needs elsewhere. I remember that when I was a child at the Student Store there were a variety of dried nuts, and baked trail mix with dried flavored noodles and other various dried goods. This was soooo good! It was healthy and the flavors of the trail mix (as I like to call it) was so good!!! PLEASE BRING THIS BACK...I WOULD EAT IT EVERY DAY AND BUY IN BULK TO TAKE HOME WITH ME TO SHARE WITH MY FAMILY!!! I miss that trail mix :(

Offer more variety in the types of cuisines, such as Indian, Thai, Caribean, Latinamerican, etc. Catering: offer more items that are less fancy. Simple items for student meetings ie. hot wings Add true line of desserts beside cookies and doughnuts. Ice cream shop, smoothy, or and frozon yogurt

## Undergrad Off Campus

I think that there needs to be more selection of food types to choose from apart from what there is now at the commons.

Offer different menu items. Maybe lunch or dinner specials that are the chef's creation. More food carts with around campus to add variety.

Needs more fast food which actually tastes good unlike panda express or super thin pizza. such places as innout would definately provide a lot more service.
more variety within each food service selection
During first quarter I got extremely tired of eating the same food, there should be more smoothies and sandwitches

Currently, I am very pleased with the variety of food and I think it is unnecessary to make and major changes.

Try to have one store that offers more than one type of food, the quality of which isn't questionable. Look at Panda Express for instance: It's like the McDonalds of chinese food. I'd buy lunch/dinner on campus at least 3 times as often if the chinese food was of higher quality.

I eat on campus a lot because I work and take classes there, something I really just get tired of every thing being served.

Add more flavorful foods in the dining hall. Most of the time the food is so bland that I would rather by food in the Hub or off-campus which is not the most convenient for me.
more healthy choices

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Food Variety \& Selection

## Undergrad Off Campus

There are some vegan options on campus, but the selection is rather limited, it gets boring after awhile. If there were pure fruit smoothie options that would be wonderful. The old commons had an ice cream/smoothie place. Ivan's smoothies are rather small. I think of places like Jamba Juice or Juice It Up style in health/size.

There isn't enough vegetarian food, and whatever they do have, it is not a tasty alternative at all.
Healthier options and more vairability.
It would be nice if dining services had a lot more options everyday instead of only 2 or 3 choices. They should have up to 5 choices of foods to chose from in the dining facilities. Or at least have 3 different kinds of foods at one facility and 3 other kinds of foods at another facility. It would be worth the walk to go to a place with the food I like. So then there is a wide wariety of food everyday.

More selections of fresh made salad, fruits and veggies. Also, more orangic and whole grain food options.
more finger foods like chilli cheese fries ,burgers chicken strips.
Have a constant variety as opposed to sporatic.
Better burritos
A limited variety of food selection gets boring. Especially when none of the foods are great.

I would really like to have more restaurants on campus, and especially if they were of ethnic foods. A real coffee shop is very important to me, as well as having some Indian, Mediterranean, and even Ethiopian food!

More ethnic foods such as Indian, Mexican, Italian. A legitemate Chinese restaurant (not panda express) and a decent hamburger restaurant (lat 55 is similar in quality to McDonald's and is too expensive considering the quality)

None
i guess i should have picked quality for this one, but i cant go back, so I was excited to hear about a burger point on campus but the first time I went there I was horribly disappointed with the food.
Everything just tasted bland and uninteresting.
More variety instead of the same things

## NEED MORE VEGETARIAN FOOD!!

I feel like right now, the food is made to provide fast meals for students. But there are times when students are waiting on campus for classes to start when interesting fun-food would be cool. If I don't have class for two hours, I would love to get some ice cream or frozen yogurt or a piece of pie or something like that. Something with the hip, fun quality of the new burger place with the triviality of cool desserts (or other snack foods).

The dining services should offer more items on their menu, and have more eating locations around campus at more convient times.

To better prepare food variety and selection, I think it's important to have more of a selection while they are all of good quality. Presentation ia also key.

# Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Food Variety \& Selection 

Undergrad Off Campus
Bring more restaurants and well known eating places to the commons
Need to have more selection of food.
there needs to be a variety of healthier foods available to take to go for busy health concous people

Dining Services needs to provide an equal amount of vegetarian and vegan options as it offers nonvegetarian options.

I would like to have more known restaurants that serve large portions of food for a reasonable price.
We need more options and actual ethnic food. The 'Mexican food' currently offered is garbage and not Mexican food.

We need different types of food being served and new things on the menu at least once a month. We get tired of having the same options throughout the year.

It seems like there is a little bit of variety, but there could be way more food choices like different ethnic foods or even different brands of similar foods, like In-N-Out tastes way better than latitude 55 . The burger place from the original Commons was the best-good burgers, zucchini and seasoned fries!
better choices for food
i think the more variety, i would be more liekly to go eat at that cetain place moreoften since it will have more options. I know that at certain places i get the same thing all the time because i sometimes do not like the other things on the menu.

I think that the campus needs a wider variety of healthy food selection. It's hard to eat on campus and not just get a sandwhich everyday when that is one of the few healthy things available. Improving selections of food would greatly be appreciated.

There are some vegetarian options, but more would be appreciated.
Mongolian BBQ would be a favorite for sure. Maybe get rid of the hot dog carts and install a Jodi Maronis inside the Commons.
desperate need for more vegetarian and vegan-friendly options!
If there was more variety, I would probably eat more frequently on campus.
definitely need to broaden it up
there are so many different, diverse cultures on campus, it would be great to have different kinds of food especially more Asian/Indian ethnic foods. Its for the students, should we cater to students? In additions we wouldn't have to eat the same thing all the time.

Create a bowl restaurant like the one that was in the old commons.
I feel that UCR should model their dinning after UCLA's. UCLA has a great dinning area and I was very please with their selection. My favorite part about it was that they had a big salad bar where you could make almost any kind of salad you like, the toppings were almost unlimited. That's one thing that I feel UCR dinning lacks. Most of the foods server here at UCR aren't really too healthy.

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Food Variety \& Selection

Undergrad Off Campus
New menu with more variety that appeals to everyone
It would be nice to have a few other options, like a smoothie bar or self serve salad bar.
Dining Services will attract more customers with the greater variety of food they serve. More ethnic restaurants will in fact attract a more diverse array of people.

It just gets tiring being offered the same foods day after day. It gets to a point when you are sick of eating the same thing.

Explore yogurt! It would be a huge hit on campus as it already is at UCSD.
(I just realized, I probably should've chosen 'Quality' instead of 'Variety', but I'll make it tie in..) UCR seemingly has variety of dining selections with their Japanese food from Honor Roll to Mexican food at Taco Fresco, but in reality, these are just Americanized, 'wannabe' foods. The sushi at Honor Roll is the worst sushi I've ever eaten...the spicy tuna roll is just horrendous...really? you guys really think that tastes good? Spicy tuna can be made easily with tuna, green onion, Japanese mayonnaise, Sriracha Sauce, and a hint of sesame oil...(and please don't put too much mayonnaise)... Next, the Mexican food at Taco Fresco...oh my god I really can't understand how you guys can go wrong with this when you guys have Mexican workers. I'm not asking for the food to be prepared by chefs from 5 star restaurants..I just wanted to make a point that this isn't even fast food...it's unbelievably lower than fast food. I think you guys are trying to provide variety of dining selections on campus..but it's not going the right way...please try harder.

More chain food restaraunts that offer the same quality of food we have now, but with a better taste and price. (In-N-Out)

School makes it hard to keep fit and go to the gym. Also school schedules keep you busy and make it hard to work in extra-scholastic activities. Thusly Fatty, unhealthy foods and limited on campus choices do not help this problem of many students. More healthy choices, along with more variety of ethnic choices I think would be a welcome addition.

You guys used to have a carl's jr truck during lunch hours but not anymore.. So I suggest more fast food varieties (in-n-out, jack in the box, etc).

Self-explanatory, there are not enough popular choices. Panda express seems to be the only place with long lines. I think students would buy more if there were other brand name chains on campus.

More variety by means of appealing to health-conscious patrons: offering fresh smoothie and health drinks in the Commons, built-in salad bar, etc.

Things like Boba Cafe and Berrysweet or Mumbles would be great additions to campus for getting people to buy snacks. As well as Chipotle and In \& Out because those are delicious.

Offer other choices: American French Thai Italian Hawaiian Mediterranean Greek Coffee Cafe
I would order food on-campus more readily if entrees included more add-ons or side dishes, like a salad or chips.

Add beer to Latitude 55.
more selection...such as more ethnic variety
The variety is good but we've all been waiting for the Jamba Juice. Please don't get Juice It Up. The majority of us do not like it and hop on the free way just to get Jamba Juice. Just imagine how much money you guys will make. Besides there's already a Juice It Up at the UV.

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Food Variety \& Selection

Undergrad Off Campus
more selections like rather than have a common sandwich place you can have a subway and a quiznos.

Very few places that provide different selections in food. If there was an American burger place it would improve the Dining Services.

## Undergrad On Campus

More healthy asian food please.
I think that there needs to be more variety at the dinning restaurants.
All too often the food in the resident dining halls is either bland or is of a taste quality I do not care to partake of. ut more effort into creating meals that taste good rather trying to create as many options as possible.
the dinning services can use more variety in the everyday operations, there are too many asian cuisines

More variety in food
We need more resturants on campus with different types of foods. Like a chipotle and In and Out.

Better selections and variety. The food starts repeating.
There should be more variety in the food.
By adding more universal foods. Now its only asian food and mexican food because they are the majority of the population on campus, but there are different ethnicities on campus as well that should be taken into consideration such as African-American food and Indian food.

Changing the menu every day or every week in order to raise appraisal to consumers.
There are too many of similar types of food. I wish that there was a little more variety. Where one thing could be comfort food, and the other thing could be totally exotic.

They can provide more healthy options.
more variety of ethnic foods
You can convince people to buy more stuff if it changes once in a while. If people always see the same food, they become tired of it.

To improve the food variety and selection, there can be more health foods besides the salad bar. Also, the menu's seem the same after two weeks, it kinda recycles the menu.

More name brand or sports/entertinment resturant
More restaurants should be built to offer more options
I believe there needs to be even more differentiation then there is now. Especially if these restaurants allowed for the usage of bear bucks/dining dollars. THe cards are virtually useless with the status quo.

Please add some Middle Eastern food, such as Babaghanoush, Humus, Tabouli, shishkabob, they taste great!!

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Food Variety \& Selection

Undergrad On Campus
There's not much of a variety of things to eat in the Residential Restaurants. Also, I think that most of the restaurants in the commons close WAY too early and should be open for dinner.

It would be nice to have a frozen yogurt or Jamba Juice place. Basically, a place that's good for a light lunch and yet not too expensive. Or, a bagel/coffee shop would be nice... like a Coffee Bean. Most people don't like to eat too much for lunch/breakfast.... that's why they just go to the convenient store.

More variety such as drinks.
Many times all they have is both chicken and pasta prepared different ways. But it gets tiring after a while.

They need to have a wider variety of food items, not just that, but that type of foods. Very often do we have something like burritos or enchiladas, rarely hamburgers or hotdogs or something more versatile.

Dining Services serve the same food in the same week. For example, pasta.
Food variety in the dining halls has progressively gotten better over the past year, my main issue is with the convinience stores; the products favor more towards junk food and I would prefer more healthy snack options.

I would like more options with our drinks being prepared near the HUB, instead of purchasing them in bottles.

Include better food choices instead of nasty food that tastes like those instant meals you get for 10 for $\$ 10$ at the supermarket.

I would like to see more variety at the dining halls. The food tends to repeat itself.
Have more selections for each meal. Sometimes I wish it was self-serve.
There should be many selection where we can use our meal plan for the food.
I wish there were more vegetarian options; vegan options would also be nice! To know that food were organic and local would also be better.

More variety to eat. There are only one mexican, one japanese, one chinese, and one pasta/pizza place in the Hub. More selection brings more people.
more food Variety and selection so I can buy different kinds of food for everyday maybe add new stores on campus

The foods prerared in the residential restaurants are generally of inferior quality when it comes to both taste and nutrition. The foods are full of sodium and grease. There is an apparent need to more healthily prepared vegetables, and REAL meats. The food options on campus, such as in the commons provide better-tasting food, but still are largely unhealthful and greasy.

Don't serve the same item everyday every week.
just more options in the variety of food and how healthy it is

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Food Variety \& Selection

Undergrad On Campus
I like to schedule and routinize my time, so I find myself always easting at the Lothian Restaurant for dinner. That being said, I often find myself eating at Lothian Restaurant even if I don't like the food that they are serving there. Having perhaps some pre-made sandwich type items or something like that would help on those days when they are serving something that I don't like.

Offer more than just the typical fare. Offer some authentic Asian, Mexican, Indian food. And offer another restaurant similar to the Barn.
with the food that is offered in the commons, one gets tired of having a small, limited amount of choices where to eat. There needs to be more available options. In the dorm restaurants, the food is very low in quality. the meat is very chewy all the time and the food lacks flavor. the dorm restaurants remind me of a high school cafeteria and that is not the most appealing.

The selection is good but more can be added to it.
Needs more selection, Kosher and maybe an international display of foods
less oily and more fresh foods
Dining Services could prepare other asian food besides sushi or ramen, and they could improve the way in which the food is prepared so that the food tastes like its supposed to.

Have real vegetarian options besides the meatless chicken, bacon, beef. Many people who don't eat beef is for religous purposes, so offering a 'meatless beef' option is not appealing and it seems like the dining is in a way making fun of the vegetarians.

Having more choices would be better
There should be more variety of foods, especially healthier althernatives.
Off-campus, I can select from a wider range of restaurants that serve different kinds of food. If dining services could offer more variety, I would eat on-campus more often.

MOre chain offerings.
i chose this because it is good to have a variety of choices
It seems to me that in Lothian it is generally the same food on a weekly basis. I would like it if some students could comment on the food after meals and decide which dishes could be repeated and which ones could be changed.

There's only Mexican, Chinese, Japanese and Italian in the Commons and it's always the same thing. I know that the food is good and everything, but why can't we bring it to the dorms? I'd love to have some sushi for dinner at Lothian or some Panda-quality orange chicken. Latitude 55 is awesome!

By serving different things and not just two options.
KFC, EL Pollo Loco, MCDonalds
During a typical week, I feel that I'm eating the same type of food each day. Sure, I have the ability to switch it up everyday, by dining at El Sol on Monday, Latitude 55 on Tuesday, and so forth. But I always find myself eating at the same place such as Latitude 55 and the C-Store ('Bear Necessities'). I'm always cuaght up in long lines and I want to be able to get my food fast. I understand Dining Services has a task to serve over 10,000 people or so in any given day, but I feel variety and better selection will lower the wait.

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Hours of Operation

## Faculty Member

For example, service coffee \& donuts at Taco Fresco during the 10-10:30am option; and extend hours post 3pm.
students and workers in research labs could be more flexible if food were available at more times

I would like more choices in the late afternoon or early evening - so that I can conveniently take a late lunch and work late

Stayed open later in the evening
The only restaurant that is both convenient and appealing to me closes too early (The Barn).
I often need to get something to eat btw 4 and 5:30pm, and fresh finger food that I can eat while commuting would consistently draw me to a campus food place.

Nothing is open when there are later events on campus, such as talks or colloquia. There should be a coffee bar or cafe, as well as some casual dining venues to encourage campus life in the late afternoons and early evenings.

Most things close by 3pm, that's not good enough for a lively campus. Students and profs stay often late till 10pm-11pm.

This is a year round research university with many over 17,000 students. We need more dining establishments open in the evenings and weekends on the Main (Zone 4) part of campus to accomodate faculty and graduate students who are on campus for research purposes at non-teaching hours.

Fine now for my needs, minimal that they are.
Open later in the day.
Available on weekends
Open a little earlier for lunch ie. 10;30
Whether I would actually eat breakfast on campus depends largely on my teaching schedule in any given quarter....however if i want something more than a breakfast burrito i pretty much can't eat it on campus, can I? There's certainly no reason the Barn couldn't have a breakfast menu!

Please add more late night hours
There needs to be extended hours for lunch and dinner.
I wish there were healthier food options available on campus in the late afternoon, i.e., between 4 pm and 7 pm . I teach a late class on some days, and it is difficult to find something healthy to eat for dinner before my class. I am typically only able to find Pizza or Panda Express...both of which aren't the best options for me.

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Hours of Operation

Faculty Member
The campus authorities apparently think that nobody is interested in eating here late or at weekends. Well, if you have that attitude, then nobody will - the place is completely dead in the evenings, Saturdays and Sundays, because there is no provision for food (and no, Panda Express does not qualify as food). Sometimes I work late, or come in at weekends, but I can't go out and grab a coffee or a snack without walking off-site, because there is nothing open. I especially feel sorry for students who live on campus, because at present nobody in administration seems to want to provide anything for them to do on the main site outside of office hours.
there has to be some after-hours dinign on the campus for people who teach and/or work after 5 pm . the campus is running til about 9 pm with evening classes. there should be something open at the hub or in a food stand that provides a safe, easy place in the middle of campus to get a snack or light meal.

I find that often I miss breakfast hours, slightly, or just want something different than the limited choices available. Same for late afternoon lunch.

Many of the options are closed around $3: 30 \mathrm{pm}$ and sometimes I eat lunch that late.
There is nowhere to eat on campus after - what - 4pm? 5pm? Just the Barn one night a week and the line is impossibly long. I would have checked dining environment - the dining environments are all noisy foodcourts. i wish we had something that felt more cafe style, where students could read and drink coffee, where students could study together, and where, for instance, i could hold office hours outside the office. there is nothing like that at UCR.

Most restaurants convenient to me (Barn and HUB) are not open past 3pm. Since I teach during the mid-day, noon through early afternoon, this is often the time when I am free to get something to eat.

There is no place to eat dinner on campus.
There is nothing available after 3.30 !

## Graduate Student

Longer hours, able to accomodate the late night crowd.
8pm on weekdays some dining services on weekends
Weekend hours and later weekday hours, particularly on fridays
It would be nice to have the convenience store on campus be open later on Fridays. I sometimes work late and wish I could grab a quick bite to eat instead of having to call for a pizza.

The hours should be extended later in the evening
I am often on campus very late, and there is a relative lack of places to eat after about 6 at night. I would eat on campus much more often if eating establishments were open later.

You should have more open later for grad students that are on campus a lot longer than undergrads. Right now, only Latitude 55 is open late and my experience with their food thus far has been negative. It seems like they aren't cleaning the grill often enough, their grilled cheese is not a grilled cheese sandwich, and the fries taste funny possibly due to dirty oil.

I would be happy to see longer/extended hours of operation (ex. later than 8:00 and weekends)
Stay open until at least 10 pm every night. Be open on the weekends for reasonable hours. Have a

# Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Hours of Operation 

Graduate Student
decent coffee shop open late
Please have more food options for late night eating. Classes run until 9pm. There should be somewhere on campus to eat at that time.
stay open later.
I finiah my last classes between 6 and 9pm, and panda express seems to be the only food vendor open. having more options available to me would be much better. Also the location is not very convient as I would have to walk about 10 minutes out of my way to eat there. I wouldjust prefer to pick up something from a drive thru rather than walk to panda and wait.

I have late classes and so I need something that I can get at $6 \mathrm{pm}+$
I do not like that several of the locations on campus, such as the Barn, cease service by 3PM. I would like to see these locations extended to 4 or possibly 5 PM

It would be great to have more options after 5 pm.
Longer and more.
Longer hours
When classes run late, it would be nice to have some dinner option available at the HUB area after 8pm.

OPWN Later for after evening classes
Food are offered at any time.

Being a student never ends at 5 pm , and neither should the opening of dining locations. The more time we spend walking back to our apartments and/or to off-campus dining locations the more time we lose studying. If the hours of operation were open even earlier in the morning, say from 8 am to 10 pm , then students would stay in one location longer on campus and pay more attention to their studies without worrying how much time they're going to spend getting their next meal.

Ivan's at Hinderaker could stay open later than 4.
Some of the smaller places to eat close early including the Taco Stand and it is a close place for me to eat if I want to stay on campus for dinner.

I go to commons(HUB) regularly when i am on campus everyday in the evening when i am hungry and go there to have something all $i$ have is that pizza and panda express, what $i$ feel is it would be really great if you can have other food stall as well. Secondly for those who stay on campus late night, what i feel is there should be atleast one dining service that runs for 24 hrs for all of those who stay on campus late nights.

Be open at later hours of the day such as in the evening till 10pm.
Be open on the weekends and later in the evenings for students who are on campus till late in the evening.

Taco Fresco should be open until 6:00 pm for dinner, rather than close at 3:00 pm after lunch.
There is no place where I can find what I want to eat after 7pm on campus. I have two evening classes and need to eat once a week. For dinner, I want to eat something different from lunch or fastfood.

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Hours of Operation

Graduate Student
Having places stay open longer would be a high factor in increasing the amount of coffee or tea I would purchase; my seminars all take place 5-8pm.

There are no options for eating on the weekend! Also, if I have to stay late for a class or a review session, the only (ONLY) food available to me is Panda Express. There are no places open in the evening for a snack or coffee/tea.
make them open later at night.
I have always loved the taco fresco spot, but they only serve breakfast until 10 am and then you can't buy anything until 10:30-not even coffee! This has been a problem for me more than once in the past. Also, it's very annoying that the Barn kicks people out at 7 or so for the Friday Happy Hour. 9 pm would be much better.
i hope the hrs could be longer
be open for longer than 8-3
The hours of operation are grossly inadequate. Classes are still in session through the evening, yet the Commons essentially shuts down at 3 . Ridiculous.

Other than a convenince store a location on Campus that would provde late night hours in particularly for Graduate Students who are here late can help not only build a campus community, but also assists in food options. It should not only be a place to grab something to eat but also a place to congregate to help relieve stress.

Many grad students spend most of their time on campus. This makes eating on campus a challenge on nights and weekends.
coffee specialties/espresso made fresh should be available after 6:30/7am and until 6:30pm per my needs

Around dinner time, most if not all of the choices on campus are closed. Also, nothing is open on weekends.

Being a graduate student, I am often on campus very late. There are no options for late night dining or snacks near the arts building and walking to the open options are inconvenient. It would be great to have a healthy, late night alternative to The Getaway, which is often the only restaurant open on my way home.

Coffee and sandwiches should be available later at more locations on campus - near Hinderaker and the sciences. It would also be nice to be able to get lunch on a Saturday or Sunday.

The only relatively healthy food available in the HUB is Sushi and it is only open until 3pm and usually has a extremely long line out the door. Either expand the hours and workers of Sushi place or open additional healthier options, such as natural/organic foods (NO GREASE, OIL, LARD, ETC.!).

Being open until 8 or 830 would be nice.
More hours of operation
While I don't regularly buy breakfast on campus, I do buy coffee throughout the day. The coffee cart is great, but it needs to be in a permanent location with longer hours (7 am - 6 pm , at least). I am unaware of the hours that most other locations are open in the evenings other than the $C$ store. As

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Hours of Operation

Graduate Student
UCR moves towards being a place where students spend more time, dinner must be offered on campus.

The hours of operation of food services within the Hub are quite limited especially on Fridays. I realize that UCR is a commuter campus but there are still people here on Fridays who would like to be able to eat after 3pm. Even if only a smaller selection of food services were open after 3pm it would be a vast improvement over what's available now.
have variety of fast food available late night, preferebly in areas closer to Sproul/Humanities. There are many late night classes there M-Th.

I would like more extended hours of operation. Many graduate students are on campus at late hours on week days and weekends and most if not all the dining locations are closed. If they were open, I would choose to go there, and not waste time going out of campus to get something to eat.

There should be a place that the science people can go to to get coffee in the afternoons and not have to trek down to the commons. The taco stand closes at 4:00 and most of the time they are out of snacks (donuts and bagels) by 10:00. It would be nice to have a coffee cart like the one by the commons that stays open until 6 pm and is close to boyce and webber halls. You guys would get alot of business.

7 am to 10 pm
Places on campus can be open later in the evening.

When I'm attending an event and want dinner on campus, I'm frustrated that only the HUB pizza and Panda Express are open.

I would probably buy more if the restaurants were open late on the weekends.
We can't buy anything for late nights !!!
Longer hours - open later.
Whenever I have to eat on campus for dinner, it is hugely disappointing that Panda Express is the only option. I frequently feel ill after eating such greasy food. Also, the coffee/snack bar near Hinderaker Hall has very short hours. People in afternoon grad seminars frequently comment on how it would be so great if it were still open till 6 or 7 , so that coffee or tea could be purchased during the break in the middle of class.

Not much offered after 8pm - We are always on campus late and for evening classes. More gourmet coffee (Coffee Bean) and healthy choices. Panda is ok but everyone is tired of it and its heavy.

It seems that most of the better quality food located on the main campus closes for most of the afternoon. Also, Fridays are almost impossible to enjoy on campus dining (happy hour at the Barn is very sparse in good food).

## Other Student type

I want to be able to buy my midnight snacks whenever I wish it. But people shouldn't be required to work too late.
breakfast would be nice in the mornings, but with real food.... such as food that is offered throughout the day. The mexican grill breakfasts are yuck and the workers are rude in the morning.

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Hours of Operation

Other Student type
Some of the foods I would be interested in eating later in the evening, such as sushi, close too early. Because of this, I am more likely to go off campus.

## Staff Member

Open at 7:00, so if we want breakfast we have time before work starts.
Serve breakfast all day, serve food from 9am-6pm.
There is not much choice for a late afternoon lunch. Panda Express is open, but can get tiresome after a while and I think the sandwich place is open, too, but I'm not a fan.

I understand that Dining is open quite frequently, but the times of my classes are really random. I would come back from class at like 10:30AM and breakfast at Logo's is closed. Sometimes, I will be back after 3:30PM so I would go on without lunch for a day. It would be nice to have more hours of operation.

I m think the hours of operation there very good in exelent

## Longer hours and weekend availability

On the East End of campus, Taco Fresco is the only option and only open until 3:30 and closed between 10 and 10:30am. I don't buy snacks there because they are closed on my break times.
longer hours in the evening, most of everything in the HUB (besides Panda) closes at 6 or 7.
Panda is the only thing open later in the day, and Fridays are the worst. Everything is closed early and the campus sommunity is still here.

I work nights and weekends sometimes and the commons seems to not offfer meal choices
Open from 8:am - 10:pm
Extented hours offering more options
I wish there were more on-campus eateries open for dinner and the weekends
A lot of the dinining places, both on-campus and residential restaurants, have more or less the same hours of operation. A lot of the on-campus locations do the typical 10am-5pm schedule, and it is sometimes inconvenient, as well as the residential restaurants that for lunch are open around 11-3pm. While there are very few locations that are open other than those hours, it is not always enough. Also, I think it would by nice and convenient if more dining places were open on the weekends, besides the residential restaurants.

Please have Scotty's open earlier! There are many staff members and students who would love to take advantage of eating there, but it is never open for us. This is one of the most common complaints I hear.

Earlier start works for me. I often purchase coffee and breakfast on my way to work because the operation has not started up yet.

Nothing available in the evenings and weekends - can't even get a cup of coffee on the weekends let alone a snack or meal! There are lots of people who work evenings and weekends - labs run 24/7; staff come in on weekends to catch up on office work. Students study at the library. AND THERE IS NOTHING!
open during spring breaks and summer hours

# Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Hours of Operation 

Staff Member
I WOULD LIKE TO SEE SOME OF THE EATING PLACES OPEN AT 7:00 AM INSTEAD OF 7:30 AM

I arrive at work by 7 but there is no place near the Science Library to get even a cup of coffee that early.

More late night hours.
The hours of operation are not in keeping with other universities and colleges. I teach with a full class load from 4-7pm and sometimes from 7-10pm and there is never anywhere to get good fresh coffee or a snack except off campus after 5pm for me or my students or my fellow researchers.
no comment
The one time where I *might* eat on campus more often is dinner, and the only option on campus is the Barn, which has poor selection and is overpriced. I'd sooner skip dinner than go there (and I often *do* skip dinner).
early am
increase the hours during lunch time
Extend Operating hours.
limited food services offered for students who are on campus in the evening.
Open at 7am
I start work at 7:30 so I would like to be able to buy coffee/tea on my way in - open before 7:30am

I arrive on campus early (6:30) and would love a place near the Science Library (Taco Fresco) to get a cup of coffee!

I would say two things need major improvement... Something MUST be open on Friday night (until 8pm), Saturdays ( $9 \mathrm{am}-3 \mathrm{pm}$ ), and Sundays (3pm-11pm) AND YOU SHOULD HAVE A COFFEE PLACE OPEN 8AM until 11PM DAILY!

Several of the dining services appear to either cut hours or close during intersession, which is most frustrating for full time staff.

Honor Roll - should stay open longer
Fridays nights and weekends could be a good option for the dinning services to be opened, cause I could not find a near place to eat

Extend the time for lunch. Make it later.
It would be nice if the dining services were open at the very least during dining hours. There are time when I would like to meet someone on campus as well but everthing is shut down. I believe that if there were more option for longer periods it would also add to the feeling of community on campus over time.

More weekend hours and more hours for 'to go' meals.

## Question 22: What can Dining Services do or improve to compare more favorably with other food

 options available to you? Hours of Operation
## Staff Member

More options available on weekends. Open the breakfast options earlier

Limited hours outside of the commons make it difficult to get a late lunch (at The Barn) for example. The Commons can be quite crazy at certain times and it's nice to have other options.
as a staff member hours usually begin by 7:30am, it would be nice to have an option beginning at 7:00 with hot cereal choices

Stay open later.
Current very good hours
more
Undergrad Off Campus
it should close @ 11:00 p.m.
No closing down between lunch and dinner
Many of the restaurants in the new HUB are only open till like 3pm. I want to be able to get food at all hours that classes are in session. If I have a night class it's nice to know that I can grab dinner on campus from more than one place. I'm a Theatre major and am on campus very late most nights and even on Saturdays and occasionally on Sundays. It is always a pain when there is nothing open on the weekends or late at night to be able to grab a snack or a meal.

I think that Dining Services as made a huge improvement with Hours of Operation because Latitude 55 is now open until 10. Unfortunately, last night when I wanted to get dinner on campus, that was the only option available. Don't get me wrong, the food there is delicious but I wanted something a bit healthier. I know that Latitude 55 had healthy options but none of them sounded appealing. I think I would be more satisfied if Honor Roll was opened longer so that students can have a more appealing healthy option.
have options for students studying in the library in the evening. Also have places like Taco Fresco open at least an hour longer.

Dining Services for main meals is never open early in the morning, late at night, or even on the weekends. I would definitely eat more on campus if the places were open later. Otherwise, I'm relegated to go to Boba Cafe or Carl's Jr.

Uh, keep places open longer! The only thing open towards dinner time is usually Panda Express and you can only have so much of it before the sight of it makes you gag and want to throw up.

There should be more options, other than Panda Express or the diner to eat at night.
Extend hours of operation of ALL THE DINING CHOICES to include dinner time. I do not want to have to just choose between pizza, Panda Express, or the C-store during dinner time.

Basically, improve the hours similarly to the hours we now have for Latitude 55. I LOVE the hours there and am eating there more often now. If El Sol or La Fiamma had hours past 3:30 or so, I'd eat there more often, but I tend to eat for dinner and they're closed by then.

Open later.
Make at least one placer 24 hours for those late night snack areas.

# Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Hours of Operation 

## Undergrad Off Campus

Have the food place open later than 3 pm because there is really never any other place for me to eat other than panda after 3pm since I do not dorm on campus.

If more locations were open 24hours then I would be more inclined to dine on campus rather than off of campus.

Have the comons C-Store open later. A lot of students and staff stay later than 7 and the C-store has most of what people want to buy after they have a meal, a little snack to keep them awake when studying, doing paper work, grading etc.

Students stay on campus 7am until 10 pm and we always need food. The commons doesn't open until 9 or 10 making it inconvienent to buy food and would be better if the hours were longer

I think it's absolutely absurd how early everything closes. I think there are plenty of people that need to eat after 3pm but the only place you can grab quick food is the convenience store that seems to never be stocked as it is. the hours of operation need to be later there needs to be more available more often period.

I think the hours of operation for Aberdeen-Iverness and Lothian dining halls are incredibly inconvenient. They close at 7:30 which is usually about the time I start thinking about dinner. Too often I have to plan my schedule around when I can go get a meal rather than being able to get food at my convenience.

There are not much selection of restaurants during dinner time, only Panda opens late.
since the majority of the customers are college students, hours of operation should extend to at least midnight if not later.

Stay open later because students eat late.
Dining services should be open later for those students who have classes all day with no breaks until late at night.
it will be more convinient if there was at least 2 places opend to get food. Decrease line time as well as increase meal choices.

Some establishments close pretty early, around 3 and I often times have class through lunch until around 3-4. It would be nice to be able to have more options to eat around those times other than pizza and panda express.

They should have longer hours of operation since college students are always hungry and at odd times during a day. More students are out later at night on campus because there is still class around dinner time until 8pm.

Normally, I only use the C-store because it is available most of the time, and has quick service. Most other places do not have hours that are as convenient.

The Dining Services could extend their hours during the evening time, since sometimes when I have a break between classes, I would like to go the the Commons and get something to eat, without having some of the places close down.
we should have a late night operation because some people have back to back classes, which they would avoid eating in order to get to class.

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Hours of Operation

## Undergrad Off Campus

When everyone closes at 10:00 between the breakfast and lunch hours it is extremely inconvenient. They should close at maybe 10:30 because most classes get out at 10:00
it should be open past 3pm like all the restaraunts not just panda la fiamma and lattitude 55 because all of those arent the best for someone trying to watch what they eat
should open till at least 6pm
Open all hours that classes are in session and a little earlier too.
open later so that those who have finals can still get food
open after 3

A lot of places close too early. All that's left open is Panda Express and I don't always want to eat Chinese food.

Stay open later. Most dining services close by 3:30 and many students have no other choice but at Panda Express.

I dislike how most of the restaurants in the hub are closed for dinner. It would be nice if they were open a little later.

The hours of the dining halls now are ridiculous. I am most often free from 9-10:30, however the residential restaurants are closed from 9:30-11:30. Also, I am often available for lunch on or after 2p, and I am forced to either starve til 4:30, eat at other on campus venues (if i'm free before three - from three to $4: 30$ not a SINGLE THING is easily available to me on campus that's good), or forego a meal. Finally, the dinner hours end entirely too early, and there is NO sit down late night options available. This is absolutely ridiculous. Basically, the amount of hours needs to DOUBLE - I'd forego some of my selection just to have food more accessible during ALL of the hours of the day - if CLASSES are in session, there should be FOOD available - that's from 6:30a-11p. Get it?

To late night during finals weeks
Students cannot go to the commons no later than 3 o'clock as there are only a limited selection of restaurants open.

I want 24 hour dining services for those late night hunger moments.
commons closes too early
Extend the hours of operation at the dining halls. Students sometimes are never able to eat at the dining halls because they have class during hours they are open.

On weekends only two things are open Lothian and Commons Stacked. If i were to stay on campus on the weekend i would like to eat something different that i ususallly dont get thorughout the week.
open later because some student have class and eat lunch late
Open later but for longer hours because most students try to take classes in the afternoon as opposed to classes earlier in the morning. Whenever i go to the commons to get a meal, it is usually about to close and that sometimes discourages me from eating within the commons.

# Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Hours of Operation 

## Undergrad Off Campus

Open for longer hours on Friday. As they are right now, I have had to go dine somewhere else because they close early

Open later for people staying on campus
In the mornings, the commons are never opened when I want them to be open... and to top that off, none of the good food places are open besides El Sol... and the store, which I don't like very much. (I'll never call it by the new name... it shall forever be known as the commons to me and my friends... the new name is stupid... and poor choice being that the students were not given the chance to vote on a name change...).

I think it would be very helpful if dining services could open more of its restaraunts earlier and close later. Lunch hours are generally during class times, but around brunch time (9:30 to 10:30) there are less classes in session and students with early morning classes will have time to eat before their busy day starts. Most of the dining facilities also close quite early in terms of dinner services and I have to go elsewhere if I want to eat in between my evening classes.

Having the sushi place open late would be a great way to compete with panda as it would appeal to those who enjoy asian flavors. It's also lighter and healthier.

A bigger variety of hours so that I can eat when I have a break from classes instead of having to wait until they are open.

I think the restaurants on campus could stay open later and open earlier.
I find that many places close at 4 pm . I think they should be open later.
instead of closing at 3:30 they can stay open till at least 6/
Many students are on campus later in the evening and at night. Vending machine and convenience store foods are the only option and this often informs my decision to spend my evenings studying off campus where more healthful, fresh options are available, despite the convenience of using on campus study resources.

Dining services can try tooen at earlier times and close at later!
When ever I am on campus after 3 it seems like my only option is Panda or cold C-store food. Now that latitue 55 is open there is another option, but its big and crowded in there. There is no where that is open late, with healthy options, where there is a quiet and comfortable environment/ easy to go foods. Especially since the library is open so late- it would be nice to get a good cup of coffee on campus after 7pm.

I just wish the c-store didn't have to close so early, and maybe some restaurants within teh commons, or the HUB, that's my only issue.

A lot of the food choices present on campus close to early for me to get there and buy something after my classes. a larger hours of operations would greately increase the amount of time i buy food on campus.

Opening earlier would be an influence, but that is because I get on campus before 7am.
Longer breakfast and lunch hours. Del Sol is always closed once i get out of class.
The Dining services closes to early.

# Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Hours of Operation 

## Undergrad Off Campus

Have larger ranges of hours of operation. For example, Panda Express is what is open the longest in the Commons, but the food isn't all that great. Logo's should be open for dinner, but it's not. Etc.
open later for students that have evening classes
There are NEVER any places open late when I have to stay on campus for my late classes, because I do commute. And even when I didn't commute last year, I still always wanted to eat super late meals or whenever convenient for me, because I felt like I missed out on eating a lot of the time last year because of the dining halls in the dorms and their hours. It NEVER worked for me and I was mad because I never got to eat, and my money went to waste for my meal plans.

The Hours of operation needs to be more flexible because although lunch hour is around noon, other students like me end or eat around 2-3 and nothing is open.

Stay open later on weekdays!
Allow restaurants to be available later. at the current time, only Panda is open when I walk in at 5 and I dont want Panda every day of the week.

After studying until after typical diner times in the science library, it would be nice to be able to pick up something fresh from a conviently located restaurant.

When I was on campus after dark, there were never any places to eat at.
Dining services should be open later on weekdays, maybe until 8pm instead of 5pm. Also, if they opened earlier, like at 10am instead of 11am, so people won't have to wait for food, and there will be less crowded.
increase hours of operation. Everything closes at 4pm which makes it difficult to have a meal on campus (except for panda express and Lattitude 55)

Keep restaurants opened later, within reason depending on the time of throughout a given quarter. For example, midterms, finals and so on. Of course, it is all within retrospect.
i usually have class all morning and eat in the afternoon, but most places close by 3:30, so i usually dont eat on campus.
have something open as last as the library if people chooses to stay on campus all day to study
I tend to eat late and there are limited outlets open beyond 6 pm .
Many students have late classes and when they come out the commons are already closed so that influenzes people to buy off campus, so maybe if the commons closed later maybe like around 8 or 7:30 that will be good.

The restaurants on campus need to extend hours. In the evening, there are very few choices around campus and I think that more people would stay on campus for dinner if hours were extended later.

My classes often force me to eat a earlier lunch or dinner.
I really wish the places like the HUB were open later. I get out of class at 6:30 and many places are already just down. I think it's ridiculous that classes go until 10 on campus, yet some food places don't stay open past 4pm.

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Hours of Operation

## Undergrad Off Campus

open more later hours
it would be nice to have a place to go to during finals week, maybe 24 hour dining services, if there was a starbucks on campus this would work even better.

Convenient stores and other places should be open later. There should be more stores open later other than the ones that are open only around the housing areas.

Usually the only places to dine after 6pm is the Lat-55, Panda Express, or the C-store (which isn't really open that late anymore). These venues are alright--not above par, however. Panda Express is the best out of these three, but it gets old very quickly. If there was a larger variety of on-campus food joints that would be open later, then I could see myself eating on campus more. However, don't get me wrong, the new COMMONS (the name HUB is really lame) is way better than the old one, but there is still room to improve. I do enjoy the idea of having food service locations in other areas besides the COMMONS. There are many people who have class until very late on campus, and if there is an availability of many selections that were open late, then I could see more customers. And, what ever happened to offering discounts during finals week? That old practice seems to be no longer offered, and I think students would really enjoy seeing that come back.

Excluding Panda Express, the dining hall restaurants in the Student Business Services Building close before 8PM. It would be better if times were extended to 8PM for all restaurants. The convenience store hours are fair.
the last few quarters i have gotten out of class at 10 am and have had anywhere from 1 to 4 hour break which i use to study in the library. most places in the hub dont open until 10:30 which means i have to wait 30 minutes before getting food, to go to the library and study. so, i loose alot of study time to wait .

Stay open later and on weekends
UCR needs a damn night life. Dining services need to invest money into keeping dining options open later. The later the better

As an athlete we tend to be on campus longer then that of an ordinary student. We are here earlier, and stay much later in many cases. So if more than just Panda and Pizza would stay open...I would eat on campus more.
they should be open early in the morning
You should extend the Hours of operation for Sushi because there is always an extensive line and it closes so early at 3.30PM
stay open later
Longer hours of operation as classes start and finish throughout the day but most places are only open for a limited time

The hours of operation for many campus dining are horrible. They close too early, for example, at 5 or 6 . You cannot have dinner on-campus. If you arrive 15 minutes before closing time, they have essentially closed down and are cleaning shop. You might as well advertise the closing time at 4:45 instead of misleading students.

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Hours of Operation

## Undergrad Off Campus

Dining services could extend some of the restaurants hours to acommodate those who still have class late.

Alot of the places in the commons close around 3:00. That is the time when I get out of class and it would be convenient for me to get something to eat.

Eateries close way too early. If you're going to close them all so early, then the C store needs a better selection of food. Breakfast needs to be served later than 10am. The only place on-campus serving it is El Sol, and if you have a class that doesn't get out until 10, you're not getting a hot breakfast. They need to serve until 10:30 at least.
there is nothing available to eat after 5 pm on campus. if places were open, then students could stay on campus longer. also when it is midterms/finals, students stay on campus longer. going off campus to eat and coming back is a waste of time.

Open longer.
In between classes I often run to Ivan's....after 2:30 or so they are pretty much shut down, and if not, they are out of many items. They are my fave morning stop, and have great and healthy smoothies.

The only food place open after 4pm is Panda Express. It is quite expensive and not very healthy overall. I would prefer more dining options that are open later in the day.

It would be better if there were a couple 24 hour dining services along with a 24 hour open commons.

More places to eat open later besides panda express.
The only places open for dinner hours are Panda Express and the Barn. It would be great if there was more options available for those of us who have to stay on campus during the dinner hours.

As a transfer from a state campus, at least $50 \%$ percent of eateries remain open until at least 5 pm or later. Here, only about $25 \%$ are open past 3 pm.

Don't stop serving breakfast at a certain time.
My favorite place to dine, Honor Roll Sushi, is only open from 10:30am to 3:30pm. If it were open later, I would be there later for dinner. Also, it seems as if everything at the HUB closes up considerably early, especially on Fridays. Extending hours of operation in most dining places, and making sure to advertise these time changes around campus would be a great idea.

Hours of operations are truely important because there have been times where I have wanted to buy food and most of the places were closed already.

If there were more of a 'dinner' time.
i understand that longer hours means higher wages. But, there are still students who have class from $7-10 \mathrm{pm}$ everyday. On top of that, students can be lazy and dont want to cook so late at night. There is still potential to cater to these students and it will allow for more student jobs at the commons

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Hours of Operation

## Undergrad Off Campus

Since I like studying in the library till 12 am , I would like to see some dining services that are operational later. I'm sure others would like to see later hours of operation to hang out and eat for a study break. Perferably have closing times around 1 am.

Many times I have late classes nd there is no place to eat on campus so i leave and walk somewhere close.

At the time I am normally eating on campus, the only things remaining open are Panda Express and the sandwich shop at the other end of the Commons, which are therefore crowded. If more restaurants/services remained open later, I would use more of my meal budget in convenient oncampus locations.

It is always close
Open stores later
Longer hours
Stay open until at least seven on weekdays.
Keep some places open later so that there are more than two places to feed hundreds of hungry students.

I think if they were to open at 10 to 6 maybe it would create more time for people to actually eat on campus.

Longer hours
Often I have classes during lunch time and by the time I'm done, most of the restaurants at the Commons are already closed (3:30 PM). Later hours would be much more helpful.

Later hours, especially at the library so there are food options besides the vending machine.

## Undergrad On Campus

I'd like it if dining services were open for longer each day- I am on campus in the evenings several times a week and it would be nice to be able to grab a convenient, healthy meal instead of having to rearrange my meal schedules to fit.

Open later, I went there at 6pm and the only thing open was Panda Express and Pizza, I don't really like either.

When I'm hungry at 10AM and El Sol is closed for breakfast and the other places are closed until at least 10:30 for lunch.

Breakfast is great, however it ends at 9:30am which is far too early for most students I know. If it ended even a bit later, I believe that many more people would go frequently.
most of the common closes early. too early. especially on fridays
make breakfast hours til like 1030! love breakfast but can't wake up sometimes
I know the campus is deserted on weekends, but extended weekend hours for more than one restaurant.

I like that there are still is still food available from the HUB after 3:30, but when students get out of class later...5...6...7...and want to grab dinner, they choose between Panda Express, Pizza and the CStore. I would like to have more options for dinner.

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Hours of Operation

Undergrad On Campus
I want to be able to eat lunch later as I sometimes have class for most of lunch period, giving me about half an hour to eat or lunch period ends.

I believe that lunch and breakfast should have the hours extended at least 30 minutes longer. Dinner doesn't have to start so early.
be open longer
A-I should be open later or should offer an late night dining option.
Have lothian do actual breakfast.
i don't eat dinner on campus because i tend to eat dinner late and the commons is closed or closing at that time. however, if the commons and it's dining services were available, i would consider eating dinner on campus before going back to my apartment.

Open 24/7.
I would like to get dinner more often, but many of the eateries are closed at three and I get out of class at five.

Stay open late at night -- I have a class that gets out at 9 pm . Or if there are locations open at this time, advertise them more, because I am unaware of them.

Making the Commons' restaurants open on weekends.
have the c store and commons open later
Have the hours later on. People do have night classes.
Closing @ 8:30PM for Lothian and 7:30PM for A\&I is inconvenient for students with late night classes. Both residential dining halls should close at a later time, such as 9 or 9:30PM.

A typical student stays up longer during the week and their should be convienent places to grab a healthy snack.

I feel like the hours of operation don't fit my schedule, it closes to early.
Dinning halls such as AI needs to stay open later for dinner because sometimes i have late classes and Lothian would be over crowded.

Breakfast should be served until 10am.
Having a on campus(not including housing) dining facility for breakfast in the morning would help especially if it is in the commons and operates around 6:30 am -10:00 am.

More hours!!!! Sometimes i cant make it for a meal
later hours
It would be nice if some places were open as long as the others because the ones that are open are not always as appealing.
more hours
For lunch, they should open at ten and stay open until four or later since most don't ofeer dinner.
Open later so that students who play intermerial sports can come eat after their games. I personally play intermerial sports twice a week and both of my games end later than the lothian restaurant is

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Hours of Operation

Undergrad On Campus
open and I can't eat before because i have classes
should be open until 11 p.m.
I don't like how Lothian had more convenient hours of operation for me. Walking all the way to Lothian is inconvenient.

Increase hours, simple as that a convenience store and a buffet are two different things.
extend hours of operations for most places until after 8pm. And,for example,allowing meals like breakfast to be served all day long
change AI and Lothian hours
Make some late night options. Consider keeping somewhere open on campus till 2 a.m.
Make some of the more popular resturants open later, because student have class until like 9pm on campus but they have nothing to eat after
keep it open until 9 pm
The commons closes early and I usually have class later because I work. Sometimes I would want to buy something on campus but everything is closed, except for Panda Express (which is disgusting)

I often find that dining services is not open when I would like to go get a meal.

This quarter I have found it a bit hard to find places open after classes. One of my classes ends at 10am, conveniently located near the HUB. But since a lot of the stores, aside from Panda Express close at 10, I have to either wait for the dinning halls to open, or Spinellis/Logo's. Which don't open until 1030am or 1130am, which conflicts with my class schedule. Also, when I am at my friends student apartment, I noticed the closest food place is the Sub Station. Most of the restaurants close when I'm barely out of class. For instance I have noticed no dining hall or c store is open around the hours of $2-5 \mathrm{pm}$. Only the c store on campus is, which is sometimes a hassle since I live at the dorms. I think that some stores near the dorms should be open when none of the dorms dining halls are serving food. In addition, I think that more stores should be added near Falkirk, Summer Ridge, Stonehaven, etc. to help the students there have easier access to food.

There needs to be more options open on the weekends expanded hours in dining halls, especially serving breakfast and dinner later in the day
Make them open more often, especially on the weekends
They should open them a little later, for if people don't have time to make it, they can have a chance to eat.
have hub places close an hour latter like 430
Open later.
Residential restaurants close too early on weekends.

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Hours of Operation

## Undergrad On Campus

I miss meals frequently because of conflicting classes and dining schedules, if the hours of operation were extended an hour or so later then it would be much more convenient. Late night dining would also be very appreciated because I often eat dinner early or miss it altogether and find myself starving around 9:00pm.

There are no options to eat a decent meal on campus after 8:30PM. As college students, we have a reputation of staying up into odd hours of the night. If Dining services had a skeleton crew operating part of a kitchen (ie. Spinelli's or Logo's) maybe until 4-5AM, I think that would be of best convenience to the students.

Always have a place to eat no matter what time it is so students can get full. :]
Sometimes we have later classes and the cafe is closed way too early.
if they had a store open 24 hours
For Students that have late classes-extend dining hall hours or start then later.
my labs dont end till 9 or 10pm so it would be better if they were to open later so i can still get food without having to go out

Be open later at night
for someone like myself who has a meal plan, the dining hall hours are not at all convenient. i would like to see longer, more flexible hours.

Keep dinner hours until 9:30pm or 10:00pm.

Please allow AI to be open until 8:30pm or extend Lothian's hours to $9 \mathrm{pm} .90 \%$ of the time I miss dinner because of class.
i feel that dinner should close later
I want to have the hours of operation longer. I do not just want to have a meal before 3:30 p.m.. I am on campus and do not want to have the brand name food since it is the only restaurant open. Longer hours would favor the whole campus as students are on campus all day long and a majority do eat after 3:30 p.m. and would like the same choices students who eat at 12:00 p.m.
i wish breakfast started a little later and went a little longer, as well with dinner, it should run till around 9.

Prepare to be open all day so people can get food whenever it's convenient for them.
There should be dining services that are available 24/7 in order to accommodate every one. Dinner in the res halls should be served until 10pm at least.

More hours available to students. I always have class during lunch-time and would like to use my meal plan and not have to waste dining dollars or use cash/card. Even an hour extension for lunch and dinner would make a huge difference.

If places were open late, then I would be able to get food while I study late at night.
Having late classes does not allow me to get dinner sometimes late at night. The hours should be extended by at least half an hour.

Extend hours to all day 7 am -> 11 pm

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Hours of Operation

## Undergrad On Campus

have them open at different times, schedules at times get in the way.
Most restaurants close at $3: 30$, making it nearly impossible to get a decent dinner on campus. On Fridays, these hours are restricted even further, and on weekends there is only one option if a student wishes to eat on campus. Considering the large number of students living in the dorm, it would be nice if those students could get food in the hours that commuters are not on campus.
longer hours so that i have time to get my food
It's hard to plan your day around meal periods, but if there were something available similar to the Cstore during the day, and on weekends, it would make it a little better.

AI closes too early and I am left with only Spinelli's for lunch if I want to use my meal plan
longer business hours
The lunch hours at A\&I are slightly slim and it would be helpful for them to be extended.
Dining Services can improve the hours of operations by extending the hours of the dinning halls. A\&i closes at 7:30pm and Lothian at 8:30. Some students have late classes and do not have the chance to eat a full dinner. The only option they have is to purchase chips and sodas at Scottys/Glen more. That type of snack is not healthy to eat at 11:00 pm. The hours of operation should be extended in order for everyone to eat a full plate of dinner.

I think that a residential hall should be open longer for dinner because it is hard a lot of the time to get dinner before seven thirty and opening at four thirty I think is generally too early because then one is hungry again before going to sleep.

Breakfast should last until later and there should be a late night on campus restaurant open other than Scottys

I think Lothian, A\&I, and The Commons restaurants should be open later into the night because many times when my friends and I are still on campus, for example, and want to get pizza from La Fiamma or something from the C-store, we can't because they are closed by $8: 30$. Also, for the resraunts, many times my friends and I don't get hungry until 8:00 or later because that is the time we eat at home. As a result, we often aren't able to eat at the res-raunts because by the time we get hungry, they are closed. And when there is a Lothian/A\&I BBQ, for example, it usually closes at 7:30 and some people don't get out of class until later than 7:30 or later so they are forced to eat somewhere else. For BBQs I think hours of operation should be until 8:30 to give the maximum amount of people opportunity to eat.

More hours !
The commons should be open earlier... 8:00 AM.
lunch is only served for a limited time and i don't like that.
If the dinner and breakfast times were extended just by 30 minutes I would be able to get breakfast and lunch some of the times but I miss it just barely, I can make it to Logos for breakfast but it starts to get old, so it would be nice if AI hours were extended.

More hours so students can eat without missing breakfast, lunch, or dinner during class hours.
Breakfast served from 7:15-10:30
It would help me if they opened sooner and closed later.

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Hours of Operation

Undergrad On Campus
Later hours at least 4 pm for the barn and 6 pm for the HUB
Breakfast ends at 9:30, people usually get out of classes after that and want to eat breakdfast but its not open.
i tend to have classes later in the day and the restaurants ilike to eat at in the commons are the ones that close early (around 3:30) and i am left to find something to eat at the C store.

I think that every dining option should be open later. There have been many times when I would have gone to eat at the dining halls if only they were available when I am actually hungry. I definitely think the dinner times should be extended until at least 10pm.

Hours should be extended longer to accomodate students with nightly classes.
if commons opens till late
The hours should be longer. Rather than closing at 3 30, they should close at 5 when most people have gotten out of class.

The restaurants on campus and in the housing structures could have later closing hours so that students can eat around their schedule of classes.

I usually do not like the food that is offered for dinner at the residential halls so it would be nice if the restaurants in the Hub were open longer hours. Also i feel that breakfast should be open longer then 9:30!

Restaurant hours completely clash with my class schedule.
lothian and AI's dining hours are ridiculous. That dinner is stopped being served at $8: 30 \mathrm{pm}$ isolates a huge section of students who eat later on and are also unable to leave campus easily. Also why doesn't Lothian open for breakfast? the grab and go breakfast offered at logos leaves lothian students in the cold, and strict AI dining hours make it hard to get a meal at all. Why on earth would breakfast at AI close at 9:30 am, when most students are just getting up and ready to eat breakfast? I can understand if AI opened at say, 7:30 am , and closed at 11:30 for to get ready for lunch, but 9:30?? Also having dinner served latest at $8: 30$ is just ridiculous, there needs to be late night dining of some type besides the C stores. In addition, this school caters too much to commuter students. Why should the C store close early on Friday night, and not be open on Saturday at all, the day when most students who stay here need it the most.Food should be open all day as long as possible, with more shifts of employees if necessary. College business hours shouldn't function like places in the real world. Food, libraries, and especially copy and fax centers should be open almost 24 hours.

The time when people eat shouldn't be restricted to hours of operation because that means there would be people who will not be satisfied depending on lifestyle.

Longer hours
the locations in the residence halls have very limited hours. a larger lunch hour in particular would be nice.
later at night!!!
I frequently eat late (after 8pm).
Please do not close the good restaurants at 6pm. Some of us spend all day and night on campus and need a convenient place to eat dinner after late classes.

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Hours of Operation

Undergrad On Campus
i think it will be better if a\&i or lothian could extend their hours of operation because some students get out of class late

The Dining Services should better accomodate students who can't make it back for dinner by before 7:30.

Open HUB earlier and have more breakfast options
Be open on the weekends and later than 8PM
In the evening, A-I closes at $7: 30 \mathrm{pm}$ and Lothian closes at 8:30 and after that, there is no place to get a meal of quality food using the meal plans. Often I have classes that completely take up the 5-8:30 window of opportunity for dinner and as such I am forced to make do with inferior quality food, such as the stuff available at the Convenience stores.

Longer lunch hours.
A-I dining hours should expand by one hour. I often find that classes would prevent me from eating since there are time slots where A-I is closed. I would then be forced to spend money in the commons for food.
open earlier and close later. alot of college students get hungry late at night and nothing is every open.

Expand the hours of operation to span the work day for those who are on campus later than current hours.

Simply by extending the hours would make a huge difference.
The hours of operation are not as fitting to those who have later classes and would like to eat something other than only Panda Express and Pizza. To have more restaurants open during later hours might help keep the students on campus more and study better.

Open during holidays and weekends at fewer hours.
Other UC's such as UC Santa Cruz has a dining hall that closes at midnight every other night. I found that to be very convienent as I am always forced to eat frozen dinner meals and cups of noodles late night because there is nothing else to eat.

Have the Bear's Den open more often, especially on weekends.
I believe that one dining hall could be open from the hours of 4-8 and the other can be open from 8-11 because everyone should have an opportunity to eat even if they have late classes.

Well it is unreasonable for students to go wake up at a specific time frame in order eat lunch or break feast. At other campus i have visit, their dining hall offer a 23/7 hrs. while ours just simply close and reopen at another time.

I often have to modify my scedule so that I could even eat. Keeping breakfast and dinner open longer are my biggest concerns.

Late-night places open on weekends would be nice for those living on campus
I think that AI needs to extend their hours of operation for all three meals of the day.
longer hours for late night food

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Hours of Operation

Undergrad On Campus
Hours of Operation are good, but sometimes have back to back classes or crunched schedule.
lunch hours are always during class hours.. lunch is not between 1130 to 2 it should be 12-330 and dinner should not be served at 430

If there were places that were open late at night(around midnight) instead of just the convenience stores, I would go and get food from there. The only thing that is open is the convenience store, which doesn't necessarily offer the best hot foods that I'm looking for

There is very little choice for meals after the 3 o'clock hour. I typically have a class in the evening or work until the evening and it is nice to have something besides Panda available.

Hours later at night would be an improvement. During finals week this would be very helpful.
More available hours.
open the convenient stores on saturdays.
Dining hall hours are short and not particularly convenient. My lifestyle had to change dramatically because the dining hall is not open when I would like to eat. Even the survey shows how out-of-theloop dining is. The survey considers anything past 7:30pm late night; this is just plain wrong. Assume that dinner is the last meal of the day, and that ideally we should sleep two hours after our last meal. This means that we would all be sleeping at 10 pm . Not very likely for 17,000 college students. l Also, the 'convenience' stores are not convenient for many people as the LATEST any of them are open for is 1 am . College students are up way past 1am. Also, there ought to be a c-store near the campus apartments.

Sometimes early in the morning on weekends, I wake up early but is unable to eat because Lothian opens at 11. And for dinner time, they close semi-early...and I have late classes.

I think that the hours should be set for a later time.
the hours are hard to comply with because i work full time and go to school full time many nights i go without a meal simply because the dining hall is closed

Sometimes the services end early for me. Sometimes there are late bed-risers that cannot make the time. On weekends, the services close earlier than usual.

Make more hours available for students who may have a full day of classes with no time to go to Dining halls.

Classes go up until 10PM and most of the dining services are closed at 4PM. That is too early for people who are on campus during dinner time that need something to eat other than snacks from the C-Store.

It is hard to schedule a time to eat when you have scheduled classes, workouts, practices, and work already planned. Therefore, I think dining services would better benefit if the hours of operation were more flexible. Also, breakfast burritos should be served all day.
extended hours of operation because for those of use who work and go to school, we are unable to make it to a dining place on time. Also, it would be great to have locations opened on weekends for students who live in resident halls.

AI should make dinner hours longer. Closing at 7:30 is too early and conflicts with class schedule.

Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Hours of Operation

Undergrad On Campus
I am almost never able to get breakfast because they stop serving it at 9:30. I think they should extend their hours. Also two night a week, I have to eat dinner at 5:00 PM because I have night classes. I think dinner should be served until 9:00 PM.

The hours for dinner should be extended later so that those with classes later in the evening are still able to eat the dinner served in the residence halls as opposed to buying fast food to sate their hunger.

On the weekends, brunch opens at 11:30, yet I am an -early-riser and would like it to be opened earlier. Furthermore, the convience store in Lothian opens at 8:00 pm (and is not opened on Saturday), which is too late. There is not many options for meals on the weekends on campus.

Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Meal Plans

Undergrad On Campus
More dining dollars
If residents in the Residence Halls were allowed to use their meal plan on campus (i.e. La Fiamma, El Sol, etc.) I think residents would be more satisfied with their meal plan. A lot of on campus restaurants already offer a combo meal, which is usually equal to the price of lunch at Aberdeen Inverness Residential Restaurant, or LoGos.

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? More Convenient Dining Locations

Faculty Member
more food and dining choices near HMSS buildings
The salad bar is good but is very inconveniently located in the store which often has extremely long lines.

Faculty need more lunch and snack opportunities. there is no where to eat on campus. It's very frustrating. the Barn takes way too long and isn't that good. the commons is awful food, too crowded and takes too long. alumni center is too far and takes too long. need more options. need quicker options. need healthier options. need options on the AGSM side of campus.

A coffee cart near Entomology would be a great benefit and I suspect would get significant use. Might do a trial run with a mobile unit.

I just don't tend to go to places like the food court, where everything is all crammed together- I'd rather eat in a location with a single food service.

At the current time everyone runs to a central location for lunch. This makes for long lines and a very noisy environment. I can't take that much time for lunch (waiting in lines) and I would like to eat with friends (and can't because it is too noisy.) If there were more, small locations the lines would be shorter and it would be less noisy.

There are virtually no services at the south end of campus where the Science faculty reside. We need a coffee service (not just a machine). The Mexican Grill is great but more diversity is needed. We just do not have the time to walk all the way across campus to deal with the floods of students.

We urgently need a food and coffee stand in the south precinct of the campus located in the entomology/genomics area to service all buildings in this area. Walking to commons or the Barn, with the resulting wait for service, can make the entire trip 30 to 45 minutes in duration, and even 20 minutes for just a coffee. A large number of faculty, staff and students are located in the south precinct and there is no service here at all. Indeed it is quicker to drive the Canyon Crest Town Center if one wants lunch between noon and 1:20 pm.

The Commons is very crowded and the lines are long.
The biggest impediment to me purchasing food on campus is the time I'd lose in going out to find/ get some food. There are some decent choices on campus (the mexican kiosk), but I do avoid the new commons. I tried to figure out what was offered, see if anything seemed interesting/ worthwhile but was a bit turned off. If something was close, had good but inexpensive food, and was just easy, it would be much more appealing.

Better options...see below.
The Barn menu gets stale after a few visits; it should change more often. You should RAISE prices to chase students away and make service faster, less crowded.
ok
There is really nothing good over on the science side of campus - just a taco stand - we need a
Starbux equivalent - even a cart would be good - and it can't close at 5 , and it has to be open
Saturday.
Just so the lines don't get so long. I don't know if this is practical...
There is nothing south and east of Ecalyptus and Citrus Drive.

## Question 22: What can Dining Services do or improve to compare more favorably with other food

 options available to you? More Convenient Dining LocationsFaculty Member
Nothing in south campus (Psychology Building/Olmsted) area yet its heavily populated -- not even coffee! At very least a coffee stand (like Hinderaker's) needs to be established over here

Well everything us pretty much in the commons so open some locations elsewhere doh
We desparately need a quality location close to Anderson Hall. MBA programs must be able to provide food service at night, that is not fast food but has reasonably fast service and good seating.

Lines for the food in the Commons area are too long at lunchtime, and it's pretty far to walk, so I never go there. When I buy lunch, it's at the Taco place near Boyce Hall for convenient location, but I'm not that crazy about Mexican food; I'd rather have more options, like salads and sandwiches and Asian food in the Boyce Webber area. Another suggestion: seating area outside taco place might be more pleasant in hot weather if it were possible to mount 'ceiling' fans under the shade cover, which does seem to have lights so must be wired for electricity, or else to set up floor-standing fans at side (which could be moved inside for security when taco place isn't open.)

If dining services had a location in HMNSS I might actually use it.
need lots of little sweet cafes to which we could all become attached, as 'fans.' the campus needs character and needs to exploit a sense of 'place'

The Barn is very slow during lunch - there should be better lunch options around the Humanities Building. Ivan's has limited options but is better than nothing. It would be wonderful to have them expand their food options and to have an indoor seating area.

I cannot leave my office in Psychology, make a purchase, and get back to my office, in under 20 minutes. Dining services could not be more inconvenient.

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? More Convenient Dining Locations

Graduate Student
The commons are currently way too crowded. More dining locations around campus would hopefully alleviate some of the overcrowding and reduce wait times for food.
more dinning locations should be there. It generally is far to walk from one part of campus to the HUB.

Offer more locations - increase variety of food choices
I work in the Entomology department, and it is quite a distance to any dining location. It would be nice to set up a new facility near our location.

If there could be just one more place to eat for graduate students on the east part of campus, that would be great. Even if the taco stand could sell pre-made sandwiches from the Sub place on campus.

The lines are always very long to get food in the HUB, if I could get food quickly I would be more likely to go there instead of bringing food from home. I am a busy grad student and don't have time to stand in lines.

I would like something near Bannockburn which is also open over the weekends.
The only places to get food on campus are either at the commons or the Barn, and both places get EXTREMELY crowded during meal times that I'd rather bring my own meals to avoid the chaos. So, if there were more places to get food, and there were spread throughout campus better (like some food places near the SOUTH end of campus), I'd be more likely to buy food, rather than bring it daily.

I would like to see a Taco Bell or recognized hamburger chain.
I would like to have some food closer to Olmsted Hall or the Psychology Building. The closest food now is in the Commons, but it generally takes a lot of time for me to get food there because of the lines, crowds, and limited selection of food (therefore, I tend to eat snacks during the day and then go off-campus for a large dinner).

Areas can be crowded, leaving little place to sit down and eat with multiple people. This influences me not to sit and eat on campus.

I think there should be more food choices near the Chemical sciences side of campus
I really feel that if you had another coffee stand closer to the science end of campus (your 'zones 3 and $4^{4}$ ) you would make a great deal of money--as it is we need to walk all the way out to the center of campus to visit the coffee caravan (is that ever even going to be a permanent stand?).

During peak hours, I often cannot dine on campus because the lines are too long.
Closer to anderson hall or that side of campus
Even though there are carts around campus that offer a variety, they usually only take cash only. This keeps me from being able to buy different meals on campus

I work in a lab in EBU-2. There's no food services around the building. For example, a healthy sandwich station would be perfect.

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? More Convenient Dining Locations

Graduate Student
There are, on one hand, limited locations where freshly made food can be found on campus. On the other hand, the lines of people waiting to get food in the Commons or the Taco cart are often very long during the lunch hours. By increasing the number of dining locations and options, I think this problem, in part, might be addressed.

Sometimes when I'm in a hurry and don't have time to get to a part of campus that has 'to go' items for sale, I find myself frustrated.

Commons can be too crowded at times.
As for graduate students who have to stay in labs for most of the time, there should be more convenient dining locations nearby.

Other Student type
I'm in Olmsted/Psychology building area and the nearest coffee place is pretty far, I'd buy coffee/pastries more often if it were close.

## Staff Member

People with mobility issues cannot always get to the current locations easily and within time constraints. It is simpler to drive to a restaurant off campus where one can park, get in and out in a timely manner and not have to wait in line for an extreme amount of time.

The Taco Stand is great near Batchelor Hall, but it would be nice to have another place to get fresh juices, fruits, veggies. Maybe another eatery venue where healthier items can be purchased such as a fruit stand you find at the corner of an urban city and maybe even purchase our veggies for dinner!

Other types of foods near Parking Lot 13
There are currently no locations on our side of campus. The Commons is rather far and we'd be more apt to stay on campus if there was a larger variety of food options (Taco Bell, Juice it Up, etc) and closer to our building.

I am a staff person in Highlander Hall so I don't have time to get onto campus and back for lunch.

Nothing available at south/southeast end of campus. Closest is taco stand which is delicious but not very healthy and certainly limited in range.

Engineering 2 is devoid of options. No coffee close by. No dining.
The coffee situation is still a mess. There should be an Expresso machine in Taco Fresco.
Furthermore, Taco Fresco should stay open over the summer.
Add In \& Out Hambergers
We have the Gyro cart in front of the HMNSS building, but they only take cash. I don't carry cash. The Gyro's are made with lunch meat, I will just walk over to Ivan's for a sandwich if I'm going to have lunch meat.
more places in zone 4 ... would provide a less crowded area.
More locations around campus. The Commons is always jammed with students, etc. during lunch and takes so long to get served. Having more venues around campus would help this.

# Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? More Convenient Dining Locations 

Staff Member
Although the HUB is not terribly far to walk, it can take time from a lunch hour to walk there, wait in line (it's very busy at lunchtime), eat and walk back. A couple of 'satellite' dining spots, which I know could not carry all food choices, would be convenient.

Spread out dining location across campus. Add locations at University Village and UNEX.
I'm in Spieth Hall, and I usually take lunch in my office. The Commons are so crowded that it simply takes too much time for me to get lunch there, so I usually prepare lunch and bring it here.

Areas around the Commons are often overcrowded and can be quite slow during busy times. If more coffee/pastry places were available throughout the campus perhaps staff members would be more likely to use them.

While the number of eating places has grown, it is near impossible to get because of their close proximity. It would be better if there were other dining locations spread throughout UCR's massive land space.

Dining is great for those that work in the core, but for those of us over at Bannockburn there are no UCR options, cant even get a cup of coffee out here.

Staff need more opportunities for a quiet lunch for discussing business issues. Close, quick, space to sit down and have a conversation.
more options within walking distance.
Need more ATM machines. For the portable carts I do not have ability to buy unless you have cash.
locations should be spread out in sections of campus that don't already have dining facilities so students having class or staff/faculty working away from the HUB can access them

For an expanding campus there is only one area with a variety of food types or convenience store. Consequently the one area is very crowded all the time.

There are always really long lines at lunch time. I only have a 30 minute lunch and it is difficult to get food and eat it in such a short period of time. I wish there was another convienience store on campus, because the one at the commons is way too crowded at meal times. Also I love sushi but it often takes too long to get it at the Honor Roll, and the pre-made stuff just isn't as good.

I work in the Science Library and I don't find it at all convenient to have to walk to the Commens for lunch.

More facilities in the perimeter of campus, instead of in the middle. Especially near Bannockburn.

I work on the exterior of the campus. Hard to access commons. No ffod available. Used to go to barn, now too many students there, lines to long, spend all of my time in line. Raise prises. Create staff dining options. Aroyo Vista to high end for every day. I want a good fresh meal without waiting in a disneyland line. Like the barn was three years ago.

Since my lunch break is only and hour long it would be nice to have an eatery station close to my location where I could get a lunch in less than 15 minutes.

# Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? More Convenient Dining Locations 

Staff Member Add a Convenient Store at Bannockburn Village
It takes to long to walk to dining locations and walk back to my office.
I think if the dining locations where spread out throughout the campus a little more it would make it more convenient for everyone. Not one place would be so inpacted. If there were more student stores locaited on campus the one we have would not be so packed all the time, which discourages me from getting anything, because I dont want to wait in a line that is wraped around the entire store.

Locations are too far away from Andershon Hall
more locations would make it easier to walk to in the limited amount of time available for lunch.
most of the days I don't have too much time to spend on getting/eating my lunch so location is very important.

I work in University Village, it takes too long to get to campus for a one hour lunch.

We are located on the outer perimter of campus and do not have many options for dining. More options would be preferable

The one exception to 'more convenient is Arroyo Vista - when I really want to celebrate or get away for a quiet and elegant lunch I love eating here.
more locations
It would be so helpful if there were faciities available very close to AGSM. Everything is down the hill or not close enough to walk to without using at least 15 minutes of your lunch hour for travel to the location(s).

For those of us located on the Southeast end of campus (Zone 3 and edge of 4) we only have the Taco Fresco available which usually has a long line and limited seating (and is only outside), using up valuable time during the lunch hour.

We need locations at the south end of campus
Close to Computing and Communications
As indicated I am staff working at University Village (UV).Many students have class over here. It might benefit students to have a facility at UV where they are able to use Dining dollars.

There is a decent variety now, but more variety is always good. I would like to see Indian food as an option, but don't know of a good quick serve option. The locations are good from my perspective. I walk to work and feel that I am able to get where I want and eat in a reasonable amount of time.

There are no food services anywhere near campus drive south -- i usuallywind up skipping meals of it i get intomy car, drive off campus

Pentland is the residence hall with the least available dining options. A dining area, with more service stations would be more convenient.

Campus population has outgrown the capacity of the food court.
Provide Delivery Service
Inconvenient to get to current food locations (I'm in College Building North).

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? More Convenient Dining Locations

## Staff Member

There are no food locations near the Ints Bldg. Help us out so we not have to go wait in line at the commons.

More locations on campus with more choices that make it a destination because you know that during cold weather for instance there will be hot soup and artisian breads or fresh salads on hotter days.

Close to Computing and Communications `
Zone4--esp. further to the end of campus--there are no options by the sciences-Batchellor Hall, UOB, Entomology, etc.

More options available in the southern region of campus besides the barn.
It would make it easier for me to eat on campus if they were a little closer. I wouldn't have to rush to eat lunch.

Additional eating hubs. Campus has grown but dining services has not grown proportionately. Should be dining hubs near Science Library and near School of Business- with Starbuck-type coffee kiosks.

Although the idea of having all dining options centralized in one place; it is not always convenient for staff to take advantage of eating on campus. Like other UC campuses there should be dining options in more areas of campus, especially if there are numerous staff and high student traffic in those areas.
more south campus locations
My office location is Bannockburn. If there was an on-campus option here, I would certainly utilize it. The Sub Station is good, however, too expensive.

There is nothing on the theater side of the bell tower for food selection.
Currently, if you want to buy food from Dining Services, the locations are currently on campus central to Commons or split amongst the Residence Hall Restaurants. It would be nice to add locations close to other locations where staff and students reside whether it is working or living. Bannockburn would be a prime location. The SubStation seems to be doing good business wise.

The facilty at STAT/COMP should be expanded and offer a larger menu. I would prefer fresh made sanwiches, soups. There probably is space over by Olmstead Hall that could also be added. The HUB is just too crowed.

I am off the main campus, access is an issue.
More Dining locations by the Police Dept, Housing and/or Bannockburn.
Use Space in University Village (The empty bookstore for instance) to install a Dining Service restaurant outpost for students and staff.

Serve food all through the year around the campus.
more locations on the east side of campus need to be added in addition to taco fresco
I work in HR and am relatively far away from campus dining sites. A local option that serves ethnic foods would be nice.

To have more variety of food items on campus, especially at Ivan's.

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? More Convenient Dining Locations

## Staff Member

I work in Highlander Hall, so right now University Extension is the only university-operated place close to me.

It would be nice to have a coffee station located next to the Science Library. Only one eating place in close to the Science Library, it would be nice to have more.

Closer to Bourns -- I hear we are getting our own food service.
Have another location or expand the existing one near the Science Library and keep it open during breaks so staff can use it.

If the dining choices were closer to where I work I'd probably utilize the facility more often
The HUB is too crowded for a nice 'quiet' lunch break and the carts have long waiting lines and limited access. More 'cart' type locations where there is some seating would be nice.

I work in C\&C. It takes me longer to walk to the Commons \& back (since there's no parking close by) than it does to drive to Canyon Crest or the UV and drive back.

More carts like the hot dog cart - where is it? - it seems to keep moving around. What about fruit or salads on a cart? what about a coffee and pastry cart in the mornings

Wish there were more than just hot dogs out here near Bourns
I am in Bannockburn and the off-campus options are closer; the one nearby Dining Services option is high-end that I don't choose to 'afford' more than occasionally.

I am at a location that only offers fast food across the street, and Sodexo next door, which I am not crazy about. If Dining Services offered more choices for us on this side of the freeway, I would be very happy.

I work off to the side of the campus - just physically walking to the Hub for breakfast or lunch takes 30 minutes and then when I get there the wait to receive/pay for food can take another 15-20 minutes. There goes my lunch hour and I haven't even eaten anything yet. I'm thin enough already - missing meals is not good for me.

The commons is a long way to walk when you have limited time. It would be nice to have something closer.

I love espresso coffee's and since the switch to Java City. I will not purchase on-campus because it is aweful. We need another coffee option on campus.
soemthing in univresity village
Most of the time, my reason for not selecting on-campus dining options at lunch are due to the length of time I would have to spend waiting in line in order to obtain food. I think additional dining locations would help to alleviate this issue.

We just need more/better options!
Lines are usually too long during lunch times.
The HUB only offers a small amount of food in my opinion and as a staff member I wouldn't go to a dorm toe at.

# Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? More Convenient Dining Locations 

Staff Member
There is only ONE vendor near Parking Lot 13. Not much choice in food. And it takes too long to walk to the Commons, wait in long lines, and then bring it back to the office. I'd just as soon go off campus.

Need to to more organized with food ordering and delivery. Do away with the school tours using space and time in dining area.

Provide more areas off campus but near enough to walk
The campus population has grown tremendously over the years and Dining Services has not grown to keep up with the increased population. There needs to be more dining locations simply to keep up.

Need more dining locations in the east area. Taco Fresco is visited quite often.

Even though The Hub has a variety of Venues to choose from, dining employees cannot eat from two of them, and Latitude 55 is always too crowded to get a meal from in a timely manner. So to add more dining options for employees would be great.

It would be nice to have more nicer sit down places to eat like the Barn.
In the Bourns area
We need more food options on the East side of campus
The only option for those of us near the Science Library is the Taco stand. The food is good, but the service is INCREDIBLY slow. We need more food choices and locations on our end of campus. For those of us with only a $1 / 2 \mathrm{hr}$. lunch, it is essential if we were to buy our food on campus.

There are no quick locations to get food except the dorms near veitch student center. If I don't have time to walk and eat then I usually just drive. It saves time. No place for a quick snack either.

I work in Zone three and all we have is the mexican cafe, near the science library. We can't have mexican everyday.

Logo has some snacks, but not too many varieties. So, it would be nice if one of the C Stores at the residence halls were open during the day. It is a long walk to the $C$ store at the HUB which makes it inconvenient for grabbing snacks.

Dining services can improve by offering another dining option near the Science Library and/or Lot 13. This dining option should offer a variety of lunch or breakfast items of a better quality. The Taco Fresco stand takes too long to get a meal at lunch and their isn't much variety to their breakfast. The hours of operation are inconvenient. Also, the coffee and hot chocolate is watered down and has a bad flavor. The prepared foods are tasty yet they take too long to prepare and are rather expensive. It would be nice to have another option.

I work in College Building North and it takes 15 minutes to walk to the HUB. No chance to get coffee on a break and if I go during lunch hour, it only leaves me 30 minutes to order and eat. If it is busy, there is little time to actually eat.

More convenient locations in relation to parking.
U Village is most convenient for me

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? More Convenient Dining Locations

Staff Member
Add more dining locations with a larger variety of food choices.
I usually pack my own food. The only thing that is likely to make me use dining services more often is to have something tempting up by Entomology/ life Sciences

I work in the Corporate Yard, and I cannot conveniently get to your venues in the time I have for lunch or when the weather does not cooperate (heat, rain, cold, wind).

I would like it if there was a dining option closer to Fawcett Lab
The majority of the Convenient dining locations are not close to my office. I would like to see at least a coffee shop that sells sandwiches, frozen yogurt and coffee.

I am located near the Science Lib. and we only have 1 choice in food options and it is ALWAYS packed!!! $90 \%$ of the time it takes my whole lunch break to wait in line...no time to eat..so why bother eating on campus?

More dining locations are needed to service the 'outskirts' of campus (i.e., south and east campus).

## Undergrad Off Campus

I'd like it if dining services would add restaurants or food stands on areas where it would take a student a while to get there, because it usually takes me 5-10 minutes to get to my next class from the HUB. Also, they should add more food options, such as hamburgers or seafood items to the HUB

When compared to other UC's UCR has barely any noticible/good dining locations aside from Panda Express. There needs to be more well known brands for Dining locations

Basically find a way to cater to the students by putting facilities in more convenient locations. As of right now the dining areas are 2 main spots, next to the science library and the HUB.

More variety is needed.
The majority of the Dining Locations are in the HUB. But when I'm across campus, sometimes I would rather just buy something in a vending machine than to walk all the way to the HUB and back.

## EXPANDING LOCATION CHOICES OTHER THAN THE LIMITED LOCATIONS NEAR HOUSING AND COMMONS

Locations throughout the campus would make it more convenient to grab a quick bite when on a time constraint

It would be nice if there were more places where food could be purchased. It's quite a walk to Commons a lot of the time.

The Hub is great but it gets very crowded. It would be nice to have another location on campus with similar dining choices.
there are alot of commuters like myself who don't have time to sit but would like a snack or drink. i think if there was a c-store closer to lot 30 that would help

Every dining location should be randomly spread across campus. For example, by Physics 2000 we only have the Taco Fresco. Dining locations should be placed all over campus because when students have remote classes to that of the commons then students can easily stop by and grab something to go.

Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? More Convenient Dining Locations

Undergrad Off Campus
Have dining locations not currently available. I bring my own lunch so I don't have to walk all the way across campus to get food.

The current commons dining area is very crowded at peak meal times, and there is little other choice on west campus. The hot dog cart doesn't take debit cards, so that's not an option for me.

As a science student, I spend most of my time at the top of campus. The only thing within jogging distance between classes is the taco place outside STAT, and they're slow.

I am usually near the psychology building, but have to go all over the place to get food on campus.

Its seems that all the places to ear are right near the bell tower, there are times that I do not go that way around lunch and there are not many options for me to go anywhere else
add more locations to eat around campus just not commons
More locations mean more choices, I don't always want the same thing everyday.

I am a Freshman and applied to UCR housing. They didn't have enough space for me on campus, so they placed me at University Village Towers. It's time consuming to walk/take the trolley to campus just to get lunch. It'd be extremely convenient if there was a location at University Village that accepts dining dollars.

Most are located in the commons, it would be nice to have more places like Taco Fresco spread around campus.

With such short breaks between classes and long lines, there need to be more food options in busier areas.

Most of the food places are located in the HUB, more are needed by olmstead.
There would be more options to choose from. Though I physically do not live on campus this is my second home and so we deserve more options because we get sick of eating the same 5 choses.
Especially when some if the food available is not what we like and so narrowing our options further.
more main dining paces spread out through campus because nothing is open expect panda and gas station foon from the cstore in that 1 place on campus.people stay in the library late more dining places should be open late near science and rivera.

It would be nice if dining services were more spread out so I could have easier access to a snack or lunch (like the hot dog stand) between classes.
the art and humanities buildings have only ivan's and the gyro stand, another option around here would be nice

I think the location is quite convenient. For I usually go to zone 4 (Library, Common, Sproul, \& bell tower), even though some class like Bourn has no dining location, but it has vending machine.

Just the fact of being on campus is convenient enough for me. The parking lot is too far away to walk to and from realistically for lunch unless you have a light course load. A central location like the HUB is perfect.

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? More Convenient Dining Locations

## Undergrad Off Campus

In the commons most of the places to eat are right next to each other and it gets crowded. More space would be better.

More locations close to classrooms
provide more accessible locations when my classes are far from the hub and I don't have enough time to wait in the long lines
should have more on the East Side Campus
Sometimes the dining area is far away from my class, so it would be easier if there were more locations

There should be a greater variety of foods located at the HUB and at the University Village.
I am in cnas so most of my classes are by the science library and the physics building. It would be more convenient if there were more places to eat around there instead of only Taco Fresca

Having more variety for on-campus Dining would allow me to eat at different places without being tired of the food so quickly. Since I eat on campus at least once a day, the same 4 or 5 restaurants get tiresome after 2 quarters. Opening more shops, different from what we have now, would help me to balance my weekly meals more and I would be much mre satisfied in buying food.
you need to have more places open because lines are too long or find a way to improve the lines during peak hours.

It would be nice if there were dining locations near the apartments.
theres not many dining locations on campus.
Students have a various schedule of time. In between sessions, it is hard to grad food to go if the hours of operation is not available to students according to schedule. It'll be nice to be open during all open hours and have less closing time.

I think at least one dining location should be put by Olmstead and the theater.
More restaurants would make it easier for people to get food when they're in a rush to get to class. As it is now, the few dining locations available always have long lines that take 20 minutes or more wait time.

Dining Halls open later, and longer!
Off campus locations that accept dining dollars. An on campus in n out, jamba juice, chipotle, etc.
their lunch Menu for A-I is quite repeatitive.. such as custom tacos for pretty much a whole month on mondays and tuesdays.. it would be nice.. to at least not be able to predict the menu...I understand that making meals in big portions is hard, but i can't ask too much about how good food taste, but perhaps more variety would be nice... i never saw pizza being served in the dining halls.
n/a
Have more places to eat and longer hours for dining locations. Near the ends of campus, especially near the library.

Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? More Convenient Dining Locations

## Undergrad Off Campus

I think that more locations spread throughout campus is a good idea. Right now, the HUB serves as the only location that uses Dining Dollars, unless you include Taco Fresco. I think that a wider variety of locations thorughout campus is a great idea.

I think there should be other places to eat besides like the HUB.
The Hub does have dining choices but there should be more variety and selection at each location.

If food were served faster and more central campus (and cheaper) I might eat at UCR spots more often.

Add more places to eat around campus.

Provide more dining locations scattered around campus. They wouldn't have to be full-on restaurants, they could be more like dining carts or beverage/snack stands. With more dining locations offered to students and faculty, UCR would increase in overall population and prosperity for all.

Everything is good it be a lot better if we had restaurants such as in-n-out or something like that on campus that way i would go almost everyday

Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? New Access Options

## Staff Member

Having a delivered lunch even if it required a minimum of more than one person would be very convenient.
would like to be able to purchase gift cards/certificates to give as gifts to students who work for us and employees' birthdays, etc. on a personal basis. Also, for recognition awards for staff using University funds.

Based on the answer below, delivery would be a good option for me.
I eat mostly at the barn. It would be nice to place a phone order and then have a separate line for pick up. The food and pricing there are good but the line to order is always long.

Since it can get really busy and crowded during lunch hours, if I could order my food online and pick it up when it is ready, it would save me a lot of time and that would make me dine on campus more.

It would be nice to have on line ordering and payment so you could just pick up your order.
I would use this service if it were available

Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Offer Payroll Deduction
as long as affordable it may be something I would consider.
If payroll deduction was available, I wouldn't have to worry about carrying money around with me or have enough with me, I could simply use a card or ID \#.

I did not mean to select this option and was unable to go back and deselect it.
It would definitely be intriguing if we could have a pre-tax payroll deduction to pay for our on campus dining. I would definitely appreciate that...and the funds roll over if unused....but of course if we ended up wanting to cash it out, then it would be taxable
creating a Meal plan to FTE base on payroll deduction
I think this would be a great idea.
I would be willing to eat on campus more if dining services offered payroll deduction
To be able to have money to get food toward the end of the month.
Decide on an amount for the year and to be used like a debit card, so it would automatically come out of my check before taxes.
offering it.

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Price/Value

Faculty Member
I buy most of my food at 'food 4 less'. Why not have a small on-campus super market with fresh produce, a bakery etc. with competitive prices. Healthier and cheaper!

## Graduate Student

I can get cheaper better vegatarian sandwitches off campus. That is basically the only thing I eat when I do not eat at home. So I never eat on campus.

Independent Indian food near campus = full meals under \$4 Independent Mexican food near campus = full meals under \$4 Keep corporate chains out!

Lower prices would make it a more attractive alternative to bringing my own lunch.
I think in general this the food at the barn is reasonably priced and there are some good options at the student store. However if I dont have time for these options I'd like some more low cost options around campus- the gyro cart is great, but before that you took away the hot dog stand on the way to lot 30 so i was bringing my own food. I guess that is to say price is as important as location and if i can get something reasonably priced (hot dogs, gyros) close to where I am (humanities) then I am more likely to buy

Lower prices. I have been here 5 years and every year food gets more expensive.
For what we have now: Compare to off campus restaurant, on campus dinning services has TOTALLY NO DIFFERENCE in pricing. OR EVEN MORE EXPENSIVE!!!

The 'Mexican' restaurant in the Commons is ridiculously priced for the awful food/small portions you get. Get rid of it. Overall, the best value is a pre-made tuna salad sandwich from the store and a drink, which is still expensive for what you get.

I'm looking for cheap food, so that's why I usually bring my own

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Price/Value

## Staff Member

I honestly think you do a great job with price and value but those are things I consider. I don't like to eat out when I know I should bring my own lunch which will be less expensive.

I think daily specials at all your dining services might be appealing. By the way, Chef Robert Grider gave an excellent presentation on healthy grilled chicken wraps and smoothies through the Human Resource Center. He was great!

The food is all too expensive, when the cheapest meal is aslice of pizza and a drink for 5.00 it is a rip off to eat on campus! The latitude 55 is a joke, it was 9.00 for a burger andfries, i pay less that that at in $n$ out and it is MUCH better!
getting the most for your dollar is always going to be important, but never more so than now. Discounts for continued patronage is the most attactive feature from my point of view.

I have seen prices rise on virtually every item every year for the past 6 years. There has been inconsistent combos (3 slices of pizza and a drink for 4.50, but two slices and a salad for 5.75?). The five dollar mark is important, so more meals/options with a drink for under five dollars would be appreciated. I would be willing to accept smaller portions if cheaper (as in the case of mama mia's or whatever its called now, which has a good portion but is now like..6.25? Used to be 4.25 with a drink when I started here.

Value meal combinations and discounted pricing.
I don't think you can. Overhead, etc. makes it unlikely that Dining Services could compete with the value of bringing my own lunch. Lunch is the only meal I eat on campus.

Make lunch combos more affordable
Maybe if prices were slightly lower than that of the competition, it would influence those of us who go off campus for breakfast and lunch to stay on campus.

Lower the prices a little. Give options so one can get a quick meal for \$3-4 like you can at Del Taco

Given my work schedule I am typically only on campus once a week. I went to Stacked hte other day for lunch and paid over $\$ 8$ for a sandwich combo, and Panda isn't any cheaper! The prices seem high, for not that great quality of food, especially with Stacked.

My diet is focused to 'generally healthy' guidelines that venture into bad eating on special days only. I need a choice of 4-5 items that are not a salad, but still offer lean proteins, veggies, or sea food that is not Asian-based as I am not a sushi eater. My money is usually spent at Flame Broiler, Wahoo's, and on bad days, In-\&-Out.

Prices are too high and the quality and quantity of the food is not the best.
cheaper price
The prices are absurdly high. Even for students and staff, this is a college campus, the prices should be low enough that people would not want to go off campus to eat.

I find food on-campus is a bit more expensive then at off-campus locations
We would gladly use dining services for our events if price compared favorably to off campus. We had a vegetarian packed lunch for $\$ 6.50$ each.

The price from UCR seems higher than its value

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Price/Value

## Staff Member

The prices are higher than some surrounding fast-food places like rubios and some vietnamese restaurants where the food is inexpensive and good.
lower price.
Include more establishments that have 'dollar menus' - very difficult to find food on campus that costs less than $\$ 5$ unless you want to eat hot dogs everyday. The majority of the establishments on campus offer and entree starting t $\$ 5$ or $\$ 6$ and it does not include a drink...can get pricey. Would rather go off campus to get more for the money especially in this economy.

Lower the price on some items, offer more daily specials that include a drink
I think prices are very high and they could lower them.
Undergrad Off Campus
I like to buy snacks and chips. Recently hot fried has gone up to $\$ 1.25$. It's annoying to carry coins to buy my snacks. dollar chips would be better.

Cheaper
cheaper
More for less and better quality. The food is obviously terribly overpriced.
Most of the food on campus is very expensive, and they give you very little. This is why most of the time I drive off campus to eat and spend my money somewhere else.

Make items cheaper
I think the Commons should get rid of El Sol. It's expensive and the food is gross. That's why the line is always short. No one likes it. If there's a necessity for bad quality Mexican food, you might as well put in a taco bell -- i'm 100\% positive there'd be a bounce in revenue, at the very least.

Price range is reasonable, but the amount of food and the value of food is somewhat questionable.
most things are overpriced and should be lowered a little bit.
Food seems a few dollars more than it should be
We need more affordable options
I don't know if the Dining Services can improve too much as far as price, and it is not too much of a priority for improvement as I have seen that the offerings by Dining Services are often a very good value compared with off-campus services. Price is often my biggest limitation for getting food though.

Make it cheaper.
I feel the food is a bit over priced for the portion of food that is given at times. Almost all the combos are over \$6.00 BEFORE taxes. For example, lets say I order a two taco combo from EL SOL and in this combo I get two tiny tacos with a small portion of food inside it along with two small sides(e.g. rice and beans). This combo will come out to be almost $\$ 7.00$ and barely satisfy the hunger.

Prices are too high especially for the portion size

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Price/Value

## Undergrad Off Campus

Stop trying to gouge students.
4 bucks for a sanwich? cmon... Panda is the best value on campus and that stuff is terrible for you please provide more affordable food that is also not highly fattening

Make Stuff Cheaper! We're on a budget here!
The pricing of meal plans should be kept reasonably low, so students, who are on their own with no parental aid,are able to afford and purchase them.

Just because I'm on campus, it does not make it right to raise the price of everyday items.
More food for the money I spend.

Try to make every purchase, even at C-stores, a combo. I'm sure many would purchase and UCR Dining would gain from this investment.
lower price on the drinks
If the quality of the food as well as what kind of ingredients are implemented were to be improved, meaning that they are much more healthier, at a fair price then that would be a great improvement, many healthy options for a fair price.

Cheap tasty food that we can eat everyday without spending a lot of money overall. Having Dollar Menue like some of the fast food restaurants.

Have reasonable combo/value meals Offer a loyalty program
no sales tax and no crv tax
There should be a dollar menu or something, because the food is way to expensive in my opinion.

Lower prices, we are already paying about 10000 a year for school why do we need to pay that for food too?

Many off-campus fast food places offer a 99 cent menu, which is very affordable. I do not often eat on campus because everything is so expensive.

Make the prices cheaper and more reasonable.
a little over price.
Some of the food in the Dining Services are just too pricey and I can't afford to make a pit stop during classes or work so I have to bring my own lunch.

I think a little cheaper pricing or better combo deals and value menus should be added.
at the mexican place i feel that sometimes you get more food some day and others you barley get any. women tend to go lean on the meat and heavy on the rice and beans while men give a lot of meat and no rice
students are broke, try to be more reasonable with the pricing.
I think that they should have frequent buyer programs and give away free or discounted meals when you buy a certain amount.

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Price/Value

## Undergrad Off Campus

the food at school is a bit too expensive for me. i am a college student on a budget as most of us are. if there was a hamburger place, like carls jr, that offered $\$ 1$ burgers, i would definitely eat at school more often.

Cheaper meals or more combo/ value meals.

## Undergrad On Campus

I think if it wasn't for the dining card, I wouldn't go to the dining halls at all because of the high prices. I do like the sushi prices at Honor Roll however the handmade rolls aren't comparable to the great pre-made, handmade rolls they make in the morning (CA rolls). That pasta place is overpriced.

I think food should not be as expensive. As college students we already spend a lot of money and then having to pay even more for food becomes a hassle.

Dinner is too expensive. It should be same as lunch.
Make it so that restaurants accept meal plans.
cheaper, like ask McDonalds to come so we can buy their value menus
Well, simply lower prices. Vending machine at UCR library sells a Rock Star for $\$ 2.00$, while Stater brothers sells it for $\$ 1.60$. Equally for other drinks and Panda Express. A small cup of capuccino in 'Ivan's' (UCR)is \$3.50!

Some food items are way more expensive than they should be.
Cheaper prices! Even if it does mean smaller portions, I will be willing to buy more often if the price is lower. Sometimes I can't finish a lot of food anyway!

I think the food is overpriced for its quality.
I think that the resident halls cafeterias are overpriced. To me, I do not think that i eat enough to pay $\$ 8.25$ or however much the meal is. Going off campus, for that money one would be able to receive more food. I understand that there are a lot of expenses but it does discourage students that do not have meal plans to go to those services.

No charge for water cups. No meal combos (i.e. burgers fries and a drink) over $\$ 6.00$
Well if the prices are cheaper to purchase meals studends would be more willing to spend money more often and buy food more often during the week. More often spending more business.

The only way to be able to do this is offer sonmething like combo's so we get more food for our dollar. I mean, sonmetimes paying $\$ 1.50$ for a small bottle of water does get ridiculous, just offer better values for a satisfactory price.

Create value menus that allow for people to spend less on foods.
Just offer better deals. Many times it feels that the food is overpriced for the portions we get.
It would be nice if the prices were cheaper.
Dinners are too expensive. The Logo's lunch is most affordable and worth it. It comes with a lot without costing so much.

Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Price/Value

## Undergrad On Campus

I realize that DIning Services needs to make a profit on their end, but some items are expensive and small in portion size. I don't mind so much about the portion size, but I want to get what I pay for. Anyone can go to taco tuesday at Del Taco and buy 3 tacos for a $\$ 1.09$, etc, etc, and I understand that that may not be feasible for Dining Services, but providing 'sale' opportunities that are actually appealing will increase your sales.

GIve us more for our money.

Cheaper

Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Quality of Customer Service

Graduate Student
Quality and varities like Asian food, Korean has to be included ...
it is bad that every time a new restaurant is introduced to UCR commons is very nice, priced adecuately and good portions, after 5 months or so, it becomse more expensive, less portions and it does not taste that good, it ALWAYS happens in 6 years of being there

## Staff Member

The staff are not always the friendliest when explaining why prices are the way they are, or why the serving size is the way it is.

The key here is Time, Time is of the Essence for students, staff and faculty. We should receive quality customer service which icnludes taking time under consideration while deistributing good tasting quality prepared food.

With the exception of The Barn, the employees always seem to mess up my order. Like if I order 3 chicken tacos with no cheese, I'll end up getting 2 carne asada tacos with cheese. Ridiculous! The student employees in particular need to pay more attention to detail.

Hire someone to run the food service that has some food service expereence.
Get the order correct along with the time of delivery and pickup
I truly believe that Dining Services at The Barn should concentrate on their Customer Service. On two occasions when our office wanted to hold a meeting of six at a table, the server/cashier told that they were closed. The Barn was to close at 2:00 p.m. and it was 1:45 p.m. We could not even get chips! On the second time our staff of six wanted to meet, the soda machines was out of syrup. We told the cashier and were told that the Barn was going to close shortly and they could not add the syrup. Therefore, we had not soda.

I am never offerd a bag or silverware at El Sol. When I ask for a bag it is handed to me.
Undergrad Off Campus
the service is good, but some of the cashiers at the convienent store is a little rude.
I don't think you can do much. If the person does not like being there the quality of service is not great. A smile would help.

For employees to be more interactive with the customer and maybe offer some discounts and loyalty cards.

Have more enthusiastic team workers. Most of the people working in the HUB dont even seem to want to be there, it makes it awkward when buying things.

PRESENTLY, AND SINCE 2007 THAT I KNOW, THE SERVICE LEVEL -- AT ALL ONCAMPUS -- EATERIES IS ATROCIOUS, REVOLTING, RUDE, IMPOLITE, NEVER POLITE, NEVER MAKES ME HAPPY TO GO. RATHER, IT IS FOR THIS REASON, ALONE, THAT I WILL NOT EAT ON CAMPUS UNLESS I AM EMACIATED!!! I DOUBT THAT YOU WILL: A) TAKE ME SERIOUSLY --OR-- B) IF YOU DO TAKE ME SERIOUSLY, THAT YOU WILL NOT MODIFY YOUR SERVICE PROVIDED; PROBABLY BECAUSE IT REQUIRES WORK... WHICH YOU OBVIOUSLY HAVE NO REGARD FOR.

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Seating Availability

Faculty Member
The Hub is always full from 11:30 until about 3:00PM. It can be a turn off.

## Staff Member

more inside seating should be made available
This isn't a fair representation to you of someone who uses your services. I rarely go onto campus as my work location is not located close enough to want to walk over during lunch.

DURING THE LUNCH HOUR IT IS ALMOST IMPOSSIBLE TO FIND A SEAT. AND THERE ISN'T MUCH AVAILABILITY OUTSIDE. OVERALL SEATS ARE TOO LIMITED.

It would be nice to have a staff area where you can meet with other colleagues without being bombarded by the students, loud conversations and lack of space.

Add more tables around campus, near food service
More seating maybe outside
More of it.
It is often difficult to find seating during peak times. I actively avoid the noon to 1PM time because of he congestion in the main dining area. Also, in the new patio areas, there will be a lack of shade in the warmer months.

Impossible to find a seat sometimes during peak times. Need more single seating.

## Undergrad Off Campus

Often when I go inside there is no place to sit. Especially during peak hours.
During lunch hours there tends to be little seating available indoors. Perhaps making sure the tables outside were shaded would keep more people outdoors and more seats would be available.

It is sometimes hard to find a place to sit. Single students often take up entire tables with 4 or more seats. If there was more of the bar-style seating like those by the windows there would be more seating available more often.

The common is just not big enough.
There should be a place one can sit eat and do some work. I other words have more outlets available.

## Undergrad On Campus

More chairs and tables would help! Also, the lines get rather long so I'd just go to an offcampus store to get food during peak hours
more seats at the commons.

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Service Speed

Faculty Member
As a faculty member my time available for lunch is limited. I find that I must adjust my daily schedule to get to a dining venue before it is so crowded that I need to wait on line for 15-20 minutes, particularly at the Barn. I would like to be able to go to lunch at my convenience, not when the crowds are gone.

I don't know how, but everywhere I go on campus the service is extremely slow. Perhaps training employees better or having more employees during busy periods?

Lines are way too long - I do not often buy food on campus because it would rather not eat than wait in a 50 person-long line

I eat the Sushi whenever I can, but often the line is too long.
Provide more options so no food service areas have excessive lines or waiting times.
As a faculty we have very little time to eat lunch. Having quick access to purchase and seating space is key to us.

The sushi line is too long.
More locations/shops would facilitate shorter line ups and speed up waiting times
Barn line is utterly unpredictable and sometimes slow. Staff seems harried, sometimes.
There are often long lines at the Commons, Barn, and Taco Stand, especially during peak lunch hours. It would be very helpful if this could be addressed somehow. The deli (Stacked) seems to be especially inefficient - often there is a long line of customers waiting to get their sandwiches started, and one or more employees standing around with nothing to do. The old Deli (before the Commons renovation) seemed much more efficient, with a single employee making only one sandwich at a time.

Some places, such as Honor Roll, take over 40 minutes to get a meal. They don't have a quick delivery system. I would eat there if the service wasn't so bad.

The Barn is too slow with long wait lines, and frequent register problems. I often cannot make it just because I don; have the time to wait in line, then have to gulp down my food and run to next meeting.

Graduate Student
during the lunch rush hour, i don't like to go buy food because i don't want to stand in line. otherwise, i would definitely be buying more burritos at the Taco Stand near the statistics building.

Can increase the number of the vendor and shorten the line
During peak meal times, it would help to have more than one register open.
I have noted (along with other people) that there is a sharp contrast between service at Panda Express and the student run services. Sometimes I select Panda - just on that basis alone.

Some on-campus eateries provide incredibly slow service. The staff are socializing and/or spacing-out rather than preparing the food. This can be very discouraging.

See my above comment. Service at Hub restaurant (excluding Panda) is /so/ slow and poor that I can't eat at them. Waiting through a 30 person line at Panda (which doesn't really the healthy fare I prefer) takes less time and frustration than waiting through a 5 person line at the Sub Shop.

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Service Speed

Graduate Student
we have a limited amount of time between meetings and classes, the lines are so long that I have put down things I was planning on purchasing and had to leave.

Have more sushi rolls made before hand, by the casher so we can just pick and pay quickly. Most of the time they run out by the time I get there, other times they don't have a variety to choose from so I have to waite in line.

Dining Services should hire more people to help cooks or preparers and help the staff speak clear English.

## Other Student type

Need more places to eat lines can get far to long at peak hours.
Staff Member
Addition of new venues is likely to be required to address service speed. Current venues are impacted and beyond their capacity which results in long lines, slow service and restricts the menu to items that can be prepared in advance and served quickly.

Peak periods more Cash Registers pre take order while folks are in line
I don't have time or patience for the horrendous lines for food at the TUB. I don't even consider eating there. I don't recall it being such a problem in the old Commons.
noon service is too slow with long lines
set target ticket times for food delivery, most people don't mind waiting in line to order if their meal is delivered quickly

Lines are so long----
The C-store has been a considerable disappointment. I do not understand why we expanded the Cstore yet failed to add addtional cash registers. In addtion, most cashiering stations are seldom fully staffed. The store becomes cramped and uncomfortable as a myriad of campus patrons wait in endless lines while frustrated cahsiers attempt to maintain quality customer service. The problem is also prevalent thorugh out dining venues. Most times it is faster to walk to your car, drive off campus, eat and come back then to walk to a dining venue, wait in line, order, pay and receive your food. The 'old' commons was far superior in speed, accuracy and customer service.

Lines are too long for an hour lunch. More registers please!
I would suggest more registers open during lunch time.
At times I bypass the on-campus options as I cannot stand in line for 15-30 mins to get a cup of coffee or 30 mins+ to get lunch. These service times may work for faculty and students, but not for staff. Open more lines, add venues, and pay attention to how national chains handles food production and sales to speed of service. For example, look at how Subway prepares sandwhiches... that chain makes sandwhiches must faster than the campus shop as one person takes your sandwich from start to finish... cuts down on the number of times preferences need to be relayed by either workers or the customers... these national chains have perfected their systems... use there knowlegde to improve yours.

The food was set up late at one event, and we had to for go some of the set up.
During Busy times, it would help if more than one cashier was made available to speed up the lines.

Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Service Speed Long lines always turn me away and I go elsewhere. Honor Roll has

## Staff Member

great food, but it takes so long
to get the food and get through the lines. Make the most popular orders available for 'pickup and go' or have a weekly 'pickup and go' menu to let people know when you'll have certain items as pickup and go.

Schedule more staff and open more registers during the lunch hour rush.
Add more checkouts in the campus store in particular! In fact, make the store bigger...
Not sure how to improve this, dining services is going to be crowded during lunch no matter what you do.

Often, when places are listed as 'to go' the lines are longer than they should be. Perhaps space is an issue that impedes prompt service.

I know that the campus serves a large population, but it shouldn't take 30 minutes to get through a line to get a meal

Too many people not enough registers when you have .30 min lunch
More people operating at the rush hours
I like the food on campus, but with only an hour for lunch it can be frustrating if half that time is spent standing in line just to place an order or pay for food.

More efficient service lines, sense of urgency at lunch times
Lunch for staff members is usually one hour. Students and staff stand in the same line which on an average takes half of your lunch hour. That leaves me with 5 minutes to walk back to the office and 25 minutes to consume the food. I have no time to do anything else.

Food lines are not physically laid out well, services are under-staffed, std. items ie. hot dogs, scones, etc. are not stocked consistently or available at std. meal times!

For the most part, most places are prompt when ordering. However, Del Sol front counter people always seem to be lagging. Seems they are not comfortable doing what they are doing. It takes up to 7 minutes with nobody in front of you to get a burrito put together. Also - there seldom seems to be ice in the ice machines @ 7:30 in the morning. I like iced tea for breakfast, but ICE seems to be an issue. I notice that I find myself stopping at a fast food restaurant on the way in because so many times there is no ice available, so there is no point. Furthermore, if I stop in for iced tea, there is a greater chance that I will buy a bagel or something else there, so by not being prepared upon opening time, you do lose people due to the inconvenience.

Have more cash registers and cashiers.
This is partially due to the number of people on campus, so more locations would help somewhat. The staff could not be so leisurely in service, like I have experienced at times.

More premade hot items for grab and go - like breakfast burritos in the morning. Salad bar, pay by weight would be nice.

During the day time the lines at most food places on campus and the convenience store are long enough that it takes half the lunch hour to acquire food and moving through the dining and convenience store areas are uncomfortably cramped due to the number of people and, in the dining area, the layout of seating that provides only small walkways.

Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Service Speed Long lines always turn me away and I go elsewhere. Honor Roll has

## Staff Member

Decrease the wait time to order/recieve meals--it is more than 15 minutes now
More cashiers and servers. Lines to order are often too long to wait when only have an hour for lunch.

As a staff member you spend all of your time standing in line.
Lines are way too long in the Commons, and especially in the convenience store. It is ridiculous.
Service at The Barn can be somewhat slow when ordering food 'to go'
Lines are too long during lunch!! Although the facilities have vastly improved on campus, it is obvious the campus has already outgrown the current eating venues.

The Panda Express is consistent in food quality, need more registers to check out the line. The food servers over power the cashier check out and backs up the line. Same for the Pizza line - servers out number the cashiers. The Barn Food quality has gone down. Service has always been slow/ and too costly.

Have more options in the HUB area during high peak times.
Have more then one line for all the food so it will be quicker and they dont have to wait in line for long.
more registers.
The Deli place needs to be bigger to handle the crowds better
Make sure enough employees are on duty during peak hours and they are trained efficiently.
The coffee cart at Hinderaker is frequently backed up in the early morning before an appropriate level of staff are able to meet the need or while the refrigerated section is being stocked...it would seem that someone outside of the customer service group could stock the refrigerated section in order to expedite the pace of the line.

More cashiers on register are needed. Spending 15-25 minutes in line is not how i want to spend my break/lunch time.

I understand that staffing is tough to gauge, but if the line is too long in the convenience store where I buy the salad bar, then I cut back on how often I go.

Understandably, at busy times food establishments are overrun with orders.
Reduce lines
I think the service is great. With everyone trying to eat at the noon hour I think Dining Services does the best they can - the lines may move slow, but that is due to the large number of folks. I don't know that Dining Services can do more than add more more register ins venues.

I am a staff member and have a limited amount of time to purchase and eat my lunch. The line to purchase food at Logo Sandwich shop at Lothian is usually to long for me otherwise I would eat there more and they don't accept cash. The line at AI Dining Facility is usually long also.

Have more cashies

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Service Speed <br> Staff Member

Long lines always turn me away and I go elsewhere. Honor Roll has
Some items on the menu are put together by foods that are already cooked and heated as opposed to other foods that need to be made. I would probably buy more often (and enjoy my food) if service speed was faster. Some employees have 30 minute breaks and having to wait almost 25 minutes doesn't leave a good impression. If I wasn't so rushed with the time I had left to eat my food, I'd have a better experience with UCR's dining. This is why sometimes I go to Panda Express because the service is faster.

Undergrad Off Campus
More locations over all to ease the amount of people in one area. The commons are near or over capacity during lunch hours. In fact i feel this maybe a fire hazard as well
keep food stocked. limit talking. especially from head cooks, student-workers actually are fine. the head cook (staff) usually day dream or make conversations and make things take longer.

The lines are what makes the service not so fast. I believe the staff works hard to try and get the line through as quickly as possible. I dont thing the speed of the service is impossible to fix. I would be nice to go in and out of a place however, it is understandable.

When I eat on campus I am usually in a hurry to get to the next class, so having a food place that is quick its really important to me.

Get more people to work at the different restaurants. I also believe that the staff should be more efficient.

Lines during lunch, especially for sushi, are ridiculously LONG. Also, when cashiers ring a person up, there are too many receipts and it takes a long time to ring. Maybe there are more streamlined approaches?
more cash registers
The lines are extremely long at most dining places at the commons and it seems like there aren't enough employees at the registers. For example, I see so many students walk into the C-Store in the commons and quickly turn around because the line is wrapping around the ENTIRE STORE! And part of that reason is because there are four registers and only two employees. And the rest of the employees are walking around looking like they need something to do or they are just talking. They need to be at the rest of the registers! Also, if the commons is low on employees then they should hire student workers and put out e-mail announcements for that. I'm sure that there are plenty of student's looking for a job.

There are just too few places and too many students. Sometimes it will take so long that a 1 hour break is not long enough to order, wait, and eat.

More Cashiers at Lothian Dining.
sometimes when the lines are long, I choose to eat at other places because I don't want to be late for class

Particularly apparent when comparing panda express cashiers to UCR Dining service cashiers, the Panda Express cashiers are much more efficient at moving students through the line whereas UCR Dining Service cashiers move students slowly regardless of the length of the line.

Today I had a stomach flu problem and for some reason, I just sharted all over the floor. My TA proceeded to blow chunks all over the place, and one of my classmates fainted.

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Service Speed

Staff Member
The C-Store lines take forever. Last week, I've been in line for about ten to fifteen minutes three days in a row.

More efficient workers like Panda Express.
be faster in case people need to get to class or are in a rush
Have more places to eat so that everyone isn't eating at the same places.
More workers, more dining equipment

## Undergrad Off Campus

There never seems to be enough workers behind the counter when I come to get food. I often have to wait quite awhile to get my food, even when I have a small order. Either more staff or more efficiency in handing out meals would be helpful.

Panda Express usually does a good job at service speed even though the line is full almost all of the time. La Fiamma and Honor Roll take too long when serving food considering not much needs to be done to serve a guest. The speed of the student workers needs to be faster.

There are some cashiers that take a while to get the correct change. I suggest to have the cashiers be tested on how quickly then can return change.

They can use one or two more people during lunch since that is when a lot more people go to get food.

Workers should be constantly attending the cash register. So more employees would probably be preferable.
lines tend to be way too long that i never think i'll have time to eat and be on time to class
Faster service in the commons and more space.
The speed is usually great during off times, but when it is a break from class, there are loads of people. I understand the lines are long, but there must be some more efficient way to serve the food and be on our way. I usually only have a short lunch twice a week which means i need to grab my food and get to my next class. It is terrible when i try and i am late or i just skip lunch because the speed is so slow.

All employees need to be trained some other time, not during my lunch hour. Employees seem to be unenthusiastic, and sluggish during the one hour customers have to take a break. Food needs to be prepared in less than 10 minutes.

Often, I have very little time before my next class so even if I am hungry I don't have time to eat. Many places to eat need more people at registers so the line goes faster.

I understand that with the state of the economy, hiring extra labor in order to increase the service speed is not a vaible option. A suggestion is not requring signatures on credit card purchases under $\$ 15.00$ as long as customers show id.
the wait times can be minimized by increasing efficiency of the workers. The workers seem to be taking their time whether the line is 3 people or 20 people long. In-n-out does a better job of serving 100 people than dining does 20.

The only place I really like to eat at is La Fiamma and it takes forever for the pasta to be done and there is always a long line because here there are healthy foods.

## U Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Service Speed

## Undergrad On Campus

Many times it takes a while to get through the line at the c-store in the commons because the people who work behind the counter are often slow when you're buying your food.

Getting lunch on campus is a real pain, because the lines are insanely long. I usually have to stand in line for about 40 minutes to get sushi. That's ridiculous. The line at Panda Express is crazy too. I often have to leave the line halfway through, because my class is starting soon. The convenience store at Commons is also really busy all the time.
places such as panda or the dining halls take a long time, so id rather go somewhere else that lets me get my meal faster.
none
Sometimes the lines take way too long. I do realize that there are a lot of students on campus but waiting 20 minutes in line when students have to get to class is unaccetable ..that's almost half of an hour. Spanellis in AI takes so long sometimes. The Pizza isn't ready and I just don't think the line is going as fast as it should. i know food service is hard but more efficency in getting people in and our would make things so much better. Some of the workers seem bored and slacking. Although some work hard especially those stacking up the drinks, the people behind the counter are sometimes slow working. thanks.
be faster please
Open more registers.
Customer service should not suffer for speed.
Use better cash registers. They break down often, causing cashiers to write down every single customer's information.

Most students have classes during the day and does not have the time to wait in line to get food. However, every single food place have long line (aproximately 15-20 minutes wait during meal periods). Dining should plan an effectively way to speed up lines.

The lines are too long during the peak hours. Need to have more than two registers and staff. This would speed up the service time.

I think that there can be a little bit more workers that work efficiently and are not spending their work time to talk to their friends, I think the line could go by so much faster if also there were a separation between cash and credit card.

I hate standing in lines out the doorway at places like Spinelli's because its suppose to be fast
The commons dining locations could be more efficient in how quickly they work through long lines, espically at peak times. For example, Honor Roll should have more people available to fill orders and someone seperate to set up the rice and/or fill non sushi orders durring peak times - espicall for about 20-30 min after classes get out

The lines are usually backed up every Monday, Wednesday and Friday for lunch.
I will not eat at a place if I have to wait in a really long line.
The service speed is not fast enough.
More cashiers

Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Other

Faculty Member
Please offer some vegan foods regularly-- the mediterranean trolley at HUMSS is a great start, but we're all wishing it also offered felafel to go with the humous- or prepared tabouleh etc. There are very few vegan options in general, more would be welcome by all health-conscious people.

On-campus dining services are not competitive with, say, UV, because they are not readily accessible unless one is already on-campus.

## Staff Member

Offer more salads for lunch.
I am basically satisfied with the dining servies.
It would be great if there was an option of ordering ziplock bags/containers so that could package our leftover food. I know there's an issue with making sure we have a refrigerator, so you could ask that question on the order form under the box that check for 'container's needed'. Other than that, Dining Services is GREAT! Thank you!

We are located off campus and either have functions at convention centers, local hotels or Sacramento area. UCR dining services are not used.,

Undergrad Off Campus
OFFER THEM at REASONABLE prices!

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Other

Faculty Member
We need a good coffee shop with comfortable seating!
healthy tasty options
decent coffee bar
Away from undergraduates and campus noise
Quality vegan food options
Availability of organic and/or locally grown food there's no where to eat throughout the day
bar with happy hour to meet colleagues would be great. currently meet colleagues off campus many nights a week for dinner or appetizers and wine.

Cafe for coffee and snacks
BARN needs total menu makeover
Coffee. There is now no good coffee on campus. Why not bring back the Starbucks booth?
Vegetarian options!!! WE need GOOD vegetarian options!!!
more actual cooking (even if simple/fresh) instead of so much 'packaging' and 'arranging'
a more pleasant, less noisy environment for eating with friends
vegetarian and vegan foods
Access/Parking (I live off campus)
most of the on-campus food simply doesn't taste good.
fresh produce and super-market like options
Barn line slow and unpredictable
Graduate Student
something that is not Mexican or Asian
Offer Indian food.
More flavor
more and higher quality vegetarian and vegan options
The lines are too long.
Coffee on the East part of campus PLEASE!
Fire bad employees. Seriously. Why is the service at Panda $800 \%$ better than any other restaurant in the Hub? I like subway sandwiches. I don't want to have to go off campus to get them. But the sub shop in the Hub is terrible.

Allow beer
VEGETARIAN FOOD
I'd like to place emphasis on food QUALITY!!
offer more vegan options

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Other

Graduate Student
provide Milk at Taco Fresco in the morning
more soups, sandwiches
I would prefer healthier choices and shorter lines. A sandwich shop of some type would be quite popular if the lines were reasonable. I completely avoid the Commons between the hours of 11AM2PM...

Charge less if someone orders an item without meat, rather than penalizing vegetarians. not chain restaurants. Also treat employees well. Food from reputable sources.

## Staff Member <br> Delivery

Fresh, organic, non-fried, non 'fast' food
vegetarian food
Offer Gift Cards
Healthier Choices and Nutrition Labels on them!
desserts
More options at commons for faster service
More organic and healthy prepared options
N/A
nachos at Taco Fresco
Need COFFEE -- Starbucks or Peete's PLEASE!!!!!
All open during breaks and summer
grab and go meals
Organic, healthy and whole foods
Package up unused food for customer (at add't cost)
I would order sandwiches more, but the meat quality is poor
$\mathrm{n} / \mathrm{a}$,, most of our events are in Sac or at a hotel
Food Options at Bannockburn Village Location
valued/frequent customer discounts
healthy options
99 cent or value menus
Some place quiet......
offer American hot breakfast items
b/c staff only have an hour lunch its hard to stand in line for half of you lunch hour and have to eat quickly. Should be a staff line open from 12-12:30

More entree salads

## Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Other

## Staff Member

dining staff need to be more efficient, less personal socializing
Closer to Corporation Yard

## LATE NITE COFFEE AND WEEKENDS!

Signage. Some times you are not even sure where the dining facilities are. A sign with an arrow or something would be nice.

I REALLY prefer my own food. I know what's in it and I can incorporate leftovers. Also I can make it just like I want it. Restaurants are torture. Even when I travel I try to get a kitchen or at least a frig or microwave in the room and shop at the grocery store. Restaurant food is usually oversalted and has too much fat. Desserts don't use whole wheat pastry flour and often use margarine or high fructose cory syrup. What's so hard about packing a lunch the night before when you're making dinner!

Coffee and Tea available after 5pm!
longer hours for breakfast, able to order breakfast during lunch hours.
offer vegetarian restaurant
coupons
realistic vegetarian options
More vegetarian options
Offer some natural food selections
Non chain restaurants
wheat-free options
Undergrad Off Campus
organic, locally grown, fresh juices, vegetarian
Health Conscience
ACCEPT DISCOVER CARD!!!!!!!!!!!!!!!!!!!!!
food options
customizing my order
cheaper (as in price)
sustainability
service quality
2 for 1
more space for lines to go if the line is long, there's not enough space sometimes when it is busy and there are alot of people, especially in the student store at the commons
healthy, organic
loyalty programs
$\qquad$

Question 22: What can Dining Services do or improve to compare more favorably with other food options available to you? Other
Undergrad Off Campus
VEGAn OPTIONS
more vegetarian/vegan options
Undergrad On Campus
have vegan options on campus
health
more healthy foods
Till now there is no smoothies or vegetarian places around bell tower
Vegetarian options
Sustainable/Local/Fair
Meal plans for family housing
more Vegan options, no eggs
I know deep fried uneahlthy stuff is cheaper but if food was just fresher and healthier i would be happier

Vegetarian meals
Better tasting food, especially at the Dining Halls for the residents
real ethnic foods (authentic)
Off campus dining plans
Healthy, low fat food
ecologically sound and just food selection
MORE VEGETARIAN OPTIONS!!!!!!!!!!!!
Vegan/Vegetarian Options
breakfast should be open 30 mins longer

## SURVEY OVERVIEW

In June 2009, Envision Strategies performed a competitive survey of the restaurants in and around the UCR campus. The survey encompassed restaurants and other food service establishments located within a 5-7 minute walk of the perimeter of campus, as well as Goodwin's Organic Grocery and venues at the Canyon Crest Towne Center.

The areas surveyed resulted in 78 food service establishments. Figure 1 highlights the areas of the surveyed restaurants.

Figure 1: Competitive Food Service Establishments

Within the area surveyed there were:

- 21 quick service restaurants, of which 15 are associated with a national or regional chain;
- 31 casual dining restaurants, of which 19 provide table service and 7 are associated with a national brand;
- 1 organic grocery and 2 convenience stores;
- 2 fine dining establishments;
- 12 beverage and/or snack establishments serving specialty drinks, pastries and/or frozen snacks, 7 of which are associated with a national or prominent regional brand.

Table 1 below shows the breakdown of foodservice menu concepts by the area location identified in the survey.

Table 1: Distribution of Menu Concepts by Area Location

| Cuisine | Goodwin's | Bannockburn | University <br> Avenue | Canyon Crest <br> Towne Center | W. Blaine <br> Street \& Iowa <br> Avenue |
| :--- | :---: | :---: | :---: | :---: | :---: |
| Burger/Fast Food |  |  | 3 | 2 | 1 |
| Pizza |  | 1 | 3 | 1 | 3 |
| Sandwiches/Subs |  | 1 | 2 | 5 | 3 |
| Mexican |  |  | 5 | 2 | 2 |
| Asian |  |  | 12 | 3 | 2 |
| American Fare |  |  | 4 | 2 |  |
| Ethnic, Other | 1 |  | 3 | 1 |  |
| Bakery | 1 |  | 4 | 5 | 4 |
| Beverage/Snack | 1 |  | 1 |  | 2 |
| Grocery/C-Store | $\mathbf{1}$ | $\mathbf{2}$ | $\mathbf{3 8}$ | $\mathbf{2 1}$ | $\mathbf{1 6}$ |
| Total Foodservice <br> Locations* |  |  |  |  |  |

*Locations may be counted in multiple categories

## Goodwin's

Goodwin's is a $100 \%$ organic grocery store that features local products, prepared foods and natural beauty products. The store includes a fair trade and organic certified espresso and juice bar, a take out deli and a prepared food counter that serves four entrees daily. The prepared food counter also has a pizza oven and serves both baked entrees and pizzas on a daily basis. The store is well patronized by local residents and appears to be popular.

## Bannockburn Village

The two locations in Bannockburn Village are the only restaurant outlets immediately adjacent to campus. As such, they appear to be primarily focused on the campus community and to be heavily patronized by University affiliates. Pricing at these two establishments appears to be somewhat higher than for similar UCR dining options, indicating a potential on-campus price advantage with respect to these geographically significant competitors.

## University Avenue Corridor

The strongest concentration of restaurant competitors is along University Avenue between University Village and Cranford Street. This area includes 35 foodservice establishments that run the gamut from a self-serve snack bar to a fine dining steak house. The majority of the restaurants in this zone are either located in University Village or directly across from it on University Avenue. This area appears to enjoy heavy campus traffic, although there are a significant number of unoccupied storefronts, indicating that the area may be at or near capacity with regard to restaurant development. Figure 2 shows a more detailed map of the area.

Figure 2: Map of University Avenue Food Service Locations

## Canyon Crest Towne Center

Another significant concentration of restaurants occurs at the Canyon Crest Towne Center. While this is outside of what is normally considered to be a convenient distance from campus, it is a relatively short drive from south edge of the University. The center contains 19 food service establishments of broad diversity, including a fine dining restaurant, a number of national brands, multiple ethnic restaurants and American Regional concepts. The overall price point seems slightly higher here than along the University Avenue corridor and the development has a more upscale and well-maintained appearance. Few vacancies were observed in this area, and the restaurants appear to be moderately prosperous. Figure 3 depicts a detailed map of these locations.

Figure 3 Map of Canyon Crest Towne Center Food Service Locations

## West Blaine Street and Iowa Avenue

This area of the survey contained only 3 national brands, all of which are located at the intersection of Blaine Street and Iowa Avenue. The remaining locations appeared to be individually operated and include a variety of concepts in including 3 Mexican concepts, three pizzerias and 3 Asian food concepts. The prices appear to be somewhat lower here than in other areas surveyed.

The 16 restaurants along West Blaine Street and on Iowa Avenue between West Blaine and Linden Street are technically within the zone of convenience from campus y. However, our observations indicate that student traffic is light in these areas and that they have minimal impact on the campus food service environment. Figure 4 shows a detailed map of these locations.

Figure 4: Map of Blaine Street and Iowa Avenue Food Service Locations

Dining Facility Assessments conducted by Envision Strategies June 3-5, 2009.

| NAME | A-I Dining Hall (continued) |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
| Facility <br> Functionality: <br> Customer Perspective | Poor Practice (1) | Best Practice (10) | Rating | Notes |
| Access | Location is difficult to find, physical barriers impede entry; entry is physically uninviting and provides no indication of operational identity | Location is easy to find and enter; entry is visually appealing and shows design elements that are integrated into the identity of the operation | 5 | Easy access, generic entry |
| Dining Room | Insufficient seating; poor accommodations for large groups and singles; service support/amenity areas are difficult to access or poorly distributed; preferred amenities non-existent; design inhibits social interaction | Sufficient seating at all times, Dining Room accommodates groups of varying sizes; service support/amenity areas are well distributed; preferred amenities and design support social interaction | 5 | Café and atrium provide cafeteriastyle seating; No booths or soft seating social areas exist |
| Food Serving Areas | Food and service areas are not visible, access to points of service is difficult or obstructed; design impedes ability to choose, receive service and complete transaction | Food and service areas are easily seen and accessed, design facilitates decision, service and speedy transaction | 5 | Somewhat awkward circulation between service points with dishroom in the middle; Entrée stations can be a bottleneck during peak service; Design encourages straight-line queuing. Serving and food areas are not integrated into seating areas |
| Facility <br> Functionality: Staff <br> Perspective | Poor Practice (1) | Best Practice (10) | Rating | Notes |
| Service Areas | Serving area counters and equipment limit menu options and speed of service; lack of diverse and properly placed storage and holding; design negatively impacts quality and/or speed of service daily | Serving counters and equipment facilitate menu options and speed of service; diverse and properly placed storage and holding; design positively impacts quality and/or speed of service daily | 4 | Limited exhibition cooking capability diminishes the ability to execute diverse menus at a best practice level; Insufficient storage on service line |
| Kitchen Production | Insufficient equipment for production needs; Layout and work flow negatively impacts productivity and/or quality; Insufficient or improvised work areas | Equipment selection and inventory supports daily and future production needs; Layout and workflow facilitates daily productivity | 5 | Well equipped with good workspaces; Some equipment nearing the end of useful life; Refrigeration configuration negatively affects productivity |
| BOH Support Areas | Storage allocation and balance negatively affects daily operations; Improvised storage or staging areas; Receiving and sanitation areas and/or equipment are inadequate | Storage allocation and balance facilitates daily operations; Staging, receiving and sanitation areas support current operations and potential growth | 5 | Segregated refrigeration with somewhat constrained access; Sufficient space but layout creates extra travel |

| NAME | A-I Dining Hall (continued) |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
| Facility Aesthetics | Poor Practice (1) | Best Practice (10) | Rating | Notes |
| Signage | Institutional materials and layout; Design does not define identity of station or unit; Negatively affects customer experience and ambiance | Use of interesting and attractive materials and layout; Design supports identity of station or unit; Contributes positively to customer experience and ambiance |  | Non-existent trade dress; Generic paper menus and signs |
| Serving Area | Institutional or low quality materials; Lighting and aesthetics negatively impacts service experience | Abundant natural materials; Lighting and aesthetics enhance positive service experience | 4 | Some not fully developed and integrated; Serving area lighting is not optimal |
| Dining Room | Institutional or low quality materials; Lighting negatively affects dining experience; Design is haphazard and nonintegrated; Aesthetics negatively affects ambience and customer experience | Abundant natural materials; Lighting helps create atmosphere conducive to customer experience; Design is integrated and has sense of destination; Overall, aesthetic qualities contribute to ambience and helps promote a positive customer experience | 4 | Brick, paint and linoleum finishes; Space lacks intimacy and the sense of a welcoming destination; Two atriums provide ample natural light |
| Facility Capacity | Poor Practice (1) | Best Practice (10) | Rating | Notes |
| Point Of Sale (POS) Checking Stations | Insufficient POS / Checking stations create transaction bottleneck characterized by long lines | Sufficient POS / checking resources to meet peak demand. Ability to expand to meet new demand | 10 | AYCE: Single attendant at entrance is sufficient |
| Serving Area | Insufficient points of service; Lack of space impacts mobility and slows service; Serving area cannot adequately meet peak demand or production capacity is so much greater than demand that it negatively affects aesthetics, ambiance or operational efficiency | Production and circulation in balance with peak demand; Serving area successfully meats minimum and maximum demand while contributing positively to customer experience and operational efficiency | 5 | Given the existing number of students consuming meals during a day-part, appears to be sufficient; however as program improves will be inadequate |
| Dining Room | Insufficient seating through meal periods | Sufficient seating at peak demand | 5 | Sufficient seating at current meal participation rates; will not be enough as residential dining program elements improve |

| NAME | A-I Dining Hall (continued) |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
| Operational Assessment | Poor Practice (1) | Best Practice (10) | Rating | Notes |
| Food Quality and Freshness | Extensive use of prepared products; Food improperly seasoned or prepared; Holding procedures that negatively affect food quality and/or safety | $100 \%$ cook from scratch; Food correctly seasoned and prepared; Small batch cooking and holding maximizes quality and temperature of food served | 5 | Overall flavor is good; Frozen pizzas; No exhibition cooking |
| Menu Variety | Static menu, limited offerings, menu random and non-complementary, limited cooking methods | Varied types of food, preparation methods, menu items complement each other, active rotation of menu and specials | 2 | Extremely limited: 2 dinner entrees, 1 breakfast choice |
| Menu Fit to Concept and Strategy | Menu items do not fit concept, generic offerings | Authentic and/or innovative dishes that are all tied to the concept | 2 | Generic menu; No sense of theme or composition |
| Healthy Options | Inappropriate portions, high fat content, high calorie count, manufactured foods | Moderate portions of low fat food that are prepared from raw, natural ingredients | 2 | Only low fat options are cold and from the salad bar. |
| Exhibition Cooking | No provision for customization or to-order service; No display cooking | Extensive and consistent opportunities to customize food; Regular use of display cooking to promote and merchandise menu | 1 | No display, small batch or cooking to order despite extensive equipment that would facilitate such techniques |
| Food Appearance and Display | Food lacks color and freshness; Display is unappealing and inconsistent | Food looks fresh and colorful; Display is appetizing, attractive and plentiful | 2 | Large batches of fried rice cooked and held for service. No garnish, side dishes or display |
| Retail Merchandising | Shelves and retail display are not consistently stocked; Items are not arranged attractively; Labels not aligned | Shelves and retail display are consistently stocked; Items are arranged attractively; Labels aligned | NA |  |

| NAME | Arroyo Vista Café |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
| Location | Alumni Center | Seating |  | 64 Indoors; 28 Outdoors |
| Dining Division | Retail | Service Style |  | Table Service |

| NAME | The Barn |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
| Location | Southwest Campus (East of Highway) | Seating |  | 118 Indoors; 183 Outdoors |
| Dining Division | Retail | Service Style |  | Walk-up Counter, Table Service |
| Menu |  |  |  |  |
| Menu Concept | Sandwiches, Salads, Pasta, Grilled Items |  |  |  |
| \# of Menu Items | 34 items |  |  |  |
| Specific Examples | Sandwich/ salad $\$ 6.40-\$ 6.95$ <br> Burgers $\$ 6.99-\$ 7.20$ <br> Appetizers $\$ 1.50-\$ 4.50$ <br> Salads $\$ 6.40-\$ 6.90$ |  |  |  |
| Facility Condition | Poor Practice (1) | Best Practice (10) | Rating | Notes |
| Dining Room | Floor, ceiling or walls in need of immediate repair or replacement, specific and credible health/safety concerns | As new | 6 | Dining room and kitchen scheduled for renovation to increase throughput required by demand |
| Dining Room Furniture | Furniture severely dated, institutional or in severe disrepair | As new | 6 | Some patina |
| Serving Area Floor/Counters | Severely dated and institutional, need of significant repair or replacement, poses safety concerns | As new | 5 | Counters are high, so customers cannot see their food being prepared |
| Serving Area Equipment | Non-functioning or does not support service goals of the program | In excellent physical condition, facilitates service goals of the program | 4 | Heavy patina, and cannot accommodate the demand for this zone of campus |
| Kitchen | Floor, ceiling or walls in need of immediate repair or replacement, specific and credible health/safety concerns | As new | 5 | Walls chipped, ceiling discolored, floor in fairly good condition |
| Kitchen Equipment | Non-functioning or does not support production needs of the program | In excellent physical condition, facilitates production needs of the program | NA | Exhibition kitchen is rated under serving area |
| Back of House Support | Storage, sanitation or loading dock in need of immediate replacement or repair, specific and credible health/safety concerns | Fully functioning, as new | 5 | Requires several steps since it is not directly adjacent to cooking line |

| NAME | The Barn (continued) |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
| Facility Functionality: Customer Perspective | Poor Practice (1) | Best Practice (10) | Rating | Notes |
| Access | Location is difficult to find, physical barriers impede entry; entry is physically uninviting and provides no indication of operational identity | Location is easy to find and enter; entry is visually appealing and shows design elements that are integrated into the identity of the operation | 10 |  |
| Dining Room | Insufficient seating; poor accommodations for large groups and singles; service support/amenity areas are difficult to access or poorly distributed; preferred amenities non-existent; design inhibits social interaction | Sufficient seating at all times, Dining Room accommodates groups of varying sizes; service support/amenity areas are well distributed; preferred amenities and design support social interaction | 5 | Dining room has limited amenities, lack of interior seating choices; exterior seating is pleasant and conducive to conversations |
| Food Serving Areas | Food and service areas are not visible, access to points of service is difficult or obstructed; design impedes ability to choose, receive service and complete transaction | Food and service areas are easily seen and accessed, design facilitates decision, service and speedy transaction | 3 | Counter, production and Point Of Sale stations are limited, which restricted access and increases cross traffic, service and delivery times |
| Facility Functionality: Staff Perspective | Poor Practice (1) | Best Practice (10) | Rating | Notes |
| Service Areas | Serving area counters and equipment limit menu options and speed of service; lack of diverse and properly placed storage and holding; design negatively impacts quality and/or speed of service daily | Serving counters and equipment facilitate menu options and speed of service; diverse and properly placed storage and holding; design positively impacts quality and/or speed of service daily | 2 | Kitchen and service space is constrained for such a large menu |
| Kitchen Production | Insufficient equipment for production needs; Layout and work flow negatively impacts productivity and/or quality; Insufficient or improvised work areas | Equipment selection and inventory supports daily and future production needs; Layout and workflow facilitates daily productivity | 4 | All customer production is done from the front line; Support kitchen is limited and small with limited capacity and functionality |
| BOH Support Areas | Storage allocation and balance negatively affects daily operations; Improvised storage or staging areas; Receiving and sanitation areas and/or equipment are inadequate | Storage allocation and balance facilitates daily operations; Staging, receiving and sanitation areas support current operations and potential growth | 4 | Limited storage |

| NAME | The Barn (continued) |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
| Facility Aesthetics | Poor Practice (1) | Best Practice (10) | Rating | Notes |
| Signage | Institutional materials and layout; Design does not define identity of station or unit; Negatively affects customer experience and ambiance | Use of interesting and attractive materials and layout; Design supports identity of station or unit; Contributes positively to customer experience and ambiance | 7 | Fairly effective use of graphics, although somewhat awkward to read when at the register |
| Serving Area | Institutional or low quality materials; Lighting and aesthetics negatively impacts service experience | Abundant natural materials; Lighting and aesthetics enhance positive service experience | 8 | Good use of natural material and accent lighting |
| Dining Room | Institutional or low quality materials; Lighting negatively affects dining experience; Design is haphazard and nonintegrated; Aesthetics negatively affects ambience and customer experience | Abundant natural materials; Lighting helps create atmosphere conducive to customer experience; Design is integrated and has sense of destination; Overall, aesthetic qualities contribute to ambience and helps promote a positive customer experience | 4 | Low quality, institutional seating and tables, molded plastic chairs in non-descript dining area; Courtyard is very nice but equipped with generic patio furniture |
| Facility Capacity | Poor Practice (1) | Best Practice (10) | Rating | Notes |
| Point Of Sale (POS) / <br> Checking Stations | Insufficient POS / Checking stations create transaction bottleneck characterized by long lines | Sufficient POS / checking resources to meet peak demand. Ability to expand to meet new demand | 5 | 1 POS is appropriate given production capacity, complexity of menu; however demand requires more production space, which in turn would require additional POS |
| Serving Area | Insufficient points of service; Lack of space impacts mobility and slows service; Serving area cannot adequately meet peak demand or production capacity is so much greater than demand that it negatively affects aesthetics, ambiance or operational efficiency | Production and circulation in balance with peak demand; Serving area successfully meats minimum and maximum demand while contributing positively to customer experience and operational efficiency | 2 | Exhibition kitchen is too small to serve the number of customers and the size of the menu. |
| Dining Room | Insufficient seating through meal periods | Sufficient seating at peak demand | 6 | Plenty of seating for current production capacity; however not adequate if actual customer demand could be accommodated |

| NAME | The Barn (continued) |  |  |  |
| :--- | :--- | :--- | :---: | :---: |
| Operational <br> Assessment | Poor Practice (1) | Best Practice (10) | Rating | Notes |
| Food Quality and <br> Freshness | Extensive use of prepared <br> products; Food improperly <br> seasoned or prepared; <br> Holding procedures that <br> negatively affect food <br> quality and/or safety | $100 \%$ cook from scratch; <br> Food correctly seasoned and <br> prepared; Small batch <br> cooking and holding <br> maximizes quality and <br> temperature of food served | 10 | Food quality is at level of a <br> good restaurant. Food is <br> freshly prepared and colorful |
| Menu Variety | Sattic men, limited <br> offerings, menu random and <br> non-complementary, limited <br> cooking methods | Varied types of food, <br> preparation methods, menu <br> items complement each <br> other, active rotation of <br> menu and specials | 6 | Menu variety is adequate for <br> equipment available; Menu is <br> too large for kitchen size and <br> seating |
| Menu Fit to Concept <br> and Strategy | Menu items do not fit <br> concept, generic offerings | Authentic and/or innovative <br> dishes that are all tied to the <br> concept | 6 | Menu breadth fits well with <br> concept and is limited based <br> on the equipment available |
| Healthy Options | Inappropriate portions, high <br> fat content, high calorie <br> count, manufactured foods | Moderate portions of low fat <br> food that are prepared from <br> raw, natural ingredients | 6 | Offers some healthy and <br> vegetarian options |
| Exhibition Cooking | No provision for <br> customization or to-order <br> service; No display cooking | Extensive and consistent <br> opportunities to customize <br> food; Regular use of dizplay <br> cooking to promote and <br> merchandise menu | 6 | Exhibition cooking, to order <br> preparation on all foods except <br> not visible to the customer |
| Food Appearance and <br> Display | Food lacks color and <br> freshness; Display is <br> unappealing and <br> inconsistent | Food looks fresh and <br> colorful; Display is <br> appetizing, attractive and <br> plentiful | 10 | Food freshly prepared and <br> presented very well on a <br> consistent basis; ;ood is <br> visually appealing, generous <br> and aesthetically pleasing |
| Retail Merchandising | Shelves and retail display <br> are not consistently stocked; <br> Items are not arranged <br> attractively; Labels not <br> aligned | Shelves and retail display <br> are consistently stocked; <br> Items are arranged <br> attractively; Labels aligned | NA |  |

## PROPOSED SPACE PROGRAM FOR A-I EMPORIUM

With the proposed changes for the residential dining program coupled with $100 \%$ occupancy on campus, the demand for dining in the residential zone of campus is expected to increase. Furthermore, residents living in Aberdeen - Inverness Halls currently do not have any attractive late night dining options available to them. Creating a Food Emporium, which may incorporate a national or regional brand, will accommodate the late night dining expectations for residents living in this zone of campus. Table 1 that follows depicts a proposed space allocation for an emporium in Wing D of the Aberdeen - Inverness (A-I) complex.

Table 1 Proposed Space Program for the A-I Emporium

| Program Area | ASF | Vision / Comments |
| :--- | ---: | :--- |
| Indoor Seating | 950 | Includes Soft Seating; Additional seating available on <br> patio |
| Prepared Food Platforms | 900 | Two platforms with some back of house support |
| Merchandising | 500 |  |
| Beverage Cooler | 250 | Beverage cooler display also services as cold storage |
| Cashiering / Circulation | 450 |  |
| Storage | 225 | Dry storage |
| Pot Wash / Chemicals | 160 | Pot sink, chemical storage, janitor closet |
| Support | 185 | Employee restroom; Offices; Safe for cash handling |
| Indoor Seating | 950 | Includes Soft Seating; Additional seating available on <br> patio |
| Total Indoor ASF | $\mathbf{3 , 6 2 0}$ |  |

## PROPOSED SPACE PROGRAM FOR A-I RESIDENTIAL DINING

In addition to the proposed changes for the residential dining program, the phasing of additional beds on campus will increase the demand for an All You Care to Eat (AYCE) dining. The space program for an AYCE dining program at A-I during the initial phase of the Dundee Housing development is depicted in Table 2 that follows and assumes the following:

- $20 \%$ of the dinner customer will opt to use a different dining venue, such as the A-I Emporium or the Taco Fresco Truck;
- $55 \%$ of the dinner customers will arrive during the peak hour of service;
- Customers that do dine in the AYCE venue will occupy a seat 40 minutes during dinner; and,
- $\quad$ Seating efficiency will be $80 \%$.

Table 2 Proposed Space Program for A-I Residential Dining.

| Program Area | ASF | Vision / Comments |
| :--- | ---: | :--- |
| Indoor Seating | 8,960 | 560 seats; Includes a mix of seating - booths, high tops <br> and community seating |
| Serving Area | 4,400 | Double sided EuroKitchen (Service from both sides) plus <br> two single production platforms; Salad/Soup Bar; <br> Beverage Bars |
| Kitchen | 2,530 | Includes pot wash and kitchen circulation |
| Bakery | 410 |  |
| Refrigerated Storage | 950 |  |
| Dry Storage | 950 |  |
| Dish Room | 1,000 | Accumulator for trays, Flight dishwasher |
| Offices | 600 |  |
| Employee Lockers | 756 |  |
| Other Support | 202 | Janitor closets for front and back of house as well as cart <br> washing |
| Total Indoor ASF | $\mathbf{2 0 , 7 5 8}$ |  |

Note: The above space allocation does not include the following, which architect will determine:

1. Trash dumpster and recyclable containers for oil waste, paper, cardboard, plastics and compostable products

## PROPOSED SPACE PROGRAM FOR THE BARN, THE COTTAGE AND UNIVERSITY CLUB

## The Barn

Historically the Barn has been a social gathering place for UCR's campus community, where students, faculty and staff regularly meet and dine both inside and on the outside patio. It also serves as an entertainment venue on select evenings during the week for the campus community. In recent years, the Barn began servicing the University Club, where the private dining room adjacent to the main dining area accommodates some of the Club events. When not in use, this space is available for rent by other members of the community.

## TARget Markets

The location of the Barn is such that it is the most southern dining venue on the UCR Campus, within close walking distance to many academic buildings and on a walking path for those who park their vehicles in Lot P30. An analysis indicated that there are approximately 3,617 classroom seats within a three minute walk of the Barn and that as many as $75 \%$ of these seats may be occupied during the hours of 11:00am to $2: 00 \mathrm{pm}$ on an academic day. Using a current faculty/staff to student ratio of $32 \%$, this implies a potential customer base of 3,581 . Realizing that these potential customers may opt to dine off-campus or brown bag their lunch, Dining Service management and their consultant estimated that $45 \%$ may purchase a lunch meal on campus. This estimate considers capture rates from recent market research studies indicating that $32 \%$ of faculty and staff and $34 \%$ of non-residential students currently purchase lunch on campus, and that the existing Barn layout and design cannot accommodate high volume throughputs, resulting in long service lines that reportedly act as deterrents to most customers.

Since a wider variety of menu offerings is available at the Highlander Union Building (HUB), the reality is that many of these potential customers may choose to walk there instead of the Barn. For purposes of this analysis, it is estimated that $30 \%$ of the students and $70 \%$ of the faculty and staff would walk to the Barn, with the remaining percentages opting for the HUB. Taking into consideration the above assumptions, this implies that the Barn should be sized to serve as many 640 customers for lunch, which is more than double existing peak lunch counts of 301.

## Menu Offerings

The current vision for menu offerings at the Barn includes exhibition-style food platforms consisting of a Grill, Salad/Sandwich and Pizza using a hearth style oven. To help manage product and customer flow, all food items prepared at the service platforms will funnel to an Expediting/Customer Pick Up Station that is remote to the Point of Sale (POS) registers where customers order and pay. The Grill line ideally will be located in the kitchen to maximize equipment use for catering, with a pass-through window to the Expediting Station and cooking personnel visible to the serving area. In addition to the three service platforms, a double-sided service bar offering beer and wine will be accessible from both the interior and exterior dining areas.

The Barn will also produce grab ' n go products, and as many as 425 items will be made daily in the kitchen and distributed to other small dining venues on campus. On special occasions, the Dining Services staff will cook on the built-in, outdoor BBQ grill that will be designed as a self-sustaining service platform, with its own refrigeration, POS register and hot/cold wells.

In addition to serving retail customers, the Barn will be responsible for providing most of the food and catering services for the University Club.

## Space Allocation

Other assumptions incorporated into the Demand Analysis are:

1. $50 \%$ of the 640 lunch customers will arrive during the peak hour of service;
2. $10 \%$ of lunch customers will take their meal to go;
3. Those that choose to dine in will occupy a seat for 45 minutes;
4. Not every seat will be occupied, generating a $75 \%$ seating efficiency, i.e. three occupants at a table for four; and,
5. The majority of customers will prefer outdoor seating.

The above assumptions generate a demand for 288 seats, of which 178 are recommended to be outdoors. Table 3 that follows depicts a summary of the proposed assignable square foot allocation (ASF) for the Barn's dining program.

Table 3 Proposed Dining Space Program for the Barn

| Program Area | ASF | Vision / Comments |
| :--- | ---: | :--- |
| Production Kitchen | 960 | Cold production for Barn, Catering (for Barn and <br> University Club), and Grab 'n Go products; Ice maker |
| Cold Prep | 640 | Hot production line to include finishing and baking <br> capability; Grill that produces menu items for the serving <br> area, University Club dining and catering requests |
| Hot Production | 320 | Walk-in coolers for bulk food, finished product and beer; <br> Beer cooler must be lockable |
| Refrigerated Storage | 120 | Walk-in freezer |
| Frozen Storage | 470 | Separate lockable areas for food, liquor and catering <br> equipment |
| Dry Storage | 200 | Includes cart marshalling; Recycling and compost bins |
| Receiving, Recycling, Staging Area | 2,710 | 500 |
| Total Production Kitchen | Conveyor dishwasher, pot sink, mop sink, chemical <br> storage, shelving |  |
| Ware washing | 340 | Unisex toilet and changing room; Lockers; Manager's <br> office; Production office with two shared stations to <br> accommodate four people; Safe for cash handling |
| Back of House Support | 1,120 | Two food platforms and a serpentine queuing system for <br> customers (next available cashier); Self-service beverage <br> bar adjacent to Service Bar; Service Bar has under-counter <br> glass washer and bar sink |
| Serving Area | 1,760 | Café-style seating for 110 |
| Indoor Seating | $\mathbf{6 , 4 3 0}$ |  |
| Total Indoor ASF | 2,996 | Café-style seating for 178 and an outdoor BBQ and <br> condiment station |
| Outdoor Space | $\mathbf{9 , 4 2 6}$ |  |
| Total indoor / Outdoor ASF |  |  |

Note: The above space allocation does not include the following, which architect will determine:
2. Performance Stage for the indoor dining area
3. Loading dock that will accommodate two vehicles at one time as well as a trash dumpster, recyclable containers for oil waste, paper, cardboard, plastics and compostable products
4. Mat / cart washing area on loading dock

## The Cottage

When The Cottage relocates to the Barn Complex, it will become an intimate coffee venue featuring espressos, specialty coffee drinks, pastry items, and limited grab ' $n$ go options. The coffee venue will open early so that campus constituents on the south end of campus or those who park their vehicles in Lot P30 will be able to stop and purchase a cup of coffee on their way to class or work. This morning service will be a new service for this zone of the campus, since the Barn currently does not open until 10:30am. Customers who do not have time constraints or may be on a mid-morning or mid-afternoon break will have the option of enjoying their purchase on the porch, where limited seating will be available. Although The Cottage will serve primarily beverages, the production kitchen in the Barn will provide and support a menu of light foods for this location. Table 2 that follows indicates the proposed assignable square foot allocation for The Cottage.

## Proposed Space Program for The Cottage

When The Cottage relocates to the Barn Complex, it will become an intimate coffee venue featuring espressos, specialty coffee drinks, pastry items, and limited grab ' $n$ go options. The coffee venue will open early so that campus constituents on the south end of campus or those who park their vehicles in Lot P30 will be able to stop and purchase a cup of coffee on their way to class or work. This morning service will be a new service for this zone of the campus, since the Barn currently does not open until 10:30am. Customers who do not have time constraints or may be on a mid-morning or mid-afternoon break will have the option of enjoying their purchase on the porch, where limited seating will be available. Although The Cottage will serve primarily beverages, the production kitchen in the Barn will provide and support a menu of light foods for this location. Table 4 that follows indicates the proposed assignable square foot allocation for The Cottage.

Table 4 Proposed Dining Space Program for the Cottage

| Program Area | ASF | Vision / Comments |
| :--- | ---: | :--- |
| Serving Area | 294 | Coffee brewers, blenders and two bakery display cases <br> (ambient and refrigerated) and under-counter dishwasher; <br> a serpentine queuing system for customers (next available <br> cashier); Self-serve condiment station |
| Back of House Support |  |  |
| Dry Storage | 64 |  |
| Refrigerated Storage - Bulk | 36 | Walk-in cooler |
| Office | 64 |  |
| Pot Washing | 60 |  |
| Unisex Employee Toilet | 48 | If required by code |
| Ice Making/Prep/Miscellaneous Support | 48 |  |
| Jonitor's Closet/Chemical Storage | 24 |  |
| Total Back of House Support | 344 |  |
| Total Indoor ASF | $\mathbf{6 3 8}$ |  |
| Outdoor Seating by Architect |  |  |

Notes:

1. The above space allocation does not include holding areas for trash containers, recyclable containers for paper, cardboard, plastics and compostable products, or public restrooms, which architect will determine.
2. Any deliveries and cart washing is expected to occur at The Barn.

## The Barn Stable (University Club)

When the Barn Stable relocates so that it becomes more of an annex to the Barn, it will provide an excellent opportunity for Dining Services to cater and accommodate University Club events as well as other small meetings and events requested by the campus community. The Barn Stable will seat 54 guests indoors and 56 guests outdoors. The indoor/outdoor configuration will support two separate events occurring at the same time, or the doors can open to accommodate one larger group of 110 . The new meeting rooms will create meeting and catering space that currently is unavailable in this zone of the campus, and it will provide opportunities for Dining Services to increase catering revenues.

Depending on the complexity of the menu and time of the event, catering production for any food requests for the Barn Stable's meeting rooms may be produced in the production kitchen of the Barn or by the campus-catering department. To support finish production and plating, the catering pantry located in the Barn Stable should include at least the following:

1. A three- compartment sink with separate shelving units for soiled pots and clean pots
2. Cart parking area with electrical outlets for 4 carts
3. Cook line with an exhaust hood to include:
a. Two-basket fryer
b. 36" griddle with oven below
4. An 8 ' to $10^{\prime}$ work counter with an under-counter dish machine for glassware
5. Plating table
6. A wire rack shelf/lockable cage for liquor storage
7. A single section roll-in refrigerator
8. One hand sink

There will be a walk-up bar at the Barn Stable to accommodate alcohol service for both indoor and outdoor seating. Foodservice design elements for this area include:

1. Bar top with beer taps, one POS register and under-counter ice maker
2. Back bar with under-counter refrigeration
3. Glass dishwasher
4. Bar sink

A janitorial closet will also be necessary for the Barn Stable and it should contain, at a minimum:

1. A mop sink
2. Storage for cleaning equipment
3. Storage for cleaning chemicals

## PROPOSED SPACE PROGRAM FOR CANYON CREST PHASE 1 CAFÉ / EMPORIUM

It is recommended that the Canyon Crest Café / Emporium be built in conjunction with during the Phase 1 Dundee Housing Development.

Table 5 Proposed Dining Space Program for Canyon Crest Café / Emporium

| Program Area | ASF | Vision / Comments |
| :--- | ---: | :--- |
| Serving Area: |  |  |
| Merchandising | 750 | Includes refrigerated storage and display for bottled <br> beverages |
| Self Service Beverage Kiosk | 130 | Includes queuing |
| Coffee Platform | 300 | Includes queuing |
| Food Platform \#1 | 410 | Includes queuing |
| Food Platform \#2 | 410 | Includes queuing |
| Cashiering and General Circulation | 150 |  |
| Total Serving Area | 2,150 |  |
| Prep Area | 200 |  |
| Dry Storage | 250 |  |
| Ware Washing | 330 | Includes dish machine assembly and pot washing |
| Back of House Support: | 70 |  |
| Receiving area | 220 |  |
| Office | 120 |  |
| Unisex Employee Restroom and Lockers | 100 |  |
| Miscellaneous Support | 30 |  |
| Janitor's Closet/Chemical Storage | 540 |  |
| Total Back of House Support | 1,500 | $80-90$ Indoor seats including soft seating |
| Indoor Seating | $\mathbf{4 , 9 7 0}$ |  |
| Total Indoor ASF | 1,100 | 60 Outdoor seats plus a fire pit |
| Outdoor Patio Seating |  |  |

Note:

1. The above space allocation does not include holding areas for trash containers, recyclable containers for paper, cardboard, plastics and compostable products, or public restrooms, which architect will determine.

## PROPOSED SPACE PROGRAM FOR CANYON CREST PHASE 2 CONFERENCE CENTER KITCHEN

Conference Center is to be built in conjunction with Phase 2 Dundee Housing development. The Phase 2 food service program includes a Catering Kitchen that is designed to support campus-wide catering as well as conference center catering.

Table 6 Proposed Dining Space Program for Dundee Catering Kitchen

| Program Area | ASF | Vision / Comments |
| :---: | :---: | :---: |
| Offices: |  |  |
| 4 Person Sales Office with Waiting Area and Conference Room | 720 |  |
| 4 Person Production Office and Conference Room | 480 |  |
| Conference Room | 120 |  |
| Receiving/Storekeeper's Office | 80 |  |
| 2 Person Manager's Office |  |  |
| Culinary Manager/Principal Cook's Office |  |  |
| 3 Person Supervisor's Office/Student Managers |  |  |
| Cash Counting Office |  |  |
| Cash Handling Office |  |  |
| Total Office Space | 1,400 |  |
| Storage: |  |  |
| Equipment Storage | 360 |  |
| Props Storage | 180 |  |
| Linen Storage | 120 |  |
| China, Glass, Silver Storage | 300 |  |
| Paper Storage | 450 |  |
| Dry Food Storage | 350 |  |
| Refrigerated/Frozen Storage | 350 |  |
| Liquor Storage | 80 |  |
| Total Storage Space | 2,190 |  |
| Production | 900 | Includes hot and cold production and catering staging |
| Sanitation | 1,260 | Includes dish machine, pot washing, chemical storage and cart washing |
| Support: |  |  |
| Custodial Equipment Room | 150 |  |
| Janitor's Closet | 120 |  |
| Staff Restrooms/Lockers | 350 |  |
| Receiving Area | 200 |  |
| Employee Break Room | 150 |  |
| Total Support Space | 970 |  |
| Loading Dock: |  |  |
| Landfill Dumpster | 32 |  |
| Cardboard Compactor | 160 |  |
| Recycling Dumpster | 64 |  |
| Composting Dumpster | 128 |  |
| Waste Oil | 32 |  |
| Plus 4 Dining Dedicated Loading Bays | NIC |  |
| Total Loading Dock | 416 |  |
| Total Indoor Assignable Square Feet: | 7,136 |  |

## PROPOSED SPACE PROGRAM FOR GLASGLOW RESIDENTIAL RESTAURANT

The Glasgow Residential Restaurant is to be added to the Dundee Catering Kitchen in conjunction with Phase I-Edinburgh Housing development ( 500 beds). This phase of the food service program expands the Catering Kitchen to accommodate production, storage and support for the residential restaurant, as well as the construction of the residential restaurant serving, dining and related support areas. The space requirements noted below are in addition to space currently identified in the Conference Services Program Model. Any residential life office requirements are in addition to the space noted below. The current programmed Catering Pantry is in addition to the space noted below and remains in the program.

Table 7 Proposed Dining Space Program for Glasgow Residential Restaurant

| Program Area | ASF | Vision / Comments |
| :--- | ---: | :--- |
| Additional Offices: |  |  |
| 2 Person Manager's Office | 240 |  |
| Culinary Manager/Principal Cook's Office | 240 |  |
| 3 Person Supervisor's Office/Student Mana | 300 |  |
| Cash Counting Office | 120 |  |
| Cash Handling Office | 640 |  |
| Additional Office Space | 1,540 |  |
| Storage: |  |  |
| Dry Food Storage | 500 |  |
| Refrigerated/Frozen Storage | 800 |  |
| Additional Storage Space | 1,300 |  |
| Additional Production | 800 | Includes additional hot and cold production for |
| residential dining |  |  |
| Additional Sanitation | 200 | Accumulator is added |
| Serving Area | 4,500 |  |
| Dining Space: |  |  |
| Entry/Vestibule | by Architect |  |
| Lockers/Bookdrop | 1,000 |  |
| 400 Seat Dining Room | 6,400 |  |
| 50 Seat Private Dining Room | 800 |  |
| Public Restrooms | by Architect |  |
| Total Dining Space | 8,200 |  |
|  | $\mathbf{1 6 , 5 4 0}$ |  |
| Total Indoor Assignable Square Feet: | 1,600 |  |
|  | $\mathbf{1 , 6 0 0}$ |  |
| 100 Exterior Patio Seats |  |  |
|  |  |  |
| Total Outdoor Assignable Square Feet: |  |  |

## PROPOSED SPACE PROGRAM FOR LENNOX POOLSIDE CAFE

The Lennox Poolside Café is anticipated to become available when the second set of 500 beds is built as part of the Lennox Residential complex. The space requirements noted below do not include space requirements for recreation storage ( 355 sq ft ) or pool storage (300 sq ft).

Table 8 Proposed Dining Space Program for Lennox Poolside Cafe

| Program Area | ASF | Vision / Comments |
| :--- | ---: | :--- |
| Serving Area: |  |  |
| Merchandising | 1,150 | Includes refrigerated storage and display for bottled <br> beverages |
| Self Service Beverage Kiosk | 130 | Includes queuing |
| Food Platform \#1 | 460 | Includes queuing |
| Cashiering and General Circulation | 150 |  |
| Total Serving Area | 1,890 |  |
| Prep Area | 300 |  |
| Dry Storage | 250 |  |
| Pot Washing | 80 |  |
| Back of House Support: | 150 |  |
| Receiving area | 230 | Includes cash counting room |
| Office | 120 |  |
| Unisex Employee Restroom and Lockers | 100 |  |
| Miscellaneous Support | 30 |  |
| Janitor's Closet/Chemical Storage | 630 |  |
| Total Back of House Support | 640 | 40 seats |
| Indoor Seating | 3,790 |  |
| Total Indoor ASF |  |  |
|  | 640 | 40 Outdoor seats plus a fire pit |
| Outdoor Patio Seating |  |  |

## Note:

1. The above space allocation does not include holding areas for trash containers, recyclable containers for paper, cardboard, plastics and compostable products, or public restrooms, which architect will determine.

## PROPOSED SPACE PROGRAM FOR GLEN MOR 2 EMPORIUM

Table 9 Proposed Dining Space Program for Glen Mor 2 Emporium

| Program Area | ASF | Vision / Comments |
| :--- | ---: | :--- |
| Serving Area: |  |  |
| Merchandising | 950 | Includes refrigerated storage and display for bottled <br> beverages |
| Self Service Beverage Kiosk | 130 | Includes queuing |
| Coffee Platform | 300 | Includes queuing |
| Food Platform \#1 | 430 | Includes queuing |
| Food Platform \#2 | 430 | Includes queuing |
| Cashiering and General Circulation | 150 |  |
| Total Serving Area | 2,150 |  |
| Prep Area | 200 |  |
| Dry Storage | 250 |  |
| Ware Washing | 330 | Includes dish machine assembly and pot washing |
| Back of House Support: | 70 |  |
| Receiving area | 160 | Includes cash counting room |
| Office | 120 |  |
| Unisex Employee Restroom and Lockers | 100 |  |
| Miscellaneous Support | 30 |  |
| Janitor's Closet/Chemical Storage | 540 |  |
| Total Back of House Support | 950 |  |
| Indoor Seating | $\mathbf{4 , 9 7 0}$ |  |
| Total Indoor ASF | 1,100 | 60 Outdoor seats |
|  |  |  |
| Outdoor Patio Seating |  |  |

Note:

1. The above space allocation does not include holding areas for trash containers, recyclable containers for paper, cardboard, plastics and compostable products, or public restrooms, which architect will determine.

## PROPOSED SPACE PROGRAM FOR THE ORCHARD (MEDICAL SCHOOL FRUIT STAND)

Table 10 Proposed Dining Space Program for The Medical School Fruit Stand

| Program Area | ASF | Vision / Comment |
| :--- | ---: | :--- |
| Cashier Station/Queuing | 30 |  |
| Refrigerated Merchandising Cases | 72 |  |
| Ambient Merchandising Area/Circulation | 240 |  |
| Tempered Storeroom | 64 |  |
| Janitor's Closet | 16 |  |
| Unisex Restroom/Lockers | 70 | May not be required |
| Total Assignable Square Feet: | $\mathbf{4 9 2}$ |  |

Note:

1. The above space allocation does not include holding areas for trash containers, recyclable containers for paper, cardboard, plastics and compostable products, or public restrooms, which architect will determine.

Appendix F: West Campus Future Retail Planning Metrics

## FUTURE RETAIL DINING PLANNING METRICS

As the University expands its West Campus, the following metrics are provided for consideration when planning for future food service operations in this zone of the campus. All revenue is in current year dollars.

## Convenience Store

Planning Assumptions

- Offers hot and cold beverages, grab 'n go salads and sandwiches, soup, retail snacks
- No other food options are available within a three-minute walk of the convenience store, except perhaps vending machines
- Metric estimated in 2010 Dollars
- 35\% Capture Rate of the population within a three-minute walking distance
- Check Average is $\$ 4.33$
- Convenience Store is open 7 hours per day, five days a week, 50 weeks per year
- Minimal labor includes one full-time food service worker, one part-time work food service worker, (4 hours per day) and a 33\% allocation of a Food Service Manager
- Benefit rate is $37 \%$
- Two week vacation is budgeted as relief for each food service worker
- Labor costs are not allocated for grab ' $n$ go items produced on campus
- Capital costs for build out are not amortized in annual operating costs

Applying the above assumptions to a population of 2,525 within a three-minute walking distance of a convenience store should generate annual revenues of $\$ 956,000$. Revenues less than this amount would require a subsidy to operate. Table 1 that follows indicates other planning assumptions and financial projections based on the assumptions.

Table 1 Planning Assumptions for Convenience Store

| Planning Assumptions |  |  |
| :--- | ---: | ---: |
| Population | 2,525 |  |
| Capture Rate | $35.0 \%$ |  |
| Check Average in 2010 Dollars | $\$ 4.33$ |  |
| Target Net Profit | $7.0 \%$ |  |
| Est. COGS\% | $53.0 \%$ |  |
| Target Labor Cost \% | $25.0 \%$ |  |
| Target Other Direct Cost \% | $15.0 \%$ |  |
| \# of Operating Days | 250 |  |
| \# of Operating Hours / Day | 7 |  |
| Est. \# of Customers / Day | 884 |  |
| Est. \# of Customers / Hour | 126 |  |
| Financial Calcuations |  | $\mathbf{\%}$ of Rev. |
| Estimated Revenues | $\mathbf{\$ 9 5 6 , 6 5 9}$ | $\mathbf{1 0 0 . 0 \%}$ |
| Minimum Labor | $\$ 238,650$ | $24.9 \%$ |
| Est. COGS | $\$ 507,029$ | $53.0 \%$ |
| Est. Other Direct | $\$ 143,499$ | $15.0 \%$ |
| Est. Total Expenses | $\mathbf{8 8 9 9 , 1 7 8}$ | $\mathbf{9 2 . 9 \%}$ |
| Net Profit / Loss | $\mathbf{\$ 6 7 , 4 8 1}$ | $\mathbf{7 . 1 \%}$ |

Table 2 that follows depicts the recommend space allocation for a convenience store for this population and capture rate.

Table 2 Recommended Space Allocation for Convenience Store

| Program Area | ASF |
| :--- | ---: |
| Retail Merchandising \& Circulation | 750 |
| Cashiering \& Queuing | 160 |
| Storage | 350 |
| Office, Safe \& Cash Counting | 100 |
| Employee Restroom \& Changing | 60 |
| Janitor Closet / Pot Wash | 80 |
| Total Square Feet | $\mathbf{1 , 5 0 0}$ |

Note: Space allocation does not include receiving area or trash / recycling holding areas.

## Café

Planning Assumptions

- Offers hot and cold beverages, grab 'n go salads and sandwiches, soup, and a freshly prepared food platform such as deli sandwiches, grill, pizza, etc.
- No other food options are available within a three-minute walk of the café, except perhaps vending machines
- Metric estimated in 2010 Dollars
- 35\% Capture Rate of the population within a three-minute walking distance
- Check Average is $\$ 5.96$
- Café is open 7 hours per day, five days a week, 50 weeks per year, where the freshly prepared products are available approximately 6.5 hours per day
- Minimal labor includes one full-time assistant cook, one full-time cashier, one part-time work food service worker, (4 hours per day) and a 50\% allocation of a Food Service Manager
- Benefit rate is $37 \%$
- Two week vacation is budgeted as relief for the cook and each food service worker
- Labor costs are not allocated for grab ' $n$ go items produced on campus
- Capital costs for build out are not amortized in annual operating costs

Applying the above assumptions to a population of 1,640 within a three-minute walking distance of a café should generate annual revenues of $\$ 855,000$. Revenues less than this amount would require a subsidy to operate. Table 3 that follows indicates other planning assumptions and financial projections based on the assumptions.

Table 3 Planning Assumptions for CAFÉ

| Planning Assumptions |  |  |
| :--- | ---: | ---: |
| Population | 1,640 |  |
| Capture Rate | $35.0 \%$ |  |
| Check Average in 2010 Dollars | $\$ 5.96$ |  |
| Target Net Profit | $2.0 \%$ |  |
| Est. COGS\% | $35.0 \%$ |  |
| Maximum Target Labor Cost \% | $48.0 \%$ |  |
| Target Other Direct Cost \% | $15.0 \%$ |  |
| \# of Operating Days | 250 |  |
| \# of Operating Hours / Day | 7 |  |
| Est. \# of Customers / Day | 574 |  |
| Est. \# of Customers / Hour | 82 |  |
| Financial Calcuations |  | $\mathbf{\%}$ of Rev. |
| Estimated Revenues | $\mathbf{\$ 8 5 5 , 2 6 0}$ | $\mathbf{1 0 0 . 0 \%}$ |
| Minimum Labor | $\$ 410,244$ | $48.0 \%$ |
| Est. COGS | $\$ 299,341$ | $35.0 \%$ |
| Est. Other Direct | $\mathbf{\$ 8 3 7 , 8 7 2}$ | $\mathbf{1 5 . 0 \%}$ |
| Est. Total Expenses | $\mathbf{9 8 . 0 \%}$ |  |
| Net Profit / Loss |  | $\mathbf{2 . 0 \%}$ |

Table 4 that follows depicts the recommend space allocation for a café for this population and capture rate.
Table 4 Recommended Space Allocation for a Café

| Program Area | ASF |
| :--- | ---: |
| Food Platform \& Queuing | 400 |
| Grab 'n Go and Self-Service Beverages | 250 |
| Cashiering \& Queuing | 120 |
| Prep / Ice Machine | 150 |
| Storage | 250 |
| Office, Safe \& Cash Counting | 100 |
| Employee Restroom \& Changing | 60 |
| Miscellaneous Support | 100 |
| Janitor Closet / Pot Wash | 120 |
| Total Square Feet | $\mathbf{1 , 5 5 0}$ |

Note: Space allocation does not include receiving area or trash / recycling holding areas.

## Emporium

## Planning Assumptions

- Offers hot and cold beverages, specialty coffees, grab 'n go salads and sandwiches, soup, and one freshly prepared food platform such as deli sandwiches, grill, pizza, etc. along with retail snacks
- No other food options are available within a three-minute walk of the emporium, except perhaps vending machines
- Metric estimated in 2010 Dollars
- $35 \%$ Capture Rate of the population within a three-minute walking distance
- Check Average is $\$ 5.66$
- Emporium is open 7 hours per day, five days a week, 50 weeks per year, where the freshly prepared products are available approximately 6.5 hours per day
- Minimal labor includes one full-time assistant cook, one full-time cashier, one part-time work food service worker, (6 hours per day) and a 50\% allocation of a Food Service Manager
- Benefit rate is $37 \%$
- Two week vacation is budgeted as relief for the cook and each food service worker
- Labor costs are not allocated for grab ' $n$ go items produced on campus
- Capital costs for build out are not amortized in annual operating costs

Applying the above assumptions to a population of 2,365 within a three-minute walking distance of an emporium should generate annual revenues of $\$ 957,000$. Revenues less than this amount would require a subsidy to operate. Table 5 that follows indicates other planning assumptions and financial projections based on the assumptions.

Table 5 Planning Assumptions for Emporium

| Planning Assumptions |  |  |
| :--- | ---: | ---: |
| Population | 2,365 |  |
| Capture Rate | $35.0 \%$ |  |
| Check Average in 2010 Dollars | $\$ 5.66$ |  |
| Target Net Profit | $5.0 \%$ |  |
| Target COGS\% | $50.0 \%$ |  |
| Target Labor Cost \% | $35.0 \%$ |  |
| Target Other Direct Cost \% | $10.0 \%$ |  |
| \# of Operating Days | 250 |  |
| \# of Operating Hours / Day | 7 |  |
| Est. \# of Customers / Day | 828 |  |
| Est. \# of Customers / Hour | 118 |  |
| Financial Calcuations | $\mathbf{\%}$ |  |
| Estimated Revenues | $\mathbf{\$ 1 , 1 7 1 , 6 8 0}$ | $\mathbf{1 0 0 . 0 \%}$ |
| Minimum Labor | $\$ 410,581$ | $35.0 \%$ |
| Est. COGS | $\$ 585,840$ | $50.0 \%$ |
| Est. Other Direct | $\$ 117,168$ | $10.0 \%$ |
| Est. Total Expenses | $\mathbf{\$ 1 , 1 1 3 , 5 8 9}$ | $\mathbf{9 5 . 0 \%}$ |
| Net Profit / Loss | $\mathbf{\$ 5 8 , 0 9 1}$ | $\mathbf{5 . 0 \%}$ |

Table 6 that follows depicts the recommend space allocation for an emporium for this population and capture rate.

Table 6 Recommended Space Allocation for an Emporium

| Program Area | ASF |
| :--- | ---: |
| Food Platform \& Queuing | 400 |
| Retail Merchandizing | 200 |
| Grab 'n Go and Self-Service Beverages | 250 |
| Cashiering \& Queuing | 160 |
| Prep / Ice Machine | 200 |
| Storage | 300 |
| Office, Safe \& Cash Counting | 100 |
| Employee Restroom \& Changing | 60 |
| Miscellaneous Support | 100 |
| Janitor Closet / Pot Wash | 120 |
| Total Square Feet | $\mathbf{1 , 8 9 0}$ |

Note: Space allocation does not include receiving area or trash / recycling holding areas.
